MAJESON, Wis., June 15 (AP)—Two University of Washington crews victorious over Wisconsin today set out for Poughkeepsie, N. Y., hospital of having the surprise entrant of the intercollegiate regatta.

The Husky varsity boat, revealing smooth power, won over the University of Wisconsin crew yesterday in two-mile race on the waters of Lake Mendota. Timed in 11:02, the Huskies won almost as they liked, although their margin over the Badgers was little more than a length.

CARDINALS BACK IN FIRST PLACE

St. Louis Wins From Boston to Replace Pittsburg At Top of Ladder.

By William J. Chipman (Associated Press Sports Writer)

After two days of vain battling against rain squalls, the Cardinals settled themselves yesterday to the more pleasant task of beating the Braves. The Red Birds celebrated the delayed opening of the Boston series by shattering Judge Foster's Tribe, 4 to 3, and so regained first place by the precarious margin of half a game, or two percentage points. The Giants paved the way for this Cardinal advance by turning back the Pirates, 7 to 2, after taking two three-runners poked on the chin in the two preceding afternoons.

The Pirates can't win them all, and this becomes particularly evident when a pitcher like Larry Benton achieves his highest form. Benton gave the hard swinging Birminghams just seven hits, and secured his in any danger after the Giants knocked Jess Petty from the box in the first inning. It was City's second knockout in two days.

Dodgers Win Six Eleventh
Brooklyn committed three misplays in the ninth at Cincinnati yesterday, enabling the Reds to score three times and tie, but won the game in the eleventh when Ethel walked and scored on Fredrick's double. It was Brooklyn's second straight victory over the Reds.

The Athletics and the Yankees won their customary victories yesterday. Maintaining the eight game gap by which the Athletics lead, The Mack humiliated Cleveland a second time as Bob Grove turned in the ball to win by 3 to 0, and the Huguenots stumped the Tigers, 15 to 4.

The Yankees had another fine hitting afternoon, raking George Thibault and John Fournier for 17 blows, including Lou Gehrig's sixteenth and seventeenth home runs.

Uhl's Third Loss
The defeat was Uhl's third in succession, and was the hardest hitting he has experienced since breaking his run of nine victories. Twelve Yankee hits, including both of Gehrig's homers, rained upon him in two official innings. He was lifted in the third.

Washington about faced and defeated the White Sox by 4 to 1 and the Browns nosed out the Red Sox by 7 to 6 in remaining American league fixtures.

End FOOT PAINS
In 10 minutes—or costs you nothing
SCIENCE says 94% of all foot pains result from weakened muscles. Now a way is discovered to assist and strengthen these muscles. That burning, aching, tired feeling in the feet and legs—foot calluses, pains in toes, instep, ball or heel—dull ache in the ankle, calf or knee—spreading of the feet, or that broken-down feeling—all can now be quickly ended. Too Beautiful To Be Spoiled With Cooking

These summer days are entirely too nice to have them spoiled with half of the day spent in a hot kitchen preparing meals. It's the time of year you should be outside—and when mealtime comes, this fine coffee shop is the ideal place to satisfy the inner man—and woman.

If it gets too hot, try cold meats and salad for lunch—with a big glass of iced tea. There's always a tempting variety of good food—and for dinner, too.

Bill Dollar Helps Every Person He Contacts in His Journeys

"Bill" Dollar was tired after a strenuous day shopping in La Grande stores. He had been tossed from place to place, but in spite of the rough handling he had received he still retained his cheerful smiles for he was doing good to all of the people he came in contact with. Because every merchant who received him in the regular course of business made a profit on the goods sold.

"It seems a long time," said "Bill" Dollar, "since I started out to acquaint the people of Union county with the advantage of spending their money at home, but in reality it has only been a few days."

"In that time, however, I have been in several of our local establishments and have been amazed at the loyal feeling that exists in every place I have visited. Real business men realize the value of loyalty and cooperation and work accordingly, showing a keen desire to help each other."

"I have heard a lot of talk among my brother Bills that makes me believe, that some day, someone who is only living here for what he can get and has no interest in Union county and its wonderful possibilities will send me away to some other city for goods that he should buy at home. Then, of course, I would not see this place again, but I hope that such a thing will not happen."

"When the people here desire to put through a business proposition," concluded "Bill," "to they board a train and seek it from capitalists in some distant city? Well, not very often. They go down the street calling on everyone in sight, and then come back on the other side."

"And yet I understand," said "Bill," "there are some people who have often asked for favors from home merchants in the past and will ask them again, who do not hesitate to spend money freely and needlessly in patronizing the merchants of other cities."

"It is an excellent principle in business to stand by the people who stick by you. The man who buys everything possible at home creates a circle of business friends who appreciate loyalty and would like to return it in a personal way. Without a doubt these personal friendships which are created are profitable and they bring returns, not from selfish interests alone, but from the ties of neighborliness and good fellowship."

"A good many things in life go by favor. When two propositions look about alike, you choose the one that is backed by the man with whom you have had some friendly relations. Every time anyone buys at home he creates that relation and the frugality is likely to come back to him with a surprising amount of compensation in some day and it often comes from unexpected quarters."

"Those citizens of Union county who buy their goods from some distant city never get anything in the way of reciprocity or return. They have cast their bread on water that will flow away and never come back. Who is there in the big houses in distant cities who knows or cares about us in this city? We are only one cog in the vast machine of distribution to be ground through the days work without the slightest feeling of friendship."

"Here we are among friends and we can create a circle of well wishers and good helpers who will make Union county better and buy more at home in the interests of the whole proposition."

By Mrs. Bertha Carper (Observer Correspondent)

PROMISE (Special)—This section of the county was visited recently by a very hard rain accompanied by some hail, but not sufficient to do any damage.
