BISCUITS WHILE YOU WAIT
HANGER, Tex., (AP)—From wheat field to hot biscuits in 17 minutes and 38 seconds! That was the speed at which grain was transformed into edible food in an experiment here. It was reaped, threshed, sacked, ground into flour and baked in that time. A similar race last year required 41 minutes.

Pays Mortgage With Her Turkey Profits

LUTHER, Mich., (AP)—Mrs. Sophia Milner, widow, has paid off the \$4,000 mortgage on her farm in six years by raising turkeys.

Mrs. Milner said the outlook was not very promising when her husband died in 1923. The mortgage looked burdensome, but soon after she began to expand her turkey operations, prospects for meeting the sum were brightened. She shipped 400 turkeys to Detroit last fall and expects to market 500 holiday birds next season.

RIVERSIDES

The first choice of millions of motorists throughout America

YOU hear a lot of talk and read many statements now. Days, about how many millions of this or that tire have been sold... and why. These statements fail to point out, however, that a large percentage of all these tires are sold as "factory equipment" on popular makes of automobiles. In other words, the motorist himself has had very little to say about selecting the tire equipment of the new car he buys.

When these same motorists, however, have an opportunity to study tire quality and tire values for themselves, the story becomes somewhat different...

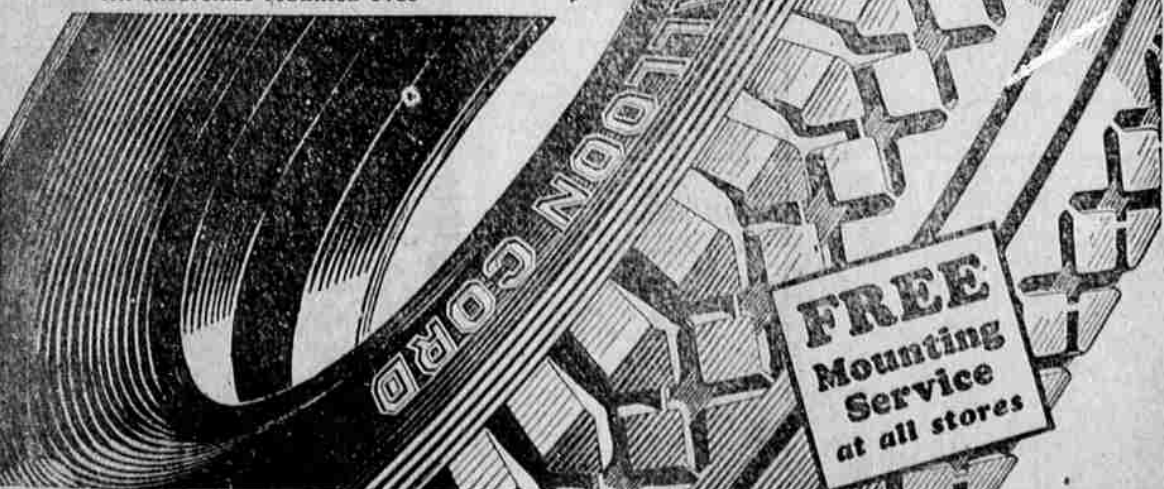

Take, for example, the popularity of RIVERSIDES among car-owners. This famous tire was introduced to the American public 18 years ago. Since that time RIVERSIDES have been sold to many millions of motorists throughout America. A great majority of these tires have been sold on merit alone—without any high-pressure salesmanship. And they were bought on just three points: the splendid reputation of Montgomery Ward & Co.—the definite mileage guarantees under which RIVERSIDE Tires have always been sold—and the recommendation of millions of satisfied users.

Facts like these cannot be disputed or ignored. They explain why RIVERSIDE Tires occupy a place among the leaders of the industry—and it is because of these facts that we make the claim, and back it with our guarantees, that RIVERSIDES are THE EQUAL OF ANY TIRE MADE, regardless of price. This statement we are anxious to have you prove to your own satisfaction—on your own car—the next time you are in the market for tires.

In the matter of price, RIVERSIDES, of course, save you money. Compared with the five or six other leading makes of equal quality, for example, your savings on a RIVERSIDE range from about \$2 per tire (on the 29 x 4.40 RIVERSIDE Balloon) to \$5 to \$10 on larger sizes. Surely such savings merit your most careful consideration... particularly in view of the fact that when you purchase a RIVERSIDE you are protected by definite guarantees of 16,000 and 30,000 miles of service! No other make of tire in America today, backed by an organization with the responsibility of Montgomery Ward & Co., is sold under such definite mileage guarantees.

Visit our store today and see these RIVERSIDES for yourself. Note their quality construction, low price, iron-clad mileage guarantees... and buy on FACTS, not "talk."
