

"I can't say too much in praise of the Kelvinator"

Gentlemen:

You ask me about the Kelvinator installed in my home about March, 1922. It has been most satisfactory in every way . . . a perfect joy. It has needed very little attention, and when this was necessary I have found your men most efficient and courteous. I can't say too much in praise of the Kelvinator.

Very truly yours,

This letter was in answer to an inquiry regarding the service of Kelvinators sold from six to twelve years ago. Hundreds of similar letters are on file.

The remarkable record of these old machines is vitally important to you . . . for economy and efficiency are the things that count in an electric refrigerator.

We sell Kelvinators because they are the oldest domestic electric refrigerator and proved by their records as absolutely dependable. The first Kelvinator ever installed (in 1915) is still giving "wonderful service."

It's definite assurance that in 1941 your electric refrigerator will still be giving "wonderful service" if you buy a Kelvinator from us today. Isn't that the kind to have?

Easy to purchase—easy to install

A Kelvinator is quickly and easily installed. If you ever move, you can take it with you.

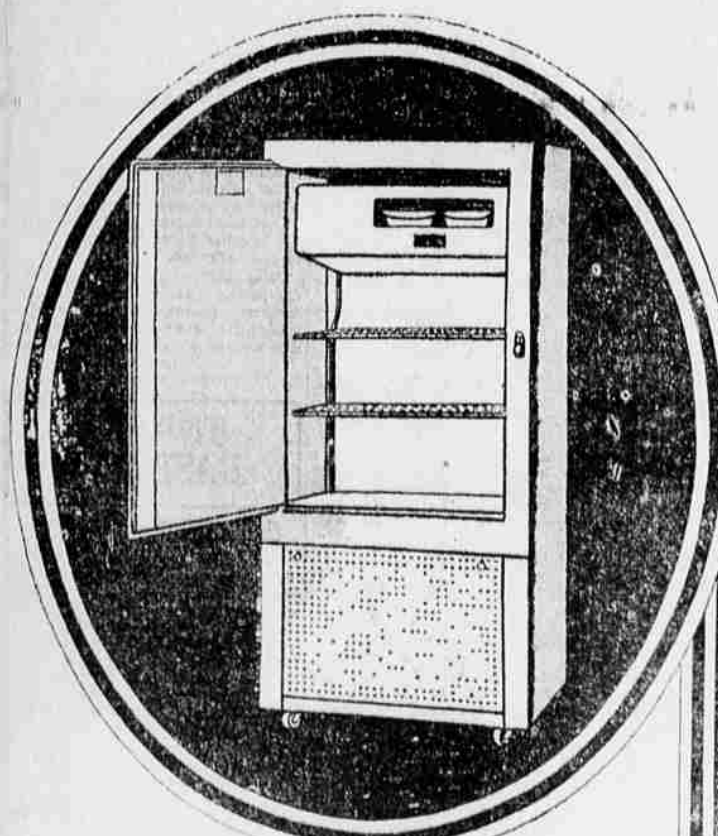

We can place a handsome new Kelvinator in your home today for a first payment as **Low as \$20. The Balance Can be Paid on Easy Monthly Terms**

The Stamp of Approval

Beth McLean, celebrated home economist and food expert, is using the KELVINATOR exclusively in the Observer Cooking School held in La Grande this week. In addition to demonstrating the preparation of delicious frozen salads, Mrs. McLean will use the Kelvinator in connection with the various recipes specially selected for this course, and demonstrate the better preservation of food, health and sanitation that KELVINATOR brings. Don't fail to be present--no admission charge--absolutely free.

Send me "The Kelvinator Book." This involves no obligation on my part whatsoever.
