**DOMESTIC WHEAT MARKET IS LOWER**

**Feed Grains Firm Early in Week But Easier at the Close.**

CHICAGO, Aug. 6 (AP)—Southern selling on a big scale demoralized the wheat market in the late trading today, and prices shot downward more than 7 cents a bushel under yesterday's.

A leading Winnipeg tender was reported to have thrown overboard his holdings of wheat future deliveries here and the action came at a time when the market was without aggressive support. The ensuing break carried values down to the lowest level reached in three weeks. Some rains were reported in the Canadian northwest, and there were advices of likelihood that Argentine wheat acreage would be enlarged.

Wheat closed wild, at almost the day's bottom figures, 6 1/4 cts a bushel under yesterday's final quotations. Corn rose 1 1/2 to 2c down. Oats 1/4 to 1/2c off and provisions at 2 to 10c setback.

WASHINGTON, Aug. 6—The heavy movement of winter wheat, together with large stocks of old crop grain, was the principal weakening factor in the domestic wheat market during the week ending August 2, according to the weekly Grain Market Review of the United States Bureau of Agricultural Economics. Offerings of cash wheat were in excess of the prevailing milling and export demand and cash prices declined. The flour market continued strong.

Wheat conditions in Europe have shown some deterioration due to the recent hot, dry weather. However, rains fell in most parts at the close of the week, except in the Mediterranean region. Conditions are reported favorable in the Scandinavian countries and generally satisfactory in the Balkan states. Wheat yields are reported more in the Netherlands and in German the crop is expected to be somewhat less than the good harvest last season. Outlook in the lower Danubian countries appear to be somewhat below last season, although new wheat is being offered freely from these areas. The Hungarian crop which usually supplies a surplus for export, is reported good quality. Weather conditions continue dry in the Southern Hemisphere countries with rains urgently needed in the Argentine and conditions becoming serious in Australia.

**Wheat**  
Harvesting of winter wheat is now nearly completed to the northwest rapidly. Work has been finished in the southern part of the belt and was progressing rapidly under most favorable weather conditions elsewhere. Receipts averaged very heavy during the past week at Central Western markets and stocks in store increased sharply. Receipts at Kansas City declined somewhat as compared with those of week and year ago but with stocks of old wheat, large arrivals of new wheat were sufficiently heavy to cause some congestion. However, shipments from Kansas exceeded all previous July records. Elevators were filling rapidly at Omaha with many cars reported on the tracks, unloaded and country loadings were heavy. Heavier movement and the general lack of storage space, despite the late milling demand, brought about a decline in prices.

**Movement Increases**  
The movement of soft winter wheat continued to increase with shipping progressing rapidly under favorable weather conditions. Demand continues good at most markets. Storage space was becoming scarce at St. Louis and buyers were reported inclined to take only the better grades.

Demand from elevators at Cincinnati was good during the week but export inquiry was dull. The quality of early arrivals continued unusually good and the absence of muddy wheat was a feature.

The spring wheat market continued to fluctuate largely with winter wheat. The deterioration of the domestic crop was verified in part by private reports as of August 1 but their forecasts were reported higher than generally expected by the trade. Crop conditions in both the United States and Canada continued unfavorable during the past week. Early planting returns of spring wheat in northwestern Minnesota and eastern North Dakota are of good quality. Tests of the few samples submitted indicate an average

**STOCK MARKET TRADE TODAY IS IRREGULAR**

NEW YORK, Aug. 6 (AP)—Easing call money rates checked a sharp decline in today's stock market. Prices of many active shares were carried down 1 to 8 points in the morning selling movement but most of the losses were cut in half, or better, and a sprinkling of issues carried 2 to 6 points above yesterday's final quotations in the early afternoon recovery. Trading was fairly heavy in volume.

Active buying of the copper, which rose 2 to 4 points coincident with a decline in the call money rate to 8 per cent, caused a spirited rise in the last hour. Newport company was up 5 1/2 to a new high and Briggs manufacturing, Bosch Magneto, National Biscuit, Warner Brothers pictures and Vulcan DeLinning also made substantial advances. Late selling of Pao American Petroleum B and May department stores was a feature. The close was irregular. Sales approximated 3,600,000 shares.

