Anne Stange In
Tennis Finals
In Boise Today

Advancing through several rounds to the finals, Miss Anne Stange, of La Grande, and Worth Oswald, of Spokane, were slated to play for the mixed doubles title of Idaho at 10 o'clock this morning in the final play of the annual state tennis tournament at Boise.

Oswald has already won the state singles title here and has in his permanent possession the beautiful trophy that has been offered to a three-year winner by the Boise tournament officials since 1915.

Results of the Eastern Oregonian's and Washingtonian's play at Boise was learned by a phone call from Miss Stange yesterday afternoon.

She advanced to the second round in women's singles and then lost to an Idaho player, 3-6, 12-14, 6-4. Miss Stange was coupled with Miss Jeanette Dell, of Pendleton, in the women's singles, losing in the first round.

The La Grande girl and Oswald are playing Mel Galloway, of Salt Lake City, former Utah university men's star, and Ruth Crow, Salt Lake City, women's champion of the state, for the title. Oswald was from Clatskanie in a tough match, 6-3, 4-6, 6-3, 5-7.

Jack Ahearn and Oswald lost in men's doubles competition.

Wood for Navy Targets

To serve as floating targets for the big guns of the navy, thousands of heavy timbers from the Northwest forest were shipped to the Norfolk navy yard.

GREEN WHEAT

Have you seen the latest creation in dressmaking? You will see it when the new Green Wheat pattern of ivory parrot is being shown at Richardson's Art and Gift Shop. It has a lot of artistic decoration, entirely different from anything ever shown, and in lines with platinum instead of gold and platinum linings. It is just what you have been looking for in the new world. See it.

THE PRICE OF GREEN WHEAT
Is most reasonable. It is an overstock pattern which you can buy what you wish at a time and place it is in your wish. See it in the window at Richardson's Art and Gift Shop.

HEALTH WATCHMAN
FOR YOUR HOME
This health watchman is a device that monitors the health of your family and alerts you when there is a problem.

During this hot weather, particularly, it is most important to keep all perishable foods safely cold. When the temperature in your refrigerator rises even a degree or two above 50, bacteria multiply with alarming speed.

The General Electric gives you perfect refrigeration—quiet, worry-free and economical. It has a simple device for freezing regulation, its mechanism, which never needs oiling, is safely enclosed in a hermetically sealed steel casing.

The cabinet of the General Electric is the first and only one built entirely of steel—as strong and warp-proof as a safe. No other refrigerator has such simple mechanism and so sturdy a cabinet. See it for yourself. And ask about the convenient spread payments on which all the models are sold.

Let Us Demonstrate These Fourteen Superiorities
... a horizontally sealed, dust-proof mechanism.
... a sanitary, porcelain chilling chamber.
... the entire mechanism mounted on top.
... maximum food storage space in the cabinet.
... an appreciably lower cost of operation.
... an all-steel, warp-proof cabinet.
... absolutely no radio interference.
... an unequalled two-year guarantee.
