THOUSANDS KILLED IN SIX MONTHS

California Highways Claim Heavy Toll During First Half of 1929.

SACRAMENTO, Cal., Sept. 21—(AP)—Deaths claimed 1,619 and 15,425 were injured on California highways during the first six months of 1929, Eugene W. Hecall, superintendent of the California highway patrol, announced here with the comment that 50 per cent of the 12,852 reported accidents could have been avoided.

Hecall placed the blame on the drivers themselves, especially in the crowded city districts where the highest rate of all fatalities, pedestrian accidents, occurred, 256 meeting death in this manner. Of the injured 2,581 were pedestrians.

The death rate among pedestrians was heavier among persons over 55 years of age and between the ages of five and fourteen.

Hecall stated that the automobile is usually the cause of the relatively small number of accidents in which faulty mechanism could be blamed.

Miss Ruth Brown, a teacher in the La Grande schools, and her mother, Mrs. Brown, were week-end guests of Mrs. Nellie Martin and her daughter, Miss Lola Martin. Miss Martin is a teacher at Hilgard and came home for the week-end.

Flying Fawn

NEA Los Angeles Bureau This five-month-old Mexican fawn has 50 hours of flying to his credit—and he's going on to bigger things.

As mascot of the Aero Cooperation of California at Los Angeles, the fawn captured the attention of the Aero Club of California. Special permission had to be given by both Mexican and American governments before the fawn was allowed to cross the border.

The prize growers belonging to the association of Fory have decided to try their prizes this fall. The crop is not a heavy one due to the drought and storm and the price of fresh produce is so uncertain that they have decided to dry them. The large drive belonging to T. H. The Rev. W. W. Cressy will hold morning services at the Association Episcopal church Sunday morning, Sept. 22, at 10 o'clock. Sunday school will convene at 10 o'clock. The Sunday school has been having a vacation since June, but will resume their activity at that time.

LINDBERGH FLYING SOUTH By T. R. Gill (Associated Press Staff Writer) ALBANY, N. Y., Sept. 21—(AP)—LINDBERGH'S PLANE, en route to South America (By Pan American Radio to Miami), Sept. 21—(AP)—Colonial liner Lindbergh left Port au Prince, Haiti, at 10:30 a. m. today for South America, capital city of the Dominican republic, the 10th ship on the 7,000-mile journey.

We left Santiago de Cuba at 5:55 a. m. covering the 275 miles in 2 hours and 24 minutes.

Mrs. Lindbergh is dressed in a blue silk traveling dress. She wore a light blue dress and she had a map of the route as the ship sailed along. She has little in any except that she is taking a "wonderful time" and Lindbergh requested she not be interviewed. We saw several headlines over the wire but they gave us no trouble.

Fresh extras to retailers went to 44 and to wholesalers 42 cents. Pullet eggs were dropped to 24 cents. Other grade prices remained unchanged. The price of butter was unchanged.

The Portland News Service bureau of the United States department of agriculture issued the following bulletin on the fruit and vegetable markets:

Demand continued good for fancy peaches, and shows a sharp increase for oranges. The market is barely steady for grapefruit apples, probably in anticipation of early arrivals of peaches, which are somewhat cheaper.

Track supplies of Yakima potatoes seem larger than the Portland trade can accommodate, and weaker undertones is noted today.

Onions from both Yakima and Selma are a trifle cheaper. California grapes continue to move in lighter volume than usual at this time of year, and track supplies are increasing.
