## WHEAT CROPS IN OREGON TURNING OUT MUCH BETTER

(Continued from Page One)

estimate of total apple production in Oregon is 5,825,000 bushels compared to 6,950,000 bushels last year and the average of 6,451,000 bushels. Pear production is estimated at 2,192,000 bushels, an increase of 102,000 bushels over the August estimate. The production last year was 2,790,000 bushels and the five year average is 1,661,000 bushels. Peach production is estimated at 208,000 bushels compared to 252,000 bushels a year ago and the average of 291,000 bushels. Grape production is now placed at 1,255 tons, compared to 2,825 tons a year ago and an average of 1,995 tons.

The unfavorable prospects for orange and roughage feed crops shown in the August feed report are emphasized by the recent indications. All tame hay production in Oregon will be about 1,767,000 tons, compared to 2,641,000 tons a year ago and the average of 1,862,000 tons. Alfalfa is below average but clover and timothy is considerably above average though below a year ago. Partially offsetting this is the large supply of lucifer and oats.

Oregon hay production is estimated at 18,359,000 pounds compared to 17,009,000 a year ago and the average of 14,109,000 pounds. The spring wheat crop in both Washington and Idaho is turning out better than earlier estimates indicated but considerably below average in each case. Washington spring wheat production is estimated at 14,768,000 bushels compared to 12,044,000 bushels last year and the average of 10,617,000 bushels. In Idaho the present estimate is 14,556,000 bushels compared to 13,304,000 bushels a year ago and an average of 15,227,000 bushels.

The total of 15,227,000 bushels of wheat is about a year ago. Partially offsetting this is the large supply of lucifer and oats.

### WALL STREET CLOSING TONE STRONG TODAY

NEW YORK, Sept. 12 (AP)—The stock market was subjected today to another bombardment of selling which carried most of the active issues to new low prices on the movement. The break which ran from 2 to 15 points in scores of issues, was checked around midday by the lowering of the call money rate from 3 to 7 per cent and a revival of pool activity in a selected group of public utility, railroad equipment and independent steel shares.

Heavy buying of May department stores, which raised it 22 points to 192 1/2, started heavy accumulation of the other merchandise issues in the late hour. Bank department status rose 6 1/2 points, R. H. Macy 6; Gimbel Bros. 7 1/2; and Safeway store 5. In the public utilities, American and Foreign power was strong, touching a record figure of 177 1/2. The closing tone was strong. Sales approximately 5,000,000 shares.

### Wheat Unsettled, Slightly Lower

CHICAGO, Sept. 12 (AP)—Showery weather in Argentina tending to afford relief from drought havoc in the Argentine wheat belt led to slightly lower prices today for wheat. Fair buying support for the wheat market developed on price breaks and domestic bills were said to be purchasing, but plunges touched about 1 1/2 cents. Further rains were looked for tomorrow in parts of Argentina.

Wheat closed unsettled at the same as yesterday's finish to 3/4 lower. Corn closed 1/2 cent to 3/4 out, 1/2 to 3/4 down, and provisions varying from 7/8 cent to a rise of 2c.

### WOOL REPORT

BOSTON, Sept. 12 (AP)—The Commercial Bulletin tomorrow says: "The wool market continued moderately active, although hardly so brisk as in weeks recently past. Prices are generally well maintained in the worsted wools, with quarter bloods slightly stronger. Woolen wools and noils are barely steady."

The Australian section is under way, with at Sydney and Adelaide having revealed a price basis substantially on the level of Bradford and the Continent. America is buying nothing. London is offering 160,000 bales commencing Tuesday, next.

Manufacturing position healthy, though spinners report little new business. Trade awaiting further goods openings. Expect big business during next few weeks.

Mohair dull, heavily changed. The Commercial Bulletin will publish the following wool quotations tomorrow:

Reared hinds Oregon; fine and E. m. staple 70-92; fine and E. m. E. combing 85-99; fine and E. m. clothing 85-87; valley, No. 88-99. Mohair; good original bag Texas spring 57-58; Texas kid 68-72; good original bag Arizona and New Mexico 52-53; original bag average 12 month Oregon 54-56.

Advice to Speakers: Even if you are a little unprepared, don't admit it. Better still be prepared.—Woman's Home Companion.

Charity of Thought: You know that a little thought and a little kindness are often worth more than a great deal of money. This charity of thought is not merely to be exercised toward the poor; it is to be exercised to ward all men.—John Ruskin.

In Explanation: The reason there is plenty of room at the top is because so many who get there fall off.—Grand Rapids Press.

Foolish Wasting: You can commit no greater folly than to sit by the roadside until some one comes along and invites you to ride with him to wealth and influence.—J. R. Gough.

WE BUY FOR LESS WE SELL FOR LESS

Read these items over Thursday's ad. Listed below are a few more items at value at money saving prices.

New York Store

See the window of usual and attractive articles for the boy and girl going away to school. The new 75c box line will appeal to the college girl. Will save her much time and many worries during her school year. See them at Richardson's Art and Gift Shop. 9:30-6:00.

Home-stitching, knitting, button holes, etc. Norton's Place Shop. —Adv.

