CELEBRATION PROGRAM IS COMPLETED

Events Follow One Another Rapidly From 5 a. m. to Midnight.

25-MILE HIKE IS SCHEDULED FIRST

Parade at 11 O'clock in Morning — Program at High School Field Starts at 1:30 p. m.

The complete program for the Labor day celebration here next Monday was announced today by L. E. Evans, chairman, and his committeemen, and includes a greater variety and number of events than have ever been held here before on a similar occasion.

From 5 a. m., when the men hikers start their 25-mile, $200 trek, until midnight, there will be something to watch constantly, with occasional hours off to replenish the innerman.

The program follows:

5 a. m.—Start of men's hike from post office. Prizes: first $200, second $100; third $50; fourth $25; fifth $15 and sixth $10. Course a figure eight first section of which will bring hikers back through Lan Grande. Finish it at Hemlock and Adams.

7 a. m.—Start of women's hike (10 miles) from post office. Finish at Hemlock and Adams. Prizes: first $10, second $7.50, third $5, fourth $2.50.

9 a. m.—Log rolling contest and water carnival at Crystal plunge.

9:30 a. m.—Boys' bicycle race, under 18 years, starts at post office, finish at post office. First $5 swim ticket, second $2.50, third $1.25.

9:45 to 11 a. m.—Expected finishes of hiking contests.

11 a. m.—Street parade, with band, queen's float, national guard, labor, legion and fraternal, grange, commercial and other sections. Prizes offered for parade floats: labor section $25, $15 and $10; fraternal and grange $25, $15 and $10; commercial $25, $15 and $10; clowns $10 and $5; and boy scouts, troop with greatest percentage of membership in parade $5.

1:30 p. m.—Program at ban park.

Music by La Grande band, announcements and formal introduction of Labor queen and her attendants.

Tire changing contest $10, $5 and $2.50.

Log sawing contest $25 and new Simmons saw, $15 and $10.

Tug of war $15.

Free for all pie eating contest $2 and $1.

Free for all watermelon eating contest $2 and $1.

Wood chopping contest $10, $7.50 and $5.

Nail driving contest for women

REMIND GIRLS OF LA GRANDE HIGH STYLES

As the time for school to start draws near, girls who attend high school are recalling the requirements of the standards of dress set by the motion of the standards committee passed unanimously by the A. G. S. in 1927-28. According to this extremely high heels, chiffon hose, party dresses or dresses of impractical material or pattern, and too much make-up were banned.

During the past years of its existence this standard has been upheld by the advisors and the girls. Lena Duckett, president of the A. G. S. urges that all girls, especially the incoming freshmen adhere to standards. She also expressed the desire that the girls endeavor to make this year a bigger and better one for the A. G. S.

Selects Friday For Motion Day

Judge J. W. Knowles has named Friday, Aug. 30 for a motion day in the Union county circuit court, it was learned at the court house today.

The following cases have been set: at 10:00 a. m. La Grande Nesbard vs. Hattie Friswald (J. Stonal bank (Cochran and Eberhard vs. Slater); (Cochran and Eberhard) at 10:30 S. B. Williamson (Eugene Ashwill) vs. L. C. Smith (J. D. Slater); at 11:00 Cove lodge No. 52 (J. D. Slater) vs. Thomas Harris, et al. (J. S. Hodgin;) and at 11:30 F. D. Ott and others (Hugh Brady) vs. Fritz Ott (H. J. Kitchen.)

This motion day is held prior to the term of circuit court which will begin in October.

WEATHER TODAY
7:30 a. m.—67 above.
Minimum: 58 above.
Condition: clear.
WEATHER YESTERDAY
Maximum 94, minimum 60 above.
Condition: partly cloudy.
WEATHER AUG. 29, 1928
Maximum 84, minimum 46 above.
Condition: clear.

Deed For Site To Be Given To Ross Dehydrator

City Commission Acts on Proceedings to Vacate Streets — Lock Your Car Month Declared.

