

Book On Head Aid To Walking Without Wiggle

CHICAGO, (AP)—Teaching women how to walk without a wiggle of shoulders and hips, says one who has made a living out of such teaching, demands an interest in books—any old books.

Leslie Esker, who developed a "reform" school from a costume and corset business, first teaches her pupils how to walk. And to rid them of the shaking shoulders and winging hips, he starts them walking around with a book or two on their heads.

Esker first taught folk of the stage how to walk, hold their hands, stand, what to wear and how to make-up. His admirance of a few society women opened the way for all women, and now even men are students of grace and charm.

Esker thinks American women do not know how to walk, and he sees that as their obstacle to complete domination in the international beauty field.

"They strike the pavement with their heels and stamp their shoulders," he says, "they slump their heads down and become a wiggle when they reach the hips. The wiggle is scarcely graceful."

"Most women walk stiff legged and stiff jointed. They swing along from the shoulders. The center of gravity is in the hip, and in walking the shoulders should be steady and the head poised."

What's where the books come in. A shoulder shimmy and a hip wiggle can't be done with a book balanced on the head.

Carmen Sylvia who taught University of Missouri reads Esker's instructive dancing, now catches Esker's pupils in what to do with the hands, feet, legs, in the action, but not until after the chair candidate knows that the hands should be on an angle, the wrist flexed just right and the arm correctly poised.

Make-up advice against too forehead and hair and a nose "tip tilted like a rose"—that's how the instructions read—and split curls.

Esker's wife insists in "relaxation, grace." That means the student should have a good clothes consciousness, an evening gown, appreciation of a bathing suit, some long swimming strokes are for short wear, swimmer strokes for children.

Length of skirt to set off the particular woman also is decided. Esker shows the candidates their progress with motion pictures.

Spokane

SOCIETY NEWS

Many Picnics In This Community During the Month

As the summer draws to a close, looking over the past month it is noted that there has been an exceptional round of picnics made possible by the splendid weather La Grande has enjoyed this summer.

Today the B. of L. E. and E. and the auxiliary are holding a picnic, and last weekend the Moose lodge also had one at Pine Grove.

There have been several industrial picnics besides the big one at Indian Springs during August. Employees of the Perkins Motor company met at Coyo for an outdoor feast; the Pacific and West Coast Telephone companies also held a picnic Sunday.

Sunday schools and church organizations have been meeting and going out together to eat dinner. All in all it seems that the great outdoors is becoming more popular with the public, and that organizations are using this way to "get together" as a successful method of keeping up interest.

With the coming of fall, school starts and the mothers are busy getting the children ready, so that these outdoor parties will gradually diminish in numbers until winter.

Ladies Auxiliary In Picnic Today

Pine Grove, the scene of many local picnics, will again be the place of a celebration held there today by the ladies auxiliary of the B. of L. E. and E. and the B. of L. E. and E.

A picnic dinner is planned for which the men's organization will furnish the ice cream and the women's the rest of the spread. Swimming and the usual outdoor fun will be enjoyed.

Infirmary Benefit Dance Is Thursday

The Oregon mothers of the University of Oregon have been busy this fall week selling tickets for the infirmary benefit dance, and a fair degree of success is reported. All the mothers over the state are working in the campaign to raise \$20,000 dollars for the new infirmary at Eugene. If this amount is raised the state will give a similar amount, totaling \$40,000 for the building.

The dance, which will be given at the Sagesaw, Thursday night is the only college dance this summer, and it is expected to be a success. Dinner will be served and there will be interesting features.

College students are assisting the mothers in the ticket sale. The quota has to be raised by September first, and it is expected that the mothers are having the benefit dance.

NORRIS FAVORS DIRECT ELECTION OF PRESIDENT

Continued from Page One

action made by the federal trade commission of the activities of the so-called power trust. The evidence produced demonstrates that the power trust is the greatest monopoly which has ever been put together by human ingenuity.

Explaining his proposal for a progressive inheritance tax, he suggested that it contain liberal exemptions to provide for the comfort and even the luxury of those dependent upon the testator during his life. He urged that the rate be advanced "so as to make it impossible for a human being to continue combination and monopoly beyond his natural life."

"Flying Postoffice" Is Next

This is how Uncle Sam's flying postoffice will look when clerks are carried on planes to sort airmail while the plane is en route. The Boeing Air Transport, operators of the San Francisco-Chicago route, is building a fleet of 15 passenger planes which can be converted into mail planes like this within 24 hours. The mail cabin is 15 1/2 feet long, five and one-half feet wide, and allows a clerk to stand upright while working. There is room for 200,000 letters.

DERBY PLANE CRASH FATAL TO AVIATORS

Continued from Page 1

ton feet. It appeared to witnesses that the plane sidetracked as it was banked for a landing.

The plane piloted by Joseph M. McGonigley was the first of the derby contestants to reach here, arriving a few minutes after 11 a. m. His plane also appeared to sidetrack as it was banked for a turn over the field and spectators for a time feared a crash was impending.

TED WELLS LEADING SOUTH BEND, Ind., Aug. 27 (AP)—Led by Ted Wells, Wichita, the eight flyers participating in the Portland to Cleveland air derby took off from South Bend, today for Cleveland in two minute intervals starting at 11 a. m. Central standard time. Wells is leading by four minutes and 41 seconds; Cleveland is 250 miles east of here.

Wells arrived at the South Bend airport at 11:22:45 a. m. (C. S. T.) to make his total elapsed time 13:16:28. Gorman, the last pilot to leave Milwaukee, reached here at 11:12:55 a. m. His total elapsed

time was 12:12:07. Six other contestants also reached South Bend safely. They will take off for Cleveland later.

Tex Rankin, Portland, held third place when the log here was completed. His total elapsed time was 12:54:02.

WINNER DISQUALIFIED

CLEVELAND, Aug. 27 (AP)—Phoebus Gmiech of Birmingham, Ala., who won the women's 20-mile airplane speed race at the national air races today, was disqualified for fouling on one of the turns around a course pylon, the officials awarding first place to Mrs. Keith Miller of Buffalo, who had finished second.

Lady Mary Heath of England, who distinguished her flight by making three at the pylon, came in third. Her speed was 96.17 miles per hour.

SHUTTLE STARTS TRIP

OAKLAND, Cal., Aug. 27 (AP)—The Boeing mail plane Shuttle hoped off from the Oakland airport at 8:29 a. m., today on the first lap of a transcontinental refueling endurance flight. Flying at high speed the plane headed eastward and at 2 this afternoon will fuel over Elko, Nevada. Captain Ira Baker was at the controls.

Representative W. Frank James of Michigan officially started the Shuttle on its way. Within 24 hours pilots Baker and Bernard Thompson are expected to be over New York City, where they will take on fuel and mail and start back across the continent. Contacts are also planned at Cheyenne.
