

Local News In Brief

Enjoy Outing—The families of C. N. Palmer and Otis Palmer, accompanied by Mrs. Dolly Smith, of Salinas, Cal., a sister of Mrs. Otis Palmer, who is visiting here, and Ray Lynch were Saturday and Sunday visitors to the South Fork. While the women and children enjoyed the outing at the shady rest camp (at the end of the road) the men visited Maxwell and Steamboat lakes, where some good catches of fish were made. Maxwell lake was about one-fourth open, and fishing was poor there except through holes in the snow and ice, which was seven feet thick. Steamboat lake was well covered with thin ice but open at several places and evening fishing was excellent. Sunday morning was different, however, as the lake was only one-half inch deep, which prevented fishing from the men left for camp. One feature of the return trip was the "coasting" down mountain sides for about one-half mile on the snow, which is very much enjoyed. From the character of the ground, they estimated that they walked over snow banks 40 feet deep.

WHAT A JOY FLAVOR BRINGS. A Little Sugar Can Put Pleasure Into Eating Many Foods. Foods can be bland, tasteless and unappetizing, or they can be so good that everyone at the table, both children and adults, will be tempted to eat enough of them. The preparation of foods so varied and appetizing that they will promote the health of the country, is squarely up to women. It takes intelligence and thought to prepare or supervise varied, delightful diets. Realizing this, a group of nationally known women cooking experts recently conducted a series of now notable experiments high up in a New York skyscraper kitchen. Their results are being announced to women throughout the country in behalf of more tasteful vegetable foods. Cook vegetables in little water. Do not overcook. Add a little sugar to the vegetables while they are cooking. Try these Glaxo Onions recommended by one of the experts. Peel enough medium-size silver-skin onions to make a quart. Prick onions through centers to prevent breaking while cooking. Place in boiling salted water to which a tablespoon of sugar per quart has been added. Simmer until tender and brown. Melt two tablespoons of butter in a pan. Add a dash of granulated sugar. Cook to the bubbling stage. Add the onions and stir until well glazed. For health eat fruits, vegetables and cereals, sugar-flavored for enjoyment. Remember the value of candy for dessert. A bit of sweet makes the meal complete. The Sugar Institute.
