

Caterpillars Are Causing Damage In Mill Creek

By Mrs. A. G. Conklin (Observer Correspondent)

LA GRANDE, Ore. (Special)—An army of caterpillars is marching up Mill creek eating all the leaves on the fruit trees, the apples and the brush by the roadside. They are found in other localities, but in fewer numbers and have been much less damaging except where they have been found on the fruit trees. These trees have been sprayed but they have attained such proportions in this particular section that spraying would not help. They have been seen here in former years, but never before have they seemed to injure anything.

Mr. and Mrs. E. E. Coad and family have returned from the western part of the state where they went at the close of school. Mrs. Coad will retain her position in the Cave school and Mr. Coad, who has been principal at Fruitland, Idaho, for the last two years, will go to Athens.

Mrs. Cora Bloom was called to Baker Friday because of the serious illness of her son's wife, Mrs. Hankell Bloom. Mrs. Bloom has a small daughter born June 22 and both mother and infant are seriously ill.

Mrs. George Gray, assisted by Mrs. Ernest Gray, entertained the Dorcas society Thursday afternoon at her home in lower Cove. The home was beautifully decorated with strings and cones. There were 86 present including visitors and the afternoon was spent socially. A beautiful lunch was served late in the afternoon and a silver offering taken.

Mrs. E. I. Barker was hostess to the Ladies Guild at her home north of town Saturday afternoon. After a business meeting, bridge was played at three tables. Mrs. J. E. Mills winning high score. Those present were Mrs. M. T. Brown, of Portland, Mrs. George Miller and Mrs. Stewart French, who were visitors, and Mrs. L. E. Anderson, Mrs. G. E. Barker, Mrs. L. J. Chandler, Mrs. R. K. Conklin, Mrs. A. G. Conklin, Mrs. J. J. Conley, Mrs. Royal Conley, Mrs. R. H. Daniel, Mrs. R. S. French, Mrs. John Miller, Mrs. L. M. Laird and Mrs. Louis Procto. Lunch was served after the games. Mrs. R. S. French will entertain the Guild Thursday, July 11.

W. J. Hallmark, K. McCool, Darrel Pulp, Leonard Cox, Bert DeVoro and Cecil Richards, who went to Marten's Bridge on Eagle Creek for the forestry school last week, returned Friday.

At the Woman's club meeting last week, Mrs. J. H. Price, who is guardian for the camp fire girls in Cove, asked the Woman's club to sponsor the organization and for some discussion on the mutual benefits to be derived the club decided to do so. Mrs. Kenneth La Violette, the wife of the new teacher in the high school, will assume the guardianship of the camp fire girls on her arrival this fall. Mr. La Violette takes Mr. Price's place in the high school and Mrs. La Violette will take Mrs. Price's place with the camp fire girls. The Price's will be out 1 to take up their new duties at Crane.

The directors of Shanghai school have purchased a new piano for the use of the school. They are also making some repairs and improvements to the school building. Mrs. Charles Hibbert, of La Grande has been engaged to teach this school for the coming year.

Mrs. Everett Powell, who has been teaching there for the last two years, will go to Warrenton and resume the position she held before coming here.

Mr. and Mrs. Desmond Pulp, who were married June 1 at Forest Grove, are visiting at the home of Mrs. Amy Valentine, Mr. Pulp's mother. Mr. Pulp, who has been a teacher in Junior high at Silet, has given up teaching and will enter the hardware business at Waldport.

Mrs. J. B. Lutz's class in music will give a recital Saturday evening at the French hall. The Rev. Ira Aldrich, of La Grande, gave the sermon at the M. E. church Sunday morning. De Wolfe Perry, of Providence, R. I., son of Bishop De Wolfe Perry, and James Nichols, of Short Hills, N. J., arrived in Cave Sunday morning in time for morning service at the Ascension Episcopal church and to visit for a day with the Rev. E. P. Sturges. They were on their way to Medford where they will spend the summer. They

are two young Harvard freshmen and are out for a glimpse of the west. They were two weeks on the way, coming in a roadster. They will work on a ranch in Medford where Bishop Remington has found work for them.

Mr. and Mrs. Ray Baker left Sunday for a month's camping on the Minam. They are both teachers at Herndon and they usually spend a part of each summer in the Blue mountains.

