STOCKS CLIMB IN SPITE OF HIGHER RATES

NEW YORK, Aug. 1 (AP)—High call money rates slowed up trading in today's stock market but failed to check the resumption of the upward price movement. A sprinkling of issues found ground in a mid-day selling movement, but the main price tendency was upward with the public utilities and high priced specialties in the vanguard of the advance.

Heavy calling of loans sent the call money rate to twelve per cent accompanied by a new rush of buying orders which boosted the 11-8 Street yield above 212 and into new high ground. Columbia Carbon rose 1 1/2 points. Keith-Albee-Orpheum preferred rose 3 points. Gillette safety razor 7, and Westinghouse electric first preferred 5 1/2. The close was strong. Sales approximated 3,200,000 shares.

Wheat Advances In Late Dealings After Early Drop

CHICAGO, Aug. 1 (AP)—Wheat prices advanced in the late dealings today, more than offsetting early decline. Private crop estimates to be given out tomorrow were generally expected to prove bullish and there were late indications that new export business in wheat from the United States was under way. Predictions of another short crop of wheat in Canada were also current, based on experience regarding peculiarities of Canadian sub-soil moisture conditions.

Wheat closed unsettled 1/2 to 3/4 above yesterday's finish. Corn closed at 1/2 net decline to 1/2 advance, oats 1/2 off to 3/4 % gain and provisions varying from 2 set-back to a rise of a shade.

THUNDER STORMS FAIL TO CHECK HEAT WAVE HERE

sky-rocketed to as high as 111 degrees in some sections and above 100 in many others. Orofino, Idaho, in the heart of the mountainous Clearwater river country, reported the maximum temperature, while a dozen other towns suffered at 110 degrees. A forest lookout's thermometer registered 94 degrees on a peak that usually is chilled throughout the summer.

1000 Fighting Fires
A thousand men today were

fighting forest fires in Idaho, Montana and Washington under conditions that were made acute by the lack of rain.

Stands were being made on dozens of fronts in the three states against old and new blazes, some of them under control and others raging onward despite the efforts of greatly augmented fighting crews.

Probably the most dangerous fire in the region was on Schwartz creek in the Missoula national forest which roared out of control before heavy winds after fighters had subdued it and part of their force had been shifted to new battle lines. Several thousand acres had been burned over. Fires were burning also in Lolo, Butte and Blackfoot forests in that state.

In North Idaho several blazes, most of them confined to sections a few hundred acres in area, were burning in the Nez Perce and Selway forests.

PENDELTON 106 ABOVE PORTLAND, Aug. 1 (AP)—Thunderstorms in the mountains and temperatures generally above normal in the interior were forecast by the government weather bureau here today. Numerous thunderstorms accompanied by moderate showers occurred in the Cascade and Rocky Mountains yesterday.

On the fact of government weather reports here, Pendleton appeared to have been the warmest spot in the state yesterday as officials' temperatures are constant. The mercury there rose to 106 degrees. During the night the minimum was 76 degrees.

Baker had a temperature of 92, as did Medford.

GIANT GRAF ZEPPELIN ON WAY TO U. S.

(Continued from Page 1)

would need between 80 and 85 hours to reach New York, which he planned to circle before berthing at Lakehurst.

Due On Sunday
An 8-hour trip would bring the voyage to an end at about 6 a. m. E.S.T. Sunday morning, Dr. Eckener's course from here lay over Konstanz, on the Swiss bank of Lake Constance, Baste, Besancon, France, Lyons, down the Rhone, and southwestward along the Mediterranean coast to Gibraltar. He expected to travel from Gibraltar above or slightly north of the Azores varying his route according to the weather.

The Graf's start from here was one of the quickest of its year of life. The crew went aboard at 2:45 a. m. and the passengers two minutes later.

It was the third start of the Graf Zepplin for America, but of the first two only the first represented a successful ocean crossing. The Graf left here on May 16 only to make an emergency landing in southern France, when four of its five motors failed.

Stowaway on Board
Despite elaborate precautions taken yesterday and today, a stow-away managed to smuggle himself aboard the ship.

"The police saw him jump into the shaft, and called to the officers of the Zepplin but Hans Von Schiller, navigator, responded "Oh we haven't time to take him off." None of those watching, however,

knew definitely whether he succeeded in holding himself in the shaft. The possibility was admitted that searchlights playing on the airship may have given the impression of man jumping.