The city commission's part in bringing the Ross dehydrating plant to La Grande was completed last night when the authorization for the giving of the company a deed to the factory site was voted. According to the agreement, the city furnishes the dehydrating plant with the land, but in the event that it should not be used for a period of five years, title revert to the city.

Two hearings, each in procedure to vacate certain public streets and alleys in La Grande, were held and there were no objections. One is for the vacation of the alley through blocks 26 and 27, Williamson's addition, and the other for vacation of McAnney street, Spruce to Maple, in the Pleasant Home addition. Ordinances were read for the first time in both proceedings.

Proclamation Read

A proclamation by A. T. Hill, president of the commission, declaring a "Lock Your Car" month in La Grande, conforming with Gov. Patterson's endorsement, was read.

The proclamation follows:

"Whereas, unlocked automobiles left standing on the streets play a vital part in major crime and outlawry in the cities of America, and police records show that in nearly every case of robbery or other crime the criminal operates by means of a stolen automobile, and in some case the numbers upon such automobiles are changed so that if spectators obtain the license number of the car so used, such information is rendered useless to the police, and whereas, furthermore, unlocked automobiles are a temptation to some persons who merely want to take a ride,

"Now therefore, in order that the automobile owners and the public may have the problem of unlocked automobiles brought more forcibly to their attention, and also a means of combatting crime and the theft of automobiles,

Managers Board Of P.-T. Council Organized Here

The board of managers of the La Grande City Council of the Oregon Congres of Parents and Teachers was organized and held its first meeting yesterday afternoon, with several important items of business coming before the board.

It was decided that the chairman of the membership committee of the city council should work with the local chairmen whenever needed.

It is hoped that the city council may again win the Gabriel membership cup which is awarded to the city council having the largest membership (in its local associations) in proportion to school enrollment. Last year was the first year this large silver cup was awarded and the La Grande city council was the winner. There are also other awards La Grande associations may successfully compete for individually.

Membership of the newly organized board of managers of the city council follows:

Mrs. E. D. Towler, president of the city council; Mrs. John E. Bates, first vice president of the council; Mrs. Owen B. Maxam, secretary-treasurer of the council; Mrs. Jack Hiatt, president of the Central P.-T. association; Mrs. Frank Millering, president of the Greenwood P.-T. association; Mrs. Fred Gehring, president of the Riveria P.-T. association; Mrs. Ipse Davis, president of the Willow P.-T. association; Mrs. S. E. Andrews, member of the Central P.-T. association; Mrs. C. F. McPherson, member of the Greenwood P.-T. association; Mrs. Louis Wetzel, member of the Riveria P.-T. association, and Mrs. R. C. Alexander, member of the Willow P.-T. association.

Lutheran Minister To Return Sept. 6

The Rev. Leif H. Aaro, of the English Lutheran church, his wife and family, will return to La Grande Friday, the sixth of September after an interesting trip east. Mrs. Aaro will meet her husband in Minneapolis this Friday where they will spend a few days and then continue their trip home by way of Spokane. Sunday school and church services will be held September 8.

Oregon Mothers Give Dance Tonight

Tonight the Oregon mothers are giving their benefit dance at the Sacajawea Inn ballroom for the University of Oregon Infirmary fund. A large number of tickets have been sold and the dance is expected to be a success.

During the evening there will be several features so that the event will be of interest even to those who do not dance. This is part of a drive to raise funds for a new infirmary to be built on the university of Oregon campus.

AGREEMENT REACHED ON REPARATIONS

Creditor Powers, Germans in Accord After Weeks of Bargaining.

FULL SESSION TO BE HELD FRIDAY

Will Officially Conclude Business for Which They Met at The Hague Aug. 2.

THE HAGUE, Aug. 29, (AP)—The creditor powers and the Germans reached an agreement on the Young reparations plan at The Hague conference this afternoon.

The full session of all the powers represented at the conference will be held at 10 a. m. tomorrow to conclude officially the business for which they met on Aug. 6.

The agreement came after weeks of arduous negotiations which many times seemed on the point of failure. It was only by tenacious bargaining that the "conference to end conferences" as The Hague reparations meeting was originally described, escaped deadlock and disaster.

