No Military Lodges. The grand secretary of the Masonic temple, Washington, D. C., says that American Masonry does not at the present time follow the policy of the Grand Lodge of England in permitting organized military lodges to be incorporated with the regiments of the United States Army. During the Civil War one or two lodges were organized with in the army following the troops, as is the English custom, but these passed out of existence and there are not at the present time any left.

Grapes Arrive In Oregon From Southern State

The first carload of red and white grapes from California was reported received today. They are reported to be of excellent quality. The white wholesale at \$4.25 and the reds at \$5.

Oregon celery was unusually plentiful and said to be of the finest quality ever offered to the trade. It wholesales at 70, 85c and \$1 a dozen bunches.

Egg, butter, poultry and fresh meat prices were unchanged. Today was the busiest day of the week at the Union Avenue market of the Gardeners' and Ranchers' association. Seasonable fruits and vegetables were abundant and reasonable in prices.

A few crates of strawberries sold for \$2. Raspberries were stiffer in price at \$1.75 to \$2. Blackcaps and logans showed no declines at \$1.75 and \$1.25, respectively. Red currants were up 25 cents at \$1.75. Pears were a cent higher at 4 cents. New spuds took an advance of a cent to 3 cents. Tomatoes were likewise higher at \$3. The first lot of Black Republic cherries brought 5 cents a pound. Asparagus from Hood River brought \$3.75 per box of 2 1/2 dozen bunches. Apples were \$1.49.

The first consignment of peaches from The Dalles arrived today. They were excellent in size and appearance and needed keeping for a day or two to be fully ripened. The price was \$1.25. Other prices were unchanged from those of Thursday.

SARGON IS POWERFUL INVIGORATING TONIC

New Scientific Formula Contains Ingredients Which Are Designed to Impart Tone and Strength to Entire System and Which Are Valuable for Their Influence Upon the Appetite and Digestion.

The instant and phenomenal success of Sargon is easily explained. Its effect is almost immediate. Right from the first dose people who are suffering from lowered vitality begin to feel its stimulating, tonic effects. Thousands of half-sick, rundown men and women who have taken it with the most astonishing and gratifying results report that it seems to pick them right up and put them on their feet.

It is not only a powerful reconstructive tonic designed to impart tone and strength to the entire system, but it is a constitutional treatment as well and exerts a tremendous influence upon the processes of assimilation and elimination. It also contains other ingredients of recognized therapeutic value which are valuable for their influence upon the appetite and digestion.

Sargon is fulfilling its great mission. It is doing it in a new and revolutionary way: the way that the men of science who labored for years to perfect this new and epoch-making formula intended it to be done. It's not doing it by overexaggerating and blasting out the intestinal tract with poisons, irritating poisons, and chemicals that do more harm than good. Neither is it doing it with pleasant-tasting "digestive tablets" which give only temporary relief, if any at all. Neither does it pretend to purify the blood by burning it out with chemicals, because the men who make Sargon know that there is no medicine or drug which is an effective blood purifier.

Brokerage Loan Reduction Sends Stocks Higher

NEW YORK, July 12 (AP)—With a violent bidding up of utilities and several of the industrials, particularly steel, the Bull party celebrated the first reduction in brokerage loans since 1926. May on the stock market today. Although the reduction was but \$14,000,000, it was interpreted as indicating that the gain of about \$485,000,000 during June was due largely to the exercise of rights to buy new security offerings.

The uptick, which took about two score of issues up two to more than twenty points to record levels, was too violent to hold, however, and considerable profit-taking broke out in the early afternoon when the Bears launched another drive on the market. The late buying converged on the principal stocks, among which were United States steel, American steel, American Telephone and Electric, American Telephone and Electric, American Telephone and Electric, American Telephone and Electric.

