Diamond Prairie Fire Takes Home And Furniture

By Mrs. Edna Hunter
(Observer Correspondent)
WALLAWA, Ore., (Special)—Herb Belders' home on Diamond Prairie was utterly destroyed by fire late Tuesday night. The fire truck rushed to the scene but arrived just as the walls were caving in and as there are no water mains that far out of town the men had to resort to the use of chemicals which were powerless to extinguish a fire that had gained so much headway. The fire broke out while the Belders were asleep and was not discovered until it was too late to save any of their furniture. Only a few articles that were on the back porch were carried to safety.

FARM BOARD TO AID RAISIN MEN

More than Nine Million Dollars for Assistance of Westerners.

FRESNO, Cal., Aug. 23. (AP)—Federal aid to agriculture in California became a reality here as the Sun Maid Raisin Growers association, backed by \$2,050,000 in credit from the federal farm board went to the assistance of growers wishing to market their 1919 raisin crops under the government's relief program.

Officers of the association announced that their representatives would go into the field to provide advance payments to growers out of the available federal credits and that payment would be made to the producers within six days after the delivery of the crops on a basis of \$99 a ton.

It was announced that the association would buy raisins from any grower, regardless of whether he is affiliated with the organization, and that the same advance payments would be made to both members and non-members. The produce from non-members is to be kept in separate pools, however. That a grading schedule should be adopted, providing advances of from \$40 a ton for the lowest grade to \$70 a ton for the highest quality.