On a report of foreign Secretary Henderson of Great Britain the political committee decided that evacuation of the Rhineland must be begun at once, that it must be terminated as far as concerns the Belgians and British and the second French zone within three months after adoption of the Young plan and that the last zone of occupation, the bridgehead at Mainz, must be cleared of foreign troops before the end of June, 1930.

This decision fell a little short of German desires. The Germans held out long and strongly for earlier liberation of the occupied territory. They wanted to be able to celebrate complete evacuation by Christmas but it was contended by the French that it would be physically impossible to get all French troops away so quickly.

FISH LADDER AT PERRY COMPLETED

Game Warden, Gun Club and Ikes Join in Building Permanent Project.

After years of protest, actual work and general worry, the Perry dam fish situation has been taken care of, and today or any other day from now on, trout and salmon may go up the Grande Ronde river with no other obstacle than an excellent and practical fish ladder in their path.

Working for the last few days, the county game warden, Warren Cornell, members of the Izaak Walton League and members of the La Grande Gun club, in a joint effort, have completed a fish ladder that is said to be better than the one at Oregon City.

Trout or salmon will have no difficulty in passing up the ladder, which is in two sections. During high water one of the sections will be hardly more than a short uphill drive for the fish, although in low water they will have to cleave both water and air to travel west.

The installation of the fish ladder, which is strongly constructed and of a permanent nature, and the planting of thousands of trout in the stream this year, leads fishermen to believe that before long the Grande Ronde will resume its

(Continued on Page 4)

Flower Show To Be Held Sept. 7, Club Announces

Blooms to be Displayed in Sacajawea Inn—Garden Judging Will Begin on Sept. 2.

The date for the sixth annual flower show, given by the Neighborhood club, has been set for Sept. 7, members of the committee announced today. Easily one of the outstanding annual community events of the year, the show has become each year larger and a more important event. Hundreds of local folk, flower hobbyists, have displayed their blooms at the exhibit, and many yards have been entered in the annual garden contests. Neighborhood club members feel that the show has been an incentive to prettier home gardens and a greater community pride.

Flowers will be displayed in the large ballroom of the Sacajawea Inn. The yards will be judged for five days starting September 2, and the final judging will be made on the sixth of September.

THREE CITIES INVITE LABOR CONVENTION

TILLAMOOK, Ore., Aug. 29 (AP)—The Oregon State Federation of Labor, in annual session here, today recommended the early completion of the Roosevelt highway and received telegrams from labor organizations at Medford, Salem and Astoria urging the next convention be held in those cities.

A resolution pertaining to the Roosevelt highway was drawn up and will be presented to the state highway commission.

Support of the income tax bill which will be on the ballot in 1930 was recommended in another resolution, but a resolution indorsing a single tax proposition aroused a storm of opposition on the floor.

The federation voted to urge congress to restrict immigration from the Philippine Islands to this country and also decided to ask congress to restrict immigration from Mexico.

SITUATION IN PALESTINE IS QUIET TODAY

LONDON, Aug. 29 (AP)—Government reports from Jerusalem today showed all quiet in Palestine where British troops were stationed. Marauding bands were observed in outlying villages, but some of these were induced to dispeorse by Palestine police or by Arab leaders.

The British forces were stated to have carried out their role of restoring public order with little opposition anywhere.

There has been no attempt by Arabs or Jews to interfere with the functioning of such essential services as railway, telegraphs and telephones. Communication between Jerusalem and Cairo was opened by all these means.

Reports that a British detachment had been disarmed by Arabs in the neighborhood of Jaffa was declared definitely without foundation.

May Investigate Power Industry

WASHINGTON, Aug. 29 (AP)—Prospects of a widespread inquiry by the senate interstate commerce committee into the power industry as well as into all forms of communication is foreseen in the terms of a resolution adopted by the senate shortly before adjournment last June.

The resolution authorizes the committee to inquire into "the transmission of power by wire or wireless."

National Food Preservation Week Object is to Improve Efficiency

These are facts brought out to receive attention during the National Food Preservation campaign, which starts this week, according to members of the local council—Editor's note.

