PEACE OF WORLD IS NEARER TODAY

Written Instruments of Men Further the Dream of no Wars.

By Donald C. Bolles (Associated Press Feature Writer) NEW YORK (AP)—A decade has elapsed since the armistice turned the world from thought of war and has brought it a long way on the road to a perpetual universal peace.

The discussion of another disarmament conference, coupled with conversations between the United States and Great Britain on naval parity, and the promulgation of the Kellogg-Briand pact, are the most recent acts in the moving drama to assure peace the world has witnessed since 1918.

Governments long have dreamed of an utopian world in which war shall be no more, and the moves since the world war to swing the pendulum of world thought from military and naval preparedness to world peace has heartened the Washington government.

In assuming an aggressive attitude in promoting universal amity, President Hoover is upholding the policy of his three predecessors in the White House since the world war. The administrations of Wilson, Harding and Coolidge were marked by important milestones in crystallizing world thought against resort to war.

The milestones, briefly, were: 1. Birth of the league of nations in which President Wilson played a prominent part, although the United States refused to join.

2. Washington disarmament conference during the administration of President Harding which saw the approval of eight treaties, most important of which was the declaration of a 10-year naval holiday on a 5-5-3 basis by the United States, Great Britain, and Japan, with France and Italy joining.

3. The tripartite naval conference at Geneva which originated in the invitation of President Coolidge to Great Britain, Japan, France and Italy to hold conversations by which further reduction of armament might be effected. It ended in a deadlock for which representatives of the United States held Great Britain responsible.

4. The Kellogg-Briand treaty for the outlawry of war, born at a Paris conference of delegates of 13 signatory nations during 1927, and which number was swollen to 46 at the invitation of President Coolidge.

The dispatch with which President Hoover has embarked upon negotiations to heal the wounds between Great Britain and the United States suffered at the Geneva conference, and the whole tenor of his pronouncements on international questions is regarded in diplomatic circles as presaging a continuance of the United States in the role of pacificator.

Already, Premier Ramsay MacDonald says, the promptness with which the Washington government has acted has established recognition by both the United States and Great Britain of the principle of naval parity.

Fresh Start
A fresh start has been made by the two governments in seeking a solution to the problem of naval disarmament which defied solution at the Geneva conference, and the groundwork laid for another conference of the powers that participated in the 1922 Washington conference.

In all the efforts the world has made since 1918 to outlaw war, the power of public opinion as an instrument for peace overshadows all, and the written expressions of men bid fair to indeed become mightier than the sword.

HOOPER MONUMENT FROM SWIMMING HOLE
WEST BRANCH, Iowa (AP)—Stones from President Hoover's old swimming hole and the yard of his birthplace here will be used in building a monument to him at Pawhuska, Okla., site of one of his first scientific achievements.

Hoover, when a freshman at Stanford university 25 years ago, discovered a new variety of limestone on the farm of his uncle, Laban Mills, near Pawhuska, and named it for the town.

Prof. Abram O. Thomas, University of Iowa geologist, is collecting the stones, to be combined with stones from Stanford and Pawhuska limestone.

NEW MAGAZINE WRITTEN FOR 4-H CLUB MEMBERS
KANSAS CITY (AP)—A magazine devoted to the interests of 700,000 4-H club boys and girls throughout the country has begun publication in Kansas City.

The National monthly, plans to cater exclusively to farm boys and girls. It will cooperate with the 4-H club movement, which is sponsored by the United States department of agriculture and state agricultural colleges.

Members of 4-H clubs, it has been announced, will write for the new publication.

READING AND RICHES
NEW YORK (AP)—Wall street's reading habits have undergone a gradual change in recent years. The only book store with a Wall street address reports a declining demand for financial literature of the "get-rich-quick" variety.

Capon: nominal. Roosters old leghorn 14c; colored 15c.

He Gets an Earful
A Czechoslovakian citizen returned from the Arctic region, where he had been living with the Eskimos 50 years. In that time he had had no news of the outside world.