Mrs. R. I. Barker gave a dinner Friday evening honoring the birthday anniversary of her son's wife, Mrs. G. E. Barker.

L. G. Lantz has been elected season's manager of the Cooperative Cherry association.

Mrs. Regula Herty and Mr. and Mrs. Ed M. Herty, of Valley Falls,

Kan., arrived on the early train Saturday. They are guests of Mr. and Mrs. T. C. Herty and will stay through cherry season.

Mrs. Wesley Smith, who has been at the home of his son, Clark, in Boise, Idaho, is at home again. Her daughter and little grand-daughter, Mrs. Clark Sharp and daughter Barbara, are with her.

Archdeacon and Mrs. S. W. Croasey, of Pendleton, and the Rev. M. G. Tenneyson, of Lakeview, were luncheon guests of Mrs. A. G. Conklin Saturday.

Prof. and Mrs. Roy Conklin, of Union, and Mr. and Mrs. T. R. Conklin were dinner guests of Mrs. A. G. Conklin Sunday.

Mr. and Mrs. H. C. Rees, of Union, were visiting Mrs. A. G. Conklin Sunday evening.

Mr. and Mrs. R. I. Barker, Dorothy and Berta Barker spent Sunday at the home of Mr. and Mrs. Frank Wells, at Imbler.

A meeting of the bishops committee of the Episcopal church and a meeting of the daughters of the King will be held at the rectory Wednesday evening at 8 o'clock.

Believe It or Not!! Rice paper is not made from rice. It is from sheep, and not from cats. It's stew is an American invention. Most linen collars are cotton. And there you are.—Farm Journal.

A town in Kansas recently celebrated "Tonsil Day." Do you suppose the residents felt their necks?

SCIENCE LEARNS CAUSE OF MOST HUMAN ILLS

Recent Discoveries by Medical Science Prove Conclusively that Constipation—Indigestion—Dyspepsia—Biliousness—Hyperacidity—Auto-Intoxication—Disturbed Heart Action—Overloading of Kidneys with Consequent Excess of Uric Acid in the Blood—Headaches—Nervousness—Sleeplessness—Mental Depression—Dizziness—Bad Breath—Coated Tongue—Sallow Complexion—Sluggishness—Sour Stomach—Loss of Weight—Loss of Vitality—Loss of Appetite—Rheumatic Pains Due to Toxic Poisoning—and Mental and Physical Inefficiency Can be Traced, in most Cases, to One of Three Things, a Sluggish Liver, Impoverished Blood or Improper Glandular Activity.

If These Vital Organs and Fluids Are Not Performing Their Proper Functions—Sickness—Suffering and Ill Health are the Inevitable Results.

The commonest and greatest curse of any of these is constipation. It is man's greatest enemy. It poisons him, slows him up mentally and physically, breaks down youthful strength and vigor, ages him prematurely, and leaves him an easy victim to the attack of almost countless diseases. Ever since the dawn of civilization, mankind has been searching for drugs and medicines that would give relief from these common ills. Two thousands years ago, Hippocrates, history's first physician, was trying to cure constipation by using purgatives. And until recently, millions of people throughout the civilized world have been trying to do the same thing—with the same lack of success that Hippocrates had. Purgatives and laxative drugs have never cured constipation—and never will. Within the past few years Medical Science has made some amazing discoveries—discoveries that will have a far-reaching effect upon the health and well-being of mankind. These discoveries absolutely disprove many of the beliefs, practices and theories that we have known for a life-time.

For centuries we have believed that bile was a harmful nauseating substance that made us sick, or bilious. Medical science has now proven conclusively that bile is a healthy and life-sustaining fluid with many all-important functions—and that biliousness is not due to too much bile, but to a lack of it. In attempting to stimulate the liver and increase the bile flow, Calomel is the drug that has been most widely used throughout the world for many years. And now science has proven that this poisonous, nauseating chemical has no action whatever on the liver or bile flow and that it confines its action to the intestinal tract. It is a purgative and nothing else. Here is what an eminent authority has to say about Calomel: "Contrary to the belief adhered to for many years, Calomel has no action on the liver or bile flow. This belief existed and based on the color of the stools after the administration of Calomel. It has, however, been thoroughly demonstrated that the characteristic greenish stools are colored by the Calomel itself, and does not indicate the presence of bile. "Calomel is a mercury compound which exerts a cathartic action through the irritating effects of small quantities of mercury which are liberated from it. Large doses of Calomel probably favor bacterial increase by lessening intestinal resistance. It is not suited to long use because of its systemic action." Having made this discovery scientists then began a world-wide search for something that would stimulate and invigorate a sluggish liver to action. This search has been rewarded. They have found a substance which, according to the highest authorities is the most powerful stimulant to the secretory, or bile-producing, activity of the liver known to materia medica. Unlike Calomel, it does not shock or upset the system, cause nausea or any other ill effects so common to Calomel. On the other hand, it is designed to stimulate a sluggish