Why do so many men and women—children, too, for that matter—feel "out of sorts" so much of the time?

Why are there so many cases of "stomach trouble," headaches, "summer complaint," indigestion, intestinal difficulties and other ills which upset the sufferer for a day or two, make his grouchy and irritable, cut down his vitality and lessen his efficiency, if they do not cause serious illness?

Of course there are many causes. Overwork, nervous exhaustion, lack of sufficient sleep, lack of exercise, overeating, eating the wrong food—all take their toll in reducing the general average of health and cutting down the maximum efficiency of the nation.

Food Loses Freshness

One of these contributing causes, scientists and health experts say, is the lack of proper care of food in the majority of American homes. These experts declare that although most housewives will indignantly deny that they ever serve their husbands and children food that is not absolutely fresh, they actually do—because they do not know how to take care of it after it is brought into the home and before it is eaten.

Recognizing all this, a number of national associations interested in the betterment of health and the proper care of food recently formed the National Food Preservation Council.

Its purpose is to try to spread in the homes of America the knowledge which scientific research has developed of the proper methods of caring for perishable foodstuffs.

Rarely Kept Properly

Scientists and physicians say that under modern methods of production and distribution perishable foods—milk, meat, butter, green vegetables, fruits—are usually delivered to the American doorstep in good condition. But in perhaps the majority of homes this food, if it is not consumed immediately, is rarely kept in accordance with the scientific requirement of a constant temperature of 50 degrees or less.

Refrigeration often is defective. Even with good refrigeration facilities, food is often handled carelessly. Bacteria multiply. Reduced vitality and lessened efficiency, if not actual sickness, are the result. The avoidable waste of spoiled food is enormous.

Cause of Food Decay

All this is undoubtedly due to a lack of general knowledge of what constitutes proper care of perish-

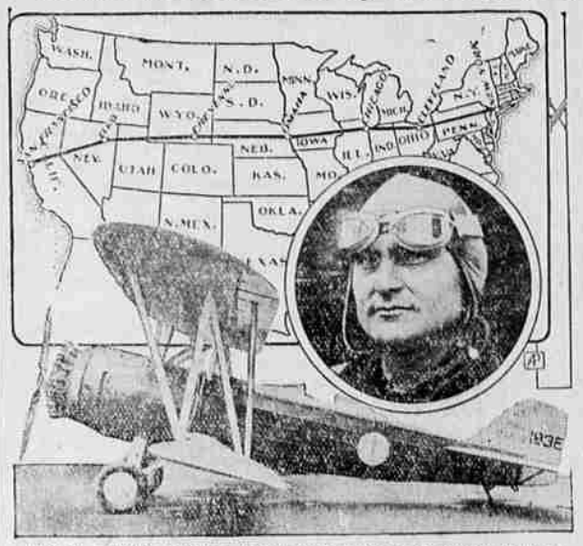
Transcontinental Mail Plane Forced Down When Struck By Oil Container



Above is a picture of Capt. Eaker, and a map of his proposed flight.

CLEVELAND, O., Aug. 29 (AP)—The transcontinental mail plane Shuttle was forced down when struck by a 5-gallon can of oil during a refueling contact here late last night while on a return flight from New York in an attempt to establish a record for sustained and linear-distance flying.

Captain Ira K. Eaker, pilot, immediately made an effort to secure permission to reattempt the flight, he said today, and expected to take off late today or tomorrow if the second flight is approved.

The plane was undamaged in landing, and neither Eaker nor his co-pilot, Lieut. Bernard Thompson, was injured.

The Shuttle, carrying mail from Oakland, Cal., to New York, was making the fifth contact on the flight when the accident occurred. The flight, in which the United States postoffice department and army officials co-operated, was made to determine the feasibility of long distance flights with mail by the Boeing Aircraft company.

Second Rain Of Month Strikes La Grande Today

The fire department was called to the Mt. Emily Lumber company about 2 o'cock today to extinguish a small fire at the fuel house, returning to the station at 2:15. No damage was done and the blaze was quickly extinguished. A bolt of lightning, striking in that territory, is believed by some to have started the fire.