WHEAT HIGHER AT CLOSING IN CHICAGO MART

CHICAGO, July 12 (AP)—Wheat was decidedly upward in price early today. Influenced by fresh cuts in estimates of Canadian wheat production this season. According to a Chicago trade leader, the outlook is for 200,000,000 bushels. Smaller yields in the Prairie provinces than last year. Opening unchanged to 5c higher, wheat afterward scored advances all around. Corn and oats were easy, with corn starting at 3c off to 1/2c up, and subsequently undergoing general setback. Provisions inclined upward.

Wheat closed 1/2 to 3/4c a bushel higher than yesterday's finish, corn closed 1/2 to 3/4c net lower, oats 1/2 to 1c up, and provisions varying from 25c decline to an equal gain.

WINNIPEG, July 12 (AP)—Bull fever had a grip on the grain market this morning, and prices were run up 2 cents from the previous close in the first ninety minutes of trading with July touching \$1.47 and one-fourth, to establish a new high point for the season. Very pessimistic reports from western Canada, a dry weather map and high temperatures combined to create a big buying interest in wheat. It looked as though public interest in the market had considerably increased and this, together with spasms of buying that may have been in connection with export business, sent the market sharply higher.

BUTTERFAT SAN FRANCISCO, July 12 (AP)—Butterfat, c. b. San Francisco, 50 cents.

WHEAT YIELD IN NORTHWEST HELD NORMAL

There was some winter damage to oat and vetch hay. Some alfalfa fields showed rather poor stands. There has been a large percentage increase in alfalfa acreage in some of the Willamette valley counties. Experimental results during recent years having proven very satisfactory. The June rains caused some damage, largely from delayed harvesting of the hay crop. Production this year apparently will be about an average of recent years.

Each Oregon cherries have been a good crop in most sections, but very light in the Willamette valley. Prices have been very satisfactory to the grower. Prunes promise a 50,000,000 to 60,000,000 dried crop in Oregon and Clark Co. Wn. The crop is pretty uneven in some localities.

Small Fruits. Strawberry suffered from dry weather in May and wet weather in June. Reports indicate that the production was about one-half of normal. Loganberries and raspberries were considerably damaged by winter kill, and apparently did not pollinate properly. The hot days late in June also caused some damage.

Each growing on summer-fallow land is quite high from in Umatilla county during this season for the first time. Some 6,500 acres have been planted on Umatilla farms. The Oregon yield of potatoes is estimated at 5,125,000 bushels compared with the five-year average of 4,765,000 bushels. There are 47,000 acres in potatoes in this state in 1929.

PENDLETON, Ore., July 12 (AP)—The first carload of 1929 wheat was shipped to Portland yesterday from Hakeley station, northeast of Pendleton. The contract price quoted was \$1.05 a bushel. Several outfits are in the fields near Pilot Rock with general harvesting over the county scheduled to get under way the middle of the week.

WINNIPEG, July 12 (AP)—A crop statement issued today by the Canadian wheat pool said western

Hint to Auto Drivers After taking long drives in an automobile, an eastern physician was bothered by an uncomfortable feeling in his ears. He attributed this to the constant noise of the motor and found a way to avoid the trouble by sinning white driving suits. Popular Mechanics Magazine. He points out that the exercise is beneficial to the lungs, helps posture and promotes circulation, thereby relieving congestion that may form in the ears, a condition that induces the discomfort after a long drive.

GASTRITIS Gastritis is a catarrhal condition of the stomach. To understand its nature, recall the condition of the mucous lining of the nostrils in an acute cold, or in chronic catarrh, and apply the same to the lining of the stomach. Like catarrh, this condition is an inflammation primarily due to irritation of the nerves serving the stomach. This irritation occurs at the spine, and the cause of the trouble can be removed by Chiropractic spinal adjustments. By my chiropractic health method I correct diseases of the eyes, ears, nose, throat, lungs, heart, stomach, liver, kidneys, bowels and lower organs. Make your appointment for health by phoning 497-W. DR. J. E. WOODSELL 20 Sommer Bldg. Hours: 9-5, 7-8 P. M. House calls answered.