Sidney Lyle, the piano tuner, will be at La Grande hotel week of Sept. 14th. 7-27.1 up

## TARIFF RATE CONFERENCE IS PROPOSED

(Continued from Page 1)

The republican bill, replete with controversial issues, such as the tariff commission, flexible protection, and a changed valuation base for ad valorem duties, were the official subject of debate.

The measure as drawn up by the finance committee majority was roundly criticized yesterday by Senator Simmons, republican, North Carolina, ranking minority member of the committee in a lengthy address, which drew a reply from Chairman Snoot of the finance committee.

Simmons denounced the bill as inconsistent and "dangerously" expanding the power of the president to revise schedules. He asserted that it contains many needless increases in rates on agricultural commodities, is filled with exorbitant rates for articles that the farmer must purchase and does not conform with President Hoover's request for industrial increases only in the instance of industries that have suffered through imports in recent years.

To an assertion that consumers costs would be increased by billions of dollars through passage of the proposed measure, Senator Snoot took vigorous exception. In addition, the committee chairman characterized Simmons' objection to the bill as old stuff.

## WITNESSES SAY MRS. PANTAGES WAS NOT DRUNK

(Continued from Page 1)

In testimony by a big looking car State testimony consistently had been that no cars except those of Mrs. Pantages and Robinson were near the scene of the accident. Costello testified that Mrs. Pantages was "just out cold" after the accident, and that he saw no signs of intoxication.

Mrs. Glad Taylor, a nurse in a Holywood hospital to which Mrs. Pantages was taken and where she was confined by injuries for several weeks, and Dr. C. A. MacDonnell, who treated her, testified that he had found no evidence of intoxication. The physician said she had suffered a slight concussion of the brain. He said that he believed it impossible to determine definitely between intoxication and concussion in the case of a head injury such as that received by Mrs. Pantages.

## LOS ANGELES GRAND JURY ACCUSES 13

(Continued from Page 1)

The vice squad in the alleged bribery conspiracy.

All Are Veterans: All of the indicted and arrested officers have been members of the police force for periods ranging from four to eighteen years. Evans is the oldest man in the department of 1911. All expressed surprise when informed of the indictments against them, and served notice, they would fight the charges.

Several anonymous telephone threats last night caused District Attorney Fitch to arrange body guards for all grand jury witnesses. Special guards previously had been placed over Westman in his county jail cell, and over his home in Whittier, a suburb. Police and deputy sheriffs failed to trace a car reported twice seen in the downtown district, containing three men armed with machine guns, which caused an unusual mustering of guards yesterday.

## EAST OREGON GRID TEAMS PREPARING

(Continued from Page 1)

Large to See Buildings: After a Glendene regime of several years, local fans are particularly eager to see the Bulldogs trot their new stuff across the gridiron. Incidentally, La Grande goes to Baker for the annual tussle with the copper-jacketed eleven.

Up at Wallowa, which year after year turns out a team that causes La Grande and other opponents weary and occasional defeat, another new coach is establishing his system. It is reported.

Enterprise and Union are expected to have fair teams under veteran coaches, but neither is believed likely to upset the leaders unless unexpected additions are made to the lineups.

In La Grande, Coach Len Woodie is still drilling the team largely on fundamentals, with a period of brick practice each afternoon. Woodie believes in the hard-boiled driving type, but he has complete control of his squad at all times and there are no drill moments in practice. Local men, who have watched the Tigers working out under Woodie, are predicting a new football era for La Grande, and some are hopeful of seeing the blue and white colors at the top of the gridiron mast for the first time in six years.

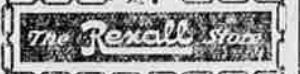

First Game at Wallowa: First games of the season will be played late this month and early in October, the Tigers' initial test coming at Wallowa on Oct. 12.

Incidentally, all of the games scheduled in La Grande this year will begin promptly at 7 o'clock in the afternoon, so that there will be no chance of semi-darkness coming over the field before the game is ended.

## Sets Time for World "Greenwich Time" named through movement of a certain star which arrives due south every twenty-four hours.

Treatment for Braggart: There is this benefit in brag, that the speaker is unconsciously expressing his own ideal. Honor him by all means, draw it out, and hold him to it.—Emerson.

## SAVE WITH SAFETY

## Don't Let Tooth Decay Get a Start

Once decay gets started in your teeth only a dentist can stop it. You can prevent tooth decay by using REXALL MILK OF MAGNESIA TOOTH PASTE.

Two sizes 25c and 49c

The scientific ingredients of this popular tooth paste counteract the causes of tooth decay, soothe the teeth while brushing, and whitening. Sold only at—

# Gum-Dipping Shatters ALL Endurance RECORDS

When we say "Gum-Dipping," it's just the same as saying

# Firestone

## Safety On All Roads

BENEATH the rugged, safety tread of toughest rubber, Firestone provides the strongest, most durable cord construction ever known. Cords are scientifically twisted for greater strength and elasticity, then dipped in liquid rubber which insulates every fiber against internal heat and friction, doubles flexing life, and adds thousands of extra miles of safe travel at no additional cost.

Firestone Tires ALONE are Gum-Dipped. The effectiveness of this extra process is clearly reflected in the fact that Firestone Gum-Dipped Tires hold all world records for safety, endurance and mileage. Let us put a set of these wonderful tires on your car.