Rain, which started to fall here about 12:30 today brought smiles of pleasure to most of the La Grande people, who had gone through a two and a half day heat wave, with the thermometer reaching 96 Tuesday and 94 yesterday. The sky at first gave indications of a severe electrical storm and there was considerable thunder but the rain did not become severe in La Grande.

This is the second rain in La Grande during the last two and a half months, the other coming several days ago with a recordede precipitation of only .05 of an inch.

Most of the fall wheat has been harvested although a considerable quantity of spring wheat is still in the fields, with farmers whose harvest is unfinished far from pleased at the moisture.

According to a report received here about 2 o'clock from Cove, the storm had damaged one of the E.O.L. & P. Co. machines there, but light and power service is continuing. A crew of men was immediately organized and sent out to repair the damage.

CORONER WILL INVESTIGATE MOORE'S DEATH

PENDLETON, Ore., Aug. 29 (AP)—A coroner's jury has been named to investigate the shooting of Heisland Moore, Eastern Oregon rancher, by his son, Glenn, near Hermiston Tuesday night, but the time of the inquest has not been established.

The jury will make a thorough study of the case in which the elder Moore was slain, before it reports the findings.

The 14-year-old boy was being held in the county jail today and District Attorney Proebatel said the case would be handled through juvenile court.

Eckener Visits At White House

WASHINGTON, Aug. 29 (AP)—Dr. Hugo Eckener, commander of the Graf Zeppelin, today received in person from President Hoover an expression of the admiration of the American people for his feat in circling the globe.

W. P. McCracken Jr. Slightly Injured

BRIDGETON, N. J., Aug. 29 (AP)—William P. McCracken Jr., assistant secretary of commerce in charge of aeronautics, was slightly hurt late last night when an airplane in which he was flying from Cleveland to welcome the Graf Zeppelin at Lakehurst, was wrecked in a forced landing near here.

The plane, with C. H. Charles at the control, struck telegraph wires, overturned twice and landed upside down. Mr. McCracken suffered only a cut knee and the pilot escaped with a sprained wrist.

LEGGE PROMISES FINANCIAL RELIEF

Grain Farmers to Benefit Immediately, Farm Board Chairman Says.

CHICAGO, Aug. 29, (AP)—Immediate financial relief for grain farmers through loans by the federal farm board on unhedged grain which has already been used as collateral for loans from federal intermediate credit banks was the promise made today at the close of the grain marketing conference by Alexander Legge, chairman of the farm boards.

Legge asserted that the board would loan 10 cents a bushel on such grain to members of farmers' cooperatives.

The meeting adjourned without adopting and definite plans for the proposed national grain marketing corporation.

Sub-Committee Continues

The sub-committee of three, appointed to draft plans for the corporation was ordered to continue its work after tentative plans submitted yesterday had been refused.

The sub-committee members, however, were optimistic and said they believed that they were on the right track towards organization of a corporation which would meet with the approval of both the federal farm board and the cooperatives. Whatever plans they draft will be submitted to George Farrand, general counselor for the farm board, who will pass on their legality under the agricultural marketing act.

Lady Mary Heath Critically Hurt In Plane Crash

CLEVELAND, Aug. 29, (AP)—Lady Mary Heath, famous British aviatrix, was injured critically here today in the crash of an airplane through the roof of a factory.

Rushed to Emergency Clinic hospital, Lady Heath was found to have probably a fractured skull, a long cut in her scalp, other cuts on many parts of her body and probably numerous broken bones and internal injuries, doctors said.

Irwin Kirk, 28, a Cleveland airplane mechanic, who was riding with Lady Heath also was injured but not seriously.

Trapper's Skeleton Found In Forest

GREAT FALLS, Mont., Aug. 29 (AP)—The skeleton of a trapper that had lain undisturbed for years—perhaps for half a century, was uncovered by a forest fire in the Lewis and Clark forest, when the bullets in the dead man's gun exploded from the heat of the flames.

