ROOSEVELT FIELD, N. Y., June 28 (AP)—The monoplane Three Musketeers was crawling through a heavy fog over Long Island today in a quest for a new endurance refueling flight mark, with its crew unmindful of the tragedy which befell "The Answer," Viola Gentry's plane which took off last night in another assault on the record.

Martin Jensen, pilot of the Three Musketeers, saw The Answer disappear into the fog, however, and in a note dropped to the flying field asked "What happened to Viola? Saw her disappear at low altitude. Am worried."

The Three Musketeers was refueled at 7 a. m. The operation was carried on 2,000 feet in the air as the two ships were forced to climb above the fog bank.
