When Little Ones Are Ready For School

When little ones beginning school life, leave the protecting care of the home to compete with other scholars of the same age, be sure that all the child is being sent.

If hearing is defective, if eyes are weakened, or any organ is subnormal then all the child is not going to school. It is only a fractional child that you are sending out to take his place in the school room.

By my chiropractic health method I correct diseases of the eyes, ears, nose, throat, lungs, heart, stomach, liver, kidneys, bowels and lower organs.