Fire fighting crews found the skeleton of the man who apparently had been killed by an ainal, lying in the spot where he had made his camp.

Beside him was a rifle, with the date 1873 on it, and an old heavy iron skillet, a type long since off the market.

Investigate Death Of Meacham Man

PENDLETON, Ore., Aug. 29.—(AP)—C. A. Sherman, Meacham woodcutter was found dead here today. Sheriff Tom Gurdane and Fred Schmidt, deputy district attorney, are investigating.

Kamela-Hilgard Surfacing Bids Received Today

State Highway Commission Will Let Contract Tonight—14.33 Miles of Road Included.

PORTLAND, Ore., Aug. 29 (AP)—The state highway commission today approved the proposed boundaries of the Nestucca highway improvement district besides handling a great amount of road building business. The Nestucca super road district was formed to build a new road from Beaver to a point near Carlton. Farmers and dairymen petitioned for the district.

Heavy surfacing contracts will be let by the commission tonight, some of the work having been delayed for more than a year. Bids were opened this morning.

Needed a Long Time

The heaviest work is the grading of 14.33 miles of the Kamela-Hilgard section of the Old Oregon Trail in Union county. This grading has been needed a long time, it was said, but was considered too expensive.

Another job is the surfacing of 15.29 miles of the Lakeview-California line section of the Freemont highway. Seven bids were submitted for this work and five for the Union county job.

The state commission said efforts have long been made for the surfacing of the Dairy-Bly Mountain-Bonanza section of the Klamath-Lakeview highway, 21.1 miles of which is in Klamath county. Five contractors sought the job at the meeting today.

The state will hurry the improvements at Burns to assist in the industrial development there. A 2.78 mile stretch between the new Haines mill and the city on the Central Oregon highway will be widened and resurfaced this fall.

Other East Oregon Jobs

A contract to grade 7.18 miles of Mountain Rest-Little Beach Creek section of the Pendleton-John Day highway in Grant county is also a major project as is surfacing of 12 miles of Roosevelt highway south of Bandon in Coos county. There will be 2.19 miles of regrading of Big Noise-Gnat Creek on the lower Columbia River highway in Clatsop county.

Two bridges near Svenson will be constructed this fall, the commission decided.

Robert E. Duncan, Burns, Ore., attorney, headed a committee from that section urging location of the Burns-Juntura section of the Central Oregon highway down the Malheur river. It was claimed that this in the only route between the two towns open in the winter.

10 Arrested In Los Angeles For "Indecent" Acting

LOS ANGELES, Aug. 29 (AP)—Ten persons connected with the presentation of "bad babies" at a local theater here, were out on bail today, following their arrest at the final curtain last night. They were charged with staging an "indecent and lewd exhibition."

Unsuspecting patrons of the show, who witnessed the rush of detectives from the audience to the stage, applauded the action, believing it to be a clever finale.

Eight players, the stage manager and author, were taken in the patrol wagon to the police station where they gained release on $500 bail each.

Those taken into custody were Miss Johnya Ralston, Arthur Rankin, Marvin Williams, Marjorie Montgomery, Norman Peck, Elinor Flynn, Annette Westbay, Dario Shindell, all performers; Frank Jennings, stage manager, and George Scarborough, author.

Lloyd Nis, city prosecutor who ordered the arrests, said that he had received many complaints against the show which was billed as a "comedy drama of modern life." The play was built around the intrigues of a group of high school boys and girls, and the complications which resulted when a society women fell in love with one of the boys.

The show will be suspended pending the outcome of a hearing today.

This Fire Chief Makes His Blazes

BEND, Ore., Aug. 29, (AP)—Between fires, L. J. Carlon, fire chief manages to slip in a shave.

The fire siren sounded yesterday while Chief Carlon was in a barber's chair. With one half of his face shaved and the other half covered with creamy lather, the chief bounded from the chair and went to the fire.

But it was a false alarm and the chief returned for the rest of his shave.

Children's Picnic Planned By Army

A picnic will be given tomorrow by the Salvation Army of La Grande for the children of the needy families of this city. They will assemble at the hall tomorrow morning at 9:30 where they will leave to go to Pine Cone to spend the day.