**YAKIMA CANTS REACH MARKET IN PORTLAND**  
PORTLAND, Ore., Aug. 6, (AP)—Yakima cantaloupes of excellent quality, came on the market today. A truckload of the product was brought some 200 miles, to the east side market of the merchant and ranchers' association, and, quoted at unusually reasonable prices. The grower sold the whole load at \$2 to \$2.25 a crate of 27 melons. Prices naturally will take a tumble.

Another east side market price decline was in tomatoes, which went down to 30 cents. Blackberries took the same toboggan down to \$1.25. Peaches were slightly weaker at 50 cents to \$1. Green corn lopped off quite a bit when it receded to \$1.50 to \$1.75 for a sack of six dozen.

Potatoes were scarce and the price tendency was upward. They were held at \$2 to \$2.25 for a box of 70 pounds.

Other prices were unchanged.

**Louisville Legionnaires To Spend \$100,000 In Entertaining Visitors**

LOUISVILLE, Ky. (AP)—A corporation to spend money instead of making it has been organized by the Louisville Legionnaires making plans to entertain the 100,000 war veterans expected to attend the annual convention of the American Legion September 20.

"And although Frank D. Rash, president, and Beau Kemp, director, are finding it difficult to get rid of a great deal of it, they claim their goal of \$100,000 or more hospitality expenditures will have been reached by the time Legionnaires gather for their annual reunion.

One of the biggest divisions of the convention corporation is charged with providing lodging for the war veterans. This, say its officers, already has been achieved with the cooperation of every Louisville hotel. The hotels have agreed not to raise rates.

The corporation has arranged for the visitors to attend horse races at Churchill Downs, excursions to Mammoth cave, Daniel Boone's grave and many other historical sites; and to see to Louisville's river pride called "The greatest collection of river steamboats in modern times."

The convention will open in Jefferson county armory, which has a seating capacity of 19,000. Later sessions will be held in the \$1,250,000 memorial auditorium. Louisville's tribute to her service men. For one feature event—the concert of a 1,000 piece band under the direction of Censar La Monne, himself a Legionnaire. The University of Louisville campus will be the setting.

**86-Foot Dam Gives Eugene Is Facing School Problem**

LAS VEGAS, Nev., Aug. 6, (AP)—An 86-foot dam across the Virgin river, near Littlefield, Ariz., was swept away late Monday by flood waters pouring out of the nearby mountains and large numbers of livestock were drowned, although ranchers in the valley escaped by fleeing to higher ground, it was learned here today.

The dam was under construction at the time and was about half completed. Approximately 15,000 acres of water had been impounded before the concrete wall burst and a wall of water swept over the valley.

EUGENE, Ore., Aug. 6 (AP)—The fear that lack of funds might force one of Eugene's grade schools to close was expressed today by H. R. Gould, city superintendent of schools. On June 17 taxpayers of the district rejected the budget for the coming year. This budget provided for current needs and in addition included funds for \$10,000 reduction of warrant indebtedness, \$18,000 for increase of teachers' salaries, and \$12,000 for enlargement of a school grounds.

**Strike Cause Of Temporary Burials**  
NEW YORK, Aug. 6 (AP)—Temporary burial of the dead in trenches, reminiscent of war times, was resorted to today at Calvary cemetery in Queens when a week-old strike of grave diggers resulted in an accumulation of 600 bodies. Since the start of the strike bodies have been placed in the cemetery's temporary receiving vaults which have accommodation for nearly 1,000 bodies. Under the law, however, a body must be buried within four days after death and cover the weekend men were placed at work digging three long trenches.

It was announced that after settlement of the strike, the bodies would be reburied in the family plots.

**As to Water**  
There are all sorts of legal questions involved in the matter of the control of water. All navigable waterways belong to the public. The federal government has jurisdiction over lakes and rivers as regards their navigation, while the states have jurisdiction in other matters. **Why Is It Hard To Save Money?**  
Everybody would like to have money saved up. Anybody knows the importance of saving part of what he earns. Nobody looks forward to old age or a lost job without wanting the protection of accumulated wealth.

But the actual job of saving money is hard—and you never save quite as much as you plan.

What's the reason?  
The trouble is that saving is generally the last part of your financial program instead of the first. Necessities are purchased, bills paid, and you get to the end of the month to find that there's no money left. It has gone for other things—and your saving isn't made.

The La Grande Building & Loan investment helps cure that evil. You contract a payment of so much a week or month—and you pay it on payday—the first thing, not the last. You have a definite goal in sight—you have something to work for. You can see what your money is going to accomplish. Let us talk it over with you in detail.
