## Summer Camp For Camp Fire Girls Under Discussion

The Board of Sponsors for local groups of Camp Fire Girls held a noon-day luncheon yesterday at the La Grande hotel with a good representation of the board members present. After the luncheon, Dr. Lewa Wilkes, chairman, presided over a business meeting. The most important matter of business considered was the question of a summer camp for the girls. Last year a very successful camp was maintained with a trained worker in charge. This year the association is limited financially and the possibility of a camp has been rather doubtful. It was decided to look into the situation and ascertain whether or not a director could be secured and the camp conducted on the amount of funds on hand, which is pitifully small. The board feels that the summer camp is one of the important items in the program of Camp Fire work and is very anxious that it be held.

## Miss Ansell Will Wed Price Harlow

Complimenting Miss Lulu Ansell, who is to wed Price Harlow, this evening, Miss Blanche Mortensen, Mrs. Eldora Williams and Miss Phyllis Ansell gave her a party and shower last evening at the home of Mrs. Williams. Garden roses were used with taste and in profusion for the decorations. The evening was spent rather informally.

## Party Compliments Mrs. J. McKennon

Members of the So-Ne-He club gave a farewell party yesterday afternoon at Riverside park in honor of Mrs. James McKennon who is leaving soon. The afternoon was spent with games and other social features. Ice cream and cake were served during the afternoon. Mrs. McKennon was given a lovely gift by her friends in the club.

## Camp Fire Girls In Swimming Party

The girls of the Pakwana Camp Fire group enjoyed a swimming party Monday evening. The eleven girls having been chartered by Mrs. G. C. Headley, Mrs. H. W. Loughton and Mrs. Wall. Swimming at the Crystal Plunge constituted the first part of the program and afterwards the crowd went to Riverside park where they enjoyed a picnic supper.

**FIGHTING CARNIVALS MAINTAINED.** Ore., July 2 (AP)—As a result of a campaign to eliminate traveling shows and carnivals, the city council last night ordered an ordinance drawn to revise the daily license fees for these shows upward. It is expected the rate will be increased from \$20 to \$100.

KGA—8 to 12, ABC.  
KHQ—8, NBC; 9:30, vaudeville; 10, Amos and Andy; 10:15, dance music.

## Camp Fire Girls In Ceremony At Cove Tuesday

By Mrs. J. E. Price (Observer Correspondent)

**COVE, Ore. (Special)**—At the council fire held Tuesday evening by the Nissaki group, Dorothy Barker was invested with her ceremonial gown, Cleo Conley, Loua Nelda Price and Berta Barker gave the fire lighting ceremony and Cleo Conley also gave the credo. This was followed by a talk on camp fire given by Lois Conley, assisted by Eloise Witly demonstrating home craft; Dorothy Barker, hand craft; Oreta Baum, Jane Daniel, Jean Baum and Eloise Witly, health craft; Jane Daniel, citizenship; Jean Baum, business craft; Jean Weimer, camp craft and Dorothy Barker, nature craft. Berta Barker, Cleo Conley and Eloise Witly took the wood gathering rank and honor beads were awarded to Berta Barker, Jean Baum, Jane Daniel, Dorothy Barker, Lois Conley, Eloise Witly, Jean Weimer and Cleo Conley, who also received the local honor for perfect attendance, during at least one honor a week and paying her dues for eight consecutive meetings. The first extinguishing ceremony was given by Dorothy Barker, Eloise Witly and Jean Weimer. About 15 parents and friends attended the council fire.

At a meeting held last week, B. W. Peterson was elected secretary and P. F. Graham treasurer of Cherry Chapter No. 127, Order of the Eastern Star, to fill the unexpired terms of Mrs. Leona Price and Mrs. Alma Breathers, who will be away from Cove for the remainder of the year. This is the last meeting until September.

The date of the annual "Old Folks" picnic, which is sponsored by the Woman's club, has been set for Aug. 19. The club will furnish coffee and ice cream and everyone is asked to bring a basket lunch. Mrs. Constance Anderson is appointed chairman of the committee in charge.