End of an Endurance Flight

Wreckage of the "Greater Des Moines," endurance plane, in which Pilot Arnold Ross, inset, was killed when it crashed to earth at Des Moines, Ia., is pictured here. Arnold was standing in an open cockpit ready to make a refueling contact when the plane dove to destruction. Another pilot escaped by use of a parachute.

FEW CHANGES IN PRICES IN MARKET TODAY

PORTLAND, Ore., Aug. 5 (AP)—Eggs, butter, poultry and fresh meats were unchanged.

The long expected recession in the price of cantaloupes showed its shadow today with indications that the real thing would be along the last of the week. A few Yakima cantaloupes are beginning to come in. The Dalles was expected to add to this source of supply by Saturday.

Watermelons are holding steady. Tomatoes were getting plentiful and the price was weaker. Peaches and plums were arriving from the Dalles in larger quantities and these values were due for some recession.

The East Side market had an abundant supply of fruits and vegetables, but found a ready market for most of the products. Peaches were easier at \$1.40 to \$1.10, corn lower at six dozen ears for \$1.75; and tomatoes down to \$1. Blackberries had a slight decline at \$1.90 to \$2, while radishes went up to 35 and asparagus to \$4. The last two vegetables are nearing the end. Raspberries were still coming in at \$2.50. Apples were held at 30 cents. Other prices were unchanged.

NEW YORK FRUIT
NEW YORK, Aug. 5 (AP)—Evaporated apples: steady; choice 12 1/2 to 14; fancy 16 to 15 1/2. Prunes: steady; California 7 to 12; Oregon 10 1/2 to 15. Apples: steady; standard 14 to 15; choice 17 1/2 to 19; extra choice 21 to 24.

Peaches: steady; standard 13c; choice 14c; extra choice 14 1/2c.

CHICAGO LIVESTOCK

CLOSE HEAVY AFTER EARLY UPWARD TREND

NEW YORK, Aug. 5 (AP)—Heavy buying of the public utilities, a dozen of which soared to new high records, featured the mixed price movement in today's stock market. Motor, copper, railroad and amusement shares presented several points of strength, but the rally invariably brought increased offerings of stock with the result that but few of the gains were fully maintained. Trading started off at a terrific pace, but slowed down when soft spots cropped out in several sections of the list.

Prices slid down when banks called loans and the call money rate rose to 12 per cent. General Electric dropped 3 1/2 points, Union Carbide 6, North American 4 1/2 and American Telephone and Telegraph 3. Many others were down from 2 to 4 points, including New York Central, Atchafalpa, U. S. Steel, American Can and International Telephone and Telegraph. The close was heavy. Sales approximated 3,800,000 shares.

More than 300,000 owners and not one has spent a single dollar for repairs or service!

THIS RECORD STANDS ALONE

..we challenge comparison!

So far not one owner of a General Electric Refrigerator has had to pay a single dollar for repairs or service. It is General Electric's answer to those who ask "Is electric refrigeration out of the experimental stage?"

The first people who bought these refrigerators when they were introduced more than two years ago, bought them on faith. They knew that if General Electric engineers worked for fifteen years to perfect a product, that product would have outstanding advantages. Their faith has been justified.

The simple, worry-free, hermetically sealed mechanism of the General Electric was hailed as revolutionary. It established entirely new standards of service, of quiet operation, of economy. Today the General Electric is the one and only refrigerator which has an all-steel cabinet—warp-proof and rugged as a safe, with rounded corners for easy cleaning. See these refrigerators. Be sure to ask about our convenient purchase plan.

Tune in on the General Electric Hour broadcast every Saturday evening, 8 to 9 Eastern Standard Time over the N. B. C. network of 42 stations.

Beats the Heat

When Editor W. O. Saunders, of the Elizabeth City (N. C.) Independent, took a morning stroll clad in tan pajamas and a necktie, as pictured here, he expected to create quite a stir—but didn't. Few pedestrians noticed the unusual carb of their editor and small boys didn't even let out the customary razzberry when he passed. And one little said it wasn't much—because pajamas aren't pajamas unless they're pink!
