

GRAIN MARKET OF WEEK UNSETTLED

Weather Conditions and Crop Development Dominate Quotations.

WASHINGTON, June 17 (AP)—(Special)—The grain market was unsettled during the week ending June 17. Limited buying by weather, crop news and varying reports of crop developments in important producing areas, according to the weekly Grain Market Review of the United States Bureau of Agricultural Economics, were favorable conditions to make generally favorable previous. Both in the United States and in Europe, Spring wheat in North America made good growth but rather limited and not satisfactory, particularly in Canada, where the best of the favorable growing weather was not adequate to bring June 17 and July the established average crop acreage of the crop. The main crop conditions backward had made some improvement during the week. Prices were unchanged, although there were some fluctuations in the market.

For Better Service We Have Installed An Atlasta Radiator and Motor Block Cleaner

A clogged radiator and motor block is the first of many motorists today. The all winter use of non-freeze compounds is largely responsible for this condition. Now we can thoroughly clean the entire circulatory system of your motor without removing the radiator or without the use of chemicals or oils. The Atlasta operates entirely upon a vibratory principle produced by a new and unique application of air and water.

We offer this service to all motorists—come in today—let us show you how easily and quickly we can free you from the "curse" of a heated motor.
