lor, high commissioner, in which responsibility for the bloodshed was placed upon agitation fostered by Amin El Hussini, grand mufi of Jerusalem and president of the Moslem council, and on certain members of the Palestine government.
The memorandum accused the government of inefficiency in handling the riots when they first started, not only in Jerusalem, but also in Hebron, Rehon, Tal Aviv, Haifa, Safed, and other Jewish centers. The government was accused also of having "harassed and pursued those Jews who were defending themselves, taking from them their arms, arresting them and handing them over to courts as if they were criminals."
Ten demands were put forward, including guarantees of protection for Jews in all parts of Palestine, release of Jews arrested for carrying arms, a commission of independent inquiry of the disorders and "arrest and trial of all guilty, beginning with the attackers and ending with government officials who were unfaithful to their duty."

WEAK BACKS
Just as a chain can be no stronger than its weakest link, your back can be no stronger than its weakest muscle. And that muscle can be strong, only as the nerves which control it and furnish it with energy are free to deliver vitality.
The cause of a weak or aching back is to be found at the spinal column in the form of a slight deviation from normal alignment of one or more of the spinal bones. Chiropractic spinal adjustments restore these bones to their proper position.
If you are suffering in any way with your back my chiropractic and electrical treatments will restore you to normal.