14 Astounding Facts!

As a result of world-wide medical research, Science has learned the following important facts:

- 1 That Calomel has no effect whatever on the liver or bile flow and confines its action to the intestinal tract.
- 2 That the cause of eight out of ten cases of stomach trouble has nothing whatever to do with the stomach itself.
- 3 That indigestion, dyspepsia and constipation are due, in the great majority of cases, to an insufficient flow of bile caused by a sluggish liver.
- 4 That biliousness is not due to too much bile, but to a lack of it.
- 5 That to enjoy good health, the liver must manufacture an average of three pints of bile every twenty-four hours.
- 6 That bile, in place of being a harmful substance which makes us sick, has many all-important functions.
- 7 That bile is a powerful digestant without which food cannot be properly assimilated.
- 8 That bile is Nature's own laxative, so certain in its action that people with a normal flow of bile are practically immune to constipation.
- 9 That bile is an antiseptic and lessens bacterial growth in the intestines and combats putrefaction and the formation of gas. It is also an alkaline and counteracts hyperacidity.
- 10 That bile is, in short, a veritable life-sustaining fluid. If we lack it, the process of digestion, assimilation and elimination become deranged, causing many gastro-intestinal disturbances.
- 11 That seven out of every ten people past the age of thirty suffer from an insufficient flow of bile caused by a sluggish liver.
- 12 That there is no drug or medicine which is an effective "blood purifier," although millions upon millions of dollars have been spent for medicines in the belief that they were "blood purifiers."
- 13 That the secretions of the endocrine glands affect mental as well as physical efficiency and that they make us either ambitious and alert or dull and depressed.
- 14 That good health is largely maintained by three vital organs and fluids of the human body, which can be stimulated and invigorated by certain basic elements.

Science has succeeded in combining these elements in the new and revolutionary formula called Sargon, which may well be considered the greatest health-giving remedy of the age. In all leading cities where Sargon has been introduced, dealers are buying it in solid carload lots to supply the phenomenal and overwhelming demand. Runtown and debilitated people by the thousands are reporting prompt recovery of health and bodily vigor through methods unrestrained of a few years ago. Never before has any medicine aroused such widespread interest as Sargon which may now be obtained in La Grande from the Red Cross Drug Store. (Copyright, 1929, by G. F. Willis, Inc.)—Adv.

IT'S READY!

Tomorrow Will Find The First Dutch Shop Ready To Serve You

Soon there will be more—one in your district. One right near your home. But tomorrow, if you seek the BEST in Bakery, Dandy Dairy products, at the low prices that always go with efficient volumn production, it will pay you to visit the Dutch Shop located at 3 Depot St. Across from Smith's Garage.

OPENING DAY SPECIALS

- Toasted Marshmallow Cakes filled with Butter Cream, regular price 25c, Special 20c
- To introduce our Coacoanut Jumble Cookies, regular price 15c, Special per doz. 10c
- Dutch Maid Butter Horns, regular price 8c, Special tomorrow 5c
- Dainty Dutch Maid Pastries, regular price 8c, Special tomorrow 5c
- Our Walnut loaf is an attractive purchase at 20c
- Ice cream of the famous Dutch Maid formula will be made right in the Dutch Shop before your eyes. This cream will be retailed at the Special Price of per quart 50c

We have engaged the services of Mr. Keith, a high class pastry man who has been at the head of the pastry department of such concerns as Davenport's, Spokane Bakery, Makers of the Hostess Cakes, Dutch Shop at Spokane, Bake Rite at Seattle. When in doubt, for something attractive for that exclusive luncheon or party, call our Pastry Department, Main 736, and ask for Dave Keith, whose suggestions will help you. Let our Baker Artist work for you.