Mr. and Mrs. Roland Larsen, Mr. and Mrs. Louis Weber and Robert Paige left Thursday morning for Long Beach, Cal., where the Webers reside and where Robert has been attending school during the winter. Mr. and Mrs. Larsen, who lived in Cove for about a year before going to Buena, Wash., also expect to make their home there in the future. The entire party has been visiting at the home of their parents, Mr. and Mrs. Frank Paige, for a couple of weeks. During their stay a trip was made to the mountains where they camped on the Minam river for a few days.

**UP-TO-DATE SMITHY HAS PORTABLE SHOP**

**KANSAS CITY (AP)**—Joe Wallace has introduced blacksmithing to this age of specialization. He visits his barnyard clients "by appointment only."

When business dwindled at his old homeshoping shop, Wallace decided to specialize. His portable outfit now covers a radius of 15 miles around Kansas City.

More than 300 saddle horses and polo ponies, whose owners are particular about the shoes their horses wear, are included in his clientele. Wallace's old shop is used only as a headquarters for appointments.

It's too hot to sleep these nights, the lawn is scorched in front of the house, the baby's rash is worse, and the garden hose leaks. But it doesn't mean anything now—Babe Ruth is back in the game.

Plants make a noise when growing, a scientist reveals. For that matter so do children.

What this country needs is more mechanical schools to teach the girls how to keep house with all the electrical devices they'll sell you now at \$1 down and \$1 a week.

# SCIENCE LEARNS CAUSE OF MOST HUMAN ILLS

**Recent Discoveries by Medical Science Prove Conclusively that Constipation—Indigestion—Dyspepsia—Biliousness—Hyperacidity—Auto-Intoxication—Disturbed Heart Action—Overloading of Kidneys with Consequent Excess of Uric Acid in the Blood—Headaches—Nervousness—Sleeplessness—Mental Depression—Dizziness—Bad Breath—Coated Tongue—Sallow Complexion—Sluggishness—Sour Stomach—Loss of Weight—Loss of Vitality—Loss of Appetite—Rheumatic Pains Due to Toxic Poisoning—and Mental and Physical Inefficiency Can be Traced, in most Cases, to One of Three Things, a Sluggish Liver, Impoverished Blood or Improper Glandular Activity.**

If These Vital Organs and Fluids Are Not Performing Their Proper Functions—Sickness—Suffering and Ill Health are the Inevitable Results.

The commonest and greatest curse of any of these is constipation. It is man's greatest enemy. It poisons him, slows him up mentally and physically, breaks down youthful strength and vigor, ages him prematurely, and leaves him an easy victim to the attack of almost countless diseases.

Ever since the dawn of civilization, mankind has been searching for drugs and medicines that would give relief from these common ills. Two thousand years ago, Hippocrates, history's first physician, was trying to cure constipation by using purgatives. And until recently, millions of people throughout the civilized world have been trying to do the same thing—with the same lack of success that Hippocrates had.

Purgatives and laxative drugs have never cured constipation—and never will. Within the past few years Medical Science has made some amazing discoveries—discoveries that will have a far-reaching effect upon the health and well-being of mankind. These discoveries absolutely disprove many of the beliefs, practices and theories that we have known for a life-time.

For centuries we have believed that bile was a harmful manufacturing substance that made us sick, or bilious. Medical science has now proven conclusively that bile is in reality and in fact, a valuable health-giving and life-sustaining fluid with many all-important functions—and that biliousness is not due to too much bile, but to a lack of it.

In attempting to stimulate the liver and increase the bile flow, Calomel is the drug that has been most widely used throughout the world for many years. And now science has proven that this poisonous, nauseating chemical has no action whatever on the liver or bile flow and that it confines its action to the intestinal tract. It is a purgative and nothing else.

There is what an eminent authority has to say about Calomel: "Contrary to the belief adhered to for many years, Calomel has no action on the liver or bile flow. This belief existed and based on the color of the stools after the administration of Calomel. It has, however, been thoroughly demonstrated that the characteristic greenish stools are colored by the Calomel itself, and does not indicate the presence of bile.

Calomel is a mercury compound which exerts a cathartic action through the irritating effects of small quantities of mercury, which are liberated from it. Large doses of Calomel probably favor bacterial increase by lessening intestinal resistance. It is not suited to long use because of its systemic action."