The 21 passengers who originally had planned to be aboard the Zepplin today were cut to 18 when Allan Miller of New York, and the "Mr. Channing" who booked passage from Berne failed to arrive.

The seven Americans aboard were Nelson Morris of Chicago, Frank E. Nicholson of Syracuse, George E. Crouse and his wife Jeanette Crouse, of Syracuse; Richard C. Burke of California, Herbert S. Siebel of Saginaw, Mich., and Joachim Richard of Boston, Mass.

Among the other passengers were Captain Sir. George Hubert Wilkins, Polar explorer, Professor Gregoire Gourevitch and his wife Reye Proyssart Gourevitch, a Russian pianist of Paris, and Dr. Walter Ppeiss, of the German ministry of traffic. Two other women, Anna M. Wong, Chinese-American movie actress (and Suzanne Boland of Paris, attempted to obtain passage, but were refused by Dr. Eckener, who said he needed the room for fuel.

Accuse Banker Of Attempting To Rob Palace

MADRID, Aug. 1 (AP)—Spanish police held in custody today an American giving the name of Buckley J. Dee, described as a Chicago banker and tourist. He is charged with attempting to take from the famous Escorial Palace near Madrid a valuable ancient porcelain plaque. Dee emphatically denied the charge.

The American and his wife were among a tourist party visiting the historic Escorial, about 20 miles from Madrid, last Wednesday. It was then civic guards took Dee into custody.

Mrs. Dee today wept while she asserted her husband's innocence of any attempt to "rob the hill palace of Escorial." She left this morning for the village of Escorial where her husband is in jail.

She was accompanied by a Spanish lawyer, Hipolito Monzonello, who has been retained to represent her husband. Monzonello is a practicing attorney in Madrid and also is vice-consul for Ecuador.

Palace guards told the police Dee offered them money to forget about the affair. This also is denied by the American, who has made a blanket refutation of all the charges.

The authorities in Escorial treating Dee with special consideration pending clearing up of the incident. Dee has special quarters in the jail. A bed was sent from a hotel and his meals are taken in to him. He is permitted to receive his wife, lawyer and American friends of the tourist party.

The case has not yet officially been taken up by the American consulate in Madrid.

PRINCE OF WALES WILL CAMP OUT WITH BOY SCOUTS

(Continued from Page 1)

visit was very great in the American camp, which he is expected to see tomorrow. Tonight he will be one of the boys sitting in at a number of camping stoves.

42 Nations in Pageant
This afternoon the scouts saw an honorary degree conferred upon Sir Robert Baden-Powell by the Vice-chancellor of Liverpool university. The rest of the afternoon was taken up with a pageant of the 42 nations represented at the rally.

Ambassador Charles G. Dawes is expected to visit the scouts camp tomorrow and the American troops are anticipating his arrival with keenness. The Americans, instead of being dismayed by rainy English weather, are enjoying it as best they can under the circumstances.

Four Seasons in a Day
They say they have experienced the four seasons in one day, and if it rains any more they suspect they will have to leave hosts to take them to the arena.

Today all of them were excited about the coming of the Prince of Wales and they confidently expect he will sit with them around the campfire listening to their best stories.

In Grandmother's Day: "A dozen eggs, please... are you sure they're fresh?... the last weren't so good... and a half pound of cheese—mild... let me taste it please... no, that's too sharp—let me try some of that one... I guess that will do... and some bacon... not that—it's too fat... have you some leaner?... well I think I'll try it"... and so on, ad infinitum.

Today: "One dozen Silver Seal Eggs, please; a half pound of Blank's Mild Cheese; a pound of So-and-so's Boneless Bacon; a package of Gold Medal Seedless Raisins; that will be all, thank you"... and the shopping is finished!

Have you ever considered what advertised goods mean to you? How many actual shopping hours you save in a year just by knowing what you want before you go to buy?

And more than that—you know just what you're getting. You ask for things by brand name with confidence, for you're sure they'll be the same today as they were yesterday, or last month. Advertisers must maintain standard quality in their products; their advertisements must be your guarantee of reliability. They cannot afford to advertise poor or uneven merchandise.

Read the advertisements regularly. The time you spend in doing so will be regained many times over when it comes to buying. To say nothing of the satisfaction of having perfect confidence in what you purchase.