There will be games all day and swimming in the afternoon. This is an annual army picnic. A large crowd is expected.

GRAF LOWERS FLYING TIME 'ROUND WORLD

Zeppelin Breaks all Records for Circumnavigation of the Globe.

ENDS JOURNEY AT LAKEHURST TODAY

Elapsed Time Given at 21 Days, 7 Hours and 33 Minutes — Flying Time Twelve Days.

By W. W. Chaplin
(Associated Press Staff Writer)

NAVAL AIR STATION, Lakehurst, N. J., Aug. 29, (AP)—Looping the loop around the world in one of the greatest exploits of flying history, the German dirigible Graf Zeppelin settled to earth at 7:13 o'clock, E.S.T., this morning just 21 days, seven hours and 33 minutes after leaving on her 20,000 mile journey.

Actual flying time, deducting the time spent on the ground at Friedrichschafen, Tokyo and Los Angeles, the only three stops that were made, was 11 days, 23 hours and 14 minutes, both flying and elapsed time breaking all previous records.

The last leg of the flight from Los Angeles, was completed in 51 hours and 59 minutes.

The previous record for elapsed time around the world was made last year by John Henry Mears and C. B. D. Collyer, who used planes over land and ships across the Atlantic and Pacific. Their time was 23 days, 15 hours and 21 minutes.

The only previous flight around the world in any sort of air craft was made in 1924 by the United States army fliers. They took 175 days to get around, of which 15 days and six hours was spent actually in the air.

The weather was perfect as the Graf reached the end of the first flight around the world of a lighter-than-air ship. A warm morning sun shone on the great bag's silvery sides as it floated in from the north after a visit to Manhattan. Lazily it circled over the field, a crowd of some 5,000 persons racing along the ground to be close at the landing, and pointed its nose downward.

The ship overshot the landing crew of 450 sailors and marines and they had to scamper arcoss the field after the dragging ropes which were lowered to the ground at 7:07. Once they had hold of them the operation of lowering the dirigible to the ground was performed with expert precision.

As the Graf was being hauled down Commander Hugo Eckener, its veteran commander, waved from a cabin window and Lieutenant Commander Charles E. Rosendahl, U. S. N., who made the entire world trip, leaned out beside him to wave a gray scarf to the crowd below.

The crowd was handled without any trouble by well drilled sailors and marines and the whole scene was one of complete lack of excitement. Several dogs romped about the field as the ship was

TODAY'S BASEBALL

AMERICAN LEAGUE

NEW YORK, Aug. 29 (AP)—Babe Ruth's 37th home run of the season delivered at the expense of Fred Marberry in the eighth inning with two on base enabled the Yankees to nose out the Senators by 5 to 4 in the first game of a doubleheader here today. Herb Pennock was the winning pitcher.

Score:

First Game:	R.	H.	E.
Washington	4	9	1
New York	5	9	1

Batteries: Marberry and Spencer; Pennock, Zachary and Dickey.

Second Game:	R.	H.	E.
Washington	8	11	2
New York	4	8	3

Batteries: Hadley and Ruel; Nekola, Moore and Dickey.

	R.	H.	E.
Boston	6	10	3
Philadelphia	7	10	1

Batteries: Morris and Heving; Shores, Quinn, Walberg and Cochrane.

	R.	H.	E.
Cleveland	1	5	2
Chicago	2	4	0

Batteries: Hudlin and L. Sewell; Lyons and Berg.

NATIONAL LEAGUE

	R.	H.	E.
Chicago	4	10	1
Pittsburg	5	8	2

Batteries: Carlson and Taylor; Petty and Hemsley.

	R.	H.	E.
Philadelphia	5	12	4
Boston	5	12	4
Boston	4	9	3

Batteries: Benge and Lerian; Jones and Spohrer, Davis. (10 innings).

	R.	H.	E.
New York	6	10	0
Brooklyn	2	4	2

Batteries: Walker and O'Farrell; Moss, Dudley, A. Moore and Deberry.
