NEW BUILDING IN LA GRANDE HEAVY

Including E. O. N. School, Total Actually is Past the $225,000 Mark.

New buildings for the year passed the $80,000 mark this month, after the first six months ended with a total of $79,265.

Most of the work being done this summer is alterations and repairs, ranging in cost from a few dollars to several hundreds. During the last week, two such permits were taken out at the city recorder's office, as follows:

July 8—C. C. Bull, to alter and repair a home on N avenue between Seventh and Eighth, work to cost $100.

July 10—Frank Pike, to alter and repair a one-story home on Greenwood between Washington and Adams, work to cost $200.

The $300 in permits issued last week brought the July total to $4,956 and five permits, with the month half gone. Although the city records show the permits to be valued at $80,315, actually building work this year is over the $225,000 mark, as the new normal school building is not included.

Recent announcement that the Union Pacific system would build a $128,000 station in La Grande gives promise of the permits passing the $560,000 mark before Jan. 1, 1930.

More Necessary

A French biologist claims to have invented a successful substitute for blood. Now if some one will just come along with a good substitute for brains, he will confer a real blessing.—Springfield Press.

Towns Built on Ledges

Most of the 179,000 inhabitants of Madeira, an island in the Atlantic southwest of Portugal, live in towns occupying narrow ledges along the seashore. Behind some of them sheer cliffs rise more than 4,000 feet.

Mexico's First College

The first university in Mexico was established in 1553 and was founded by a royal order from Spain.

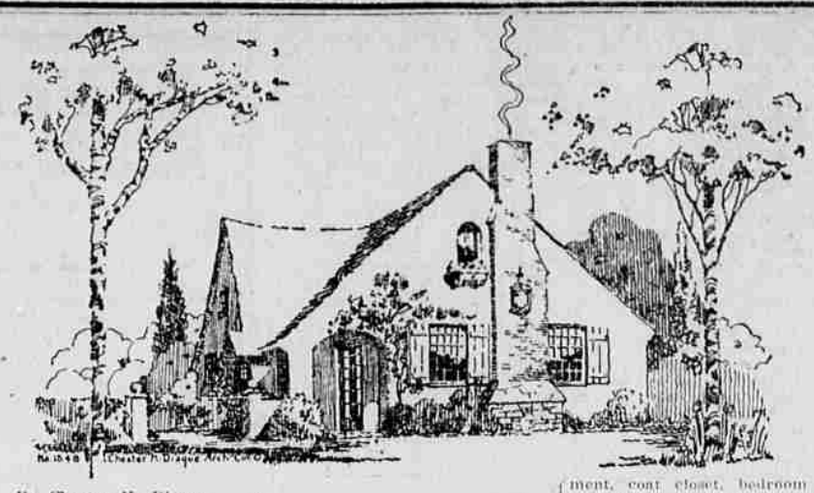
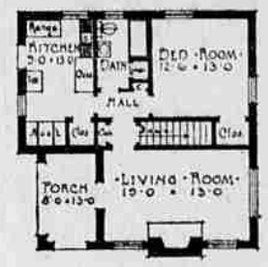
F. Ravenscroft	126	0



By Chester H. Disque

A great deal of charm has been given this little cottage by the distinctive manner in which the chimney has been incorporated in the design. The fireplace is centered in the living-room, but it is off-centered of the house and is skillfully balanced by the location of the attic window and porch entrance opening.

The exterior walls may be of either masonry, stucco, shingle or clapboard construction, about the only requirement being that the walls be kept light and the roof areas dark. The batten shutters at the front windows and the flower box at the attic window help considerably in creating a home-like atmosphere so vital to cottage architecture.



The interior arrangement is neat, compact and convenient. Access may be had to the stairs leading to the garage in the base-and plumbing.

ment, coat closet, bedroom and kitchen from one small centrally located hallway.

Oak floors and gum trim are used in the principal rooms with yellow pine floor and trim in the kitchen, tile floor and base in the bathroom, wherein we also find a built-in tub and colored bathroom fixtures of the latest approved type and design. The linen closet is also included in the bathroom appointments.

Metal casement windows equipped with rolling fly screen, a good grade of substantial hardware, medium rough textured plastered walls, are used throughout.

This house is approximately thirty feet square and its cost is estimated to be between $3,000 and $5,000, exclusive of heating and plumbing.

able damage to the spring wheat crop from dry weather, general buying set in.

UMATILLA YIELD HEAVY

PENDLETON, Ore., July 15 —(AP)—Henry Collins, local miller and grain man, today estimated the 1929 Umatilla wheat crop at 6,250,000 bushels.

