Appointment Of Cove Pastor To Bend Announced

By Mrs. J. R. Price
COVE, Ore., (Special)—The Rev. and Mrs. P. F. Sturges will leave for Bend Sept. 1 where Mr. Sturges will be rector of the new Trinity church which will be consecrated Sept. 10. It was announced by Bishop W. P. Remington at the close of summer school. People in Cove, especially the scouts, rangers, camp fire girls and members of the Ascension church will be very sorry to lose these young people who have taken such an interest in community affairs. No arrangements have been made for a rector to fill Mr. Sturges' place.

Wheat Climbs In Early Trading; Drops at Close

WINNIPEG, July 6 (AP)—Wheat prices started today in an upward climb, touched a new mark for the year in the July futures and then receded when profit takers returned the market with their offerings. An advance of 3/4 to 1/2 cents scored at the opening was short lived and even as related, rally about the close of the abbreviated session failed to regain losses.

Prices for the day were 2 to 3 cents lower. July wheat soared to the record price of \$1.47 before heavy profit taking sales led to a general decline. Affecting the local market was Liverpool's bulge of nearly four cents and British grain news from Western Canada after yesterday's close.

FOREST DAMAGE BY FIRE IS LESS

Oregon and Washington Stand Fourth in List of U. S. Districts.

Forest fires on the national forests of Oregon and Washington, during the past five years, have burned over an average of only 70,000 acres per year, according to a statement just issued by the forest service, Portland, Oregon. This is one-fourth of one per cent of the gross national forest area in these two states.

A growing spirit of cooperation on the part of the public, better organization, and quicker action are responsible for this excellent showing, local forest officers state. At the same time they point out that even 70,000 burned over acres per year is too high. From 69% to 70% of forest fires are man-caused, and campers-smokers head the list of man-causes. If these man-caused fires could be entirely eliminated, the total burned would be even smaller, it is said.

Butter Declines But Egg Prices Remain The Same

PORTLAND, Ore., July 6 (AP)—The two lower grades of butter declined today. Prime firsts went from 43 to 42 1/2 and firsts from 42 1/2 to 42.

The demand for eggs was brisk with prices unchanged. Yamhill street public market prices as posted by the city market master, were 25 cents for standards and 26 cents for medium eggs. Producers occupying market stalls may charge less, but none more than those figures.

The market master's price on butter was 44 cents.

Receipts of a few early tomatoes from the Dalles was reported at \$3.50-\$4 a box of 15 pounds.

New Walla Walla onions were offered at \$2.25 a hundred pounds. The watermelon price was holding steady, but cantaloupes were tending downward daily.

Siring beans were in good demand at 9 and 10 cents a pound.

Stocks Are Fairly Steady At Close

NEW YORK, July 6 (AP)—The stock market encountered rather heavy weekend profit-taking in today's two hour session, but a vigorous resumption of bullish operations in the rails and some of the specialties checked the decline and prices generally recovered before the close.

The gain of \$227,000,000 in federal reserve brokers loans, announced last night, had a calming effect upon speculative sentiment for the moment.

Transactions were generally light, owing to the absence from town of many traders. Total sales approximated 1,250,000 shares. The market closed fairly steady.

Wool Market

BOSTON, July 6 (AP)—The wool market generally has been slow during the past week. On a few grades there has been some looseness of fairly good volume. The outstanding active lines were Texas 12 months wool of which large lots were sold. The graded wool prices were slow. The strongest grade, and sales were moderate in volume. Trade was fair on 55-60s, but sales were inclined to be small. The 44s and finer wools were slow. Prices were about steady on less active lines and slightly firmer on some of the more active grades.

CHICAGO WHEAT LOWER

CHICAGO, July 6 (AP)—Active trading and higher early prices here for wheat today resulted chiefly from crop deterioration reports by Canadian growers pool. Besides, much steeper advances in transatlantic quotations than had been looked for were noted. Some grain Northwest, however, were reported. Opening 1/2 to 1 1/2 up, Chicago wheat later showed additional gains, but then receded somewhat. Corn oats and provisions were also firmer, with corn starting at 1/2 to 3/4 advance. Wheat closed unchanged, 1 1/2 to 1 3/4 and yesterday's finish. Corn closed 1 1/2 to 1 3/4 up, oats 1/2 to 1 1/2 up, and provisions varying from a decline to an equal advance.