Of this amount, Collins estimated, one million bushels have already been sold. The 1928 crop will be one million and a quarter bushels larger than that of last year, and approaches the seven million bushel crop of 1927.

Improvement Gossip

House Painted—
The Noah Paint shop has just completed painting the H. E. Paddock home on Lake street. They also are painting the outside buildings of the J. A. Holman farm.

Remodeled—
Mrs. Lydia Grandy' shouse on Second street was painted by the Coolidge Paint shop recently.

Home Painted—
The home of Capt. E. W. Ely recently received a new coat of paint, kalsomine and enamel. This work was done by the Coolidge Paint shop.

Papering—
The interior of Mrs. John Mahafee's home has been re-papered. The work was completed by the Coolidge Paint shop. Mrs. Zuber's house on Spring street, two doors from her home, also is being remodeled with paper and painting. The papering was finished Friday and the rest will be finished this week.

New House Painted—
Garfield Simmons is having his new house, on O avenue, painted by the Bugg Paint company. This work was started last week and they expect to finish soon.

Bugg Paint Company—
The Bugg Paint company is painting the new home of Lowell Williamson on Spring street.

Front Part of Bakery—
The Coolidge Paint shop has recently finished painting the front of the Electric bakery.

Coast Building First Half Year Is $215,807,715

During the first half of 1929, 105 Pacific Coast cities have issued 64,441 permits for new buildings to cost $215,807,715, as shown by official reports tabulated in the national monthly building survey of S. W. Straus & Co.

During the month of June, these cities issued 10,164 permits for buildings to cost $36,897,815. The latter figure is approximately 10 per cent less than the total for June 1928, but the half-year total is $1,580,600 greater than the comparable figure for 1928.

The fact that the half-year's total shows even a slight increase over the relative total for last year confirms the opinion expressed earlier in the year by leaders in the building industry, to the effect that building activity, gradually declining since 1925, has reached a new basis of normalcy and may, hereafter, be expected to increase rather than reflect further declines.

The greatest increase in renewed activity has been shown in British Columbia where the first six months total shows a 76 per cent gain over the comparable figure for 1928. Washington lost 7 per cent and Oregon 24 per cent; very slight reductions are reported from California and Nevada, a slight gain in Idaho, a 19 per cent increase in Utah and a 27 per cent increase in Arizona.

STORM FATAL TO BRAKEMAN OF SIOUX CITY

—One man was dead today and another was suffering from injuries as the result of a cloudburst which washed out 1,000 feet of railroad track near here.

Carl Henkle, Sioux City, Ia., Brakeman, was drowned after the locomotive and tender of a Minneapolis and Omaha freight train left the tracks and was wrecked four miles west of Tekamah yesterday. Frank Kent, engineer, was cut about the face by glass from the cab window and Will Denton, fireman, escaped injury by staying with the engine.

Determining Ocean's Salt

The saltiness of ocean water at different points is determined by passing an electric current through it, since the saltier the water the greater the current that can pass through.

Disciplinary Problem

"How kin you uphold fum'ly discipline," said Uncle Eben, "when after tellin' Rastus he mustn't shoot dice, he brings home enough money to pay de rent?"—Washington Star.

No. 30 THE VAN PETTEN LUMBER CO. Vol. 2

Right now is a good time to do your outside painting. All outside woodwork should be perfectly dry and in fine shape to take paint. If you decide to paint, remember that our CERTAIN-TEED outside paint is guaranteed.

"Yes," said an old sea captain, "when I was shipwrecked in South America, I came across a tribe of wild women, absolutely wild. They had no tongue."

"Good gracious," exclaimed the listener, "how could they talk?"

"They couldn't," was the reply, "that's what made 'em wild."

When you plan that garage, be sure and get one of our three door sets. We have the doors and hardware right here in the yard.

There is still some paint left on our bargain counter. This isn't cheap paint, but GOOD paint that we are selling cheap, in order to clean up our stock of that particular brand.

"Triplets," announced the nurse to the proud father.

"Really," he said, "I can hardly believe my census."

Our Dexter door locks are becoming more popular every day. They are solid brass and carry a lifetime guarantee.

Did you ever get any cheerful news out of one of those envelopes with a sun parlor out in front?

"What a Nicely Kept Home That Is"

The impression that your home makes on other people depends a great deal on the painting. You know that nothing makes a house look "down at the heels" as much as when it needs a coat of paint.

Does your house need paint? Why not ask us to give you an estimate on what the job would cost? No obligation on your part at all. And you'll be pleased at how moderately you can make this investment.

And remember this: We guarantee all our paints in quality and our workmanship in satisfaction. We know that a good job is the only worthwhile job.
