A GREAT INCITATION—Come and see, all ye that labour and are heavy laden, and I will give you rest. Take my yoke upon you, and learn of me; for I am meek and lowly in heart; and ye shall find rest unto your souls. For my yoke is easy, and my burden is light.—Matthew 11:28, 29, 30.

OREGON SECOND IN MONEY SPLIT

State Gets \$265,025.97 from Government National Forest Receipts

PORTLAND, Ore., (Special)—Oregon stands second and Washington third in the division of more than \$1,600,000 due 30 states from the federal government as their share of receipts of national forests for the fiscal year ending June 30, 1925, according to the United States forest service here. This sum represents more than 25 per cent of the gross receipts of the national forests for the year, and the great bulk of it comes to western states, in which the principal areas of national forests and other public lands lie. California leads in total received, Oregon second, Washington third, and Idaho fourth.

The state shares of national forest receipts represent a federal payment in lieu of taxes which the states would receive if the national forests were in private ownership, and under the federal statute providing for the apportionment the money must be used by the states for schools and roads.

Not Generally Known
That the federal government allows the states such a generous portion of national forest receipts is not generally known by the public, says District Forester C. M. Granger. "Moreover, the states do not have to bear a penny of the burden of national forest protection, administration, and development. In the fiscal year ending June 30, 1925, the federal government spent more than \$20,000,000 on all national forests, including \$10,420,322.25 for roads and trails, and more than \$2,000,000 for purchase of additional forest land. The great bulk of this expenditure went for development activities such as protection against fire, roads, trails, planting, etc., which will ultimately greatly increase the productivity of the forests and consequently increase their revenues.

Most of the receipts come from timber sales and grazing. No effort is now being made to push national forest timber sales because of chronic overproduction in the lumber business. Ultimately, however, when overproduction is cured, either by some form of control or by the great inroads made on private timber, there will be heavier demands for national forest timber and consequently greater national forest revenues and larger sums to the states.

These national forest revenues are perpetual. National forest timber will never decrease in amount; it is a permanent asset handed by "sustained yield," so that when an area is cut over it will grow up again to timber. Thus, cutting and regrowth go in an endless cycle.

These industries are perpetual and a permanent asset to the community. Contrast this with forest lands that have been completely denuded and left unproductive, a burden on the community. Many such lands, in course of time, revert to the states for delinquent taxes. All in all, both in direct revenue and in permanent industrial development and watershed protection, the national forests are contributing very largely to the western states.

List of States

Following is a list of the 11 public land states and Alaska, which have national forests within their borders, and the shares of the receipts from those forests for the fiscal year 1925 which they have just received:

Alaska	\$ 26,628.88
Arizona	122,945.37
California	315,606.10
Colorado	124,715.29
Idaho	152,928.12
Montana	82,968.59
Nevada	25,120.77
New Mexico	35,718.97
Oregon	265,025.97
Texas	51,287.95
Washington	167,779.28
Wyoming	74,459.40

Health Talks

NEW KIND OF "CLEAN UP" DOCTOR ADVISES EARLY PROTECTIVE MEASURES

New York City has employed some of its street cleaning equipment in a new form of clean up campaign, the elimination of diphtheria, not with shovels and brooms and white wings, but with white coats and aprons, riding in big trucks, the trucks have been thoroughly scrubbed and fitted with refrigerators and other equipment necessary to give toxin-antitoxin, for the prevention of diphtheria, to every child who will take it.

It is scarcely ten years since this new preventive for diphtheria was first prepared, yet it has made remarkable inroads on the disease already. When the state health department of New Mexico first began to function, in 1919, diphtheria was prevalent throughout the state the year around. About 1921, physicians began giving toxin-antitoxin extensively, and the disease was reduced by 77 per cent in the next five years. It has since been assumed such proportions have been achieved here.

health officer should be called upon for the treatment, before a child enters school. "Better be safe than sorry" is perfectly exemplified in this simple protective measure.

BEFORE THE MIX

WEDNESDAY PROGRAMS

The National Broadcasting company program for Wednesday night follows: 6:30, soloists and orchestra; 7:30, concert orchestra; 8:30, Roads to Romance; 9:30, Hill Billy boys; 9:50, silent; 10, minstrel; 11 to 12, Musical Musketiers.

KJR (970kc) 7, recordings and musical programs.

GALLSTONES CAUSE TROUBLE

Don't use home treatments

For pains in your back or side, or if you think you have stomach or liver trouble, try FRUITOLA. One dose shows results. For over twenty years FRUITOLA has been used by many sufferers who have thereby been saved from the pain and risk of an operation. The FRUITOLA formula is the same today as always and often brings relief after the first dose. Many people state they gave up hope of ever being relieved, but one dose of FRUITOLA convinced them that they need no longer suffer pain from gallstones. Give FRUITOLA a chance. You can have the same experience. For sale, recommended and guaranteed by Moon Drug Co., and other leading druggists.—Adv.

TAILORED AT FASHION PARK

THE MAN WHO IS GOING UP AND THE MAN WHO HAS ARRIVED BOTH CHOOSE A

Fashion Park Suit \$50

Clothes don't make the man. No... But they do help. Because you feel better — yes, and work better, too — when you are well dressed. The man who is striving to reach the top—and the man who has already arrived both select Fashion Park Suits for this reason.

The style illustrated has peaked lapels and a two-button coat. It is tailored to give a broad shouldered effect, and is fitted just a trifle at the waist. Regular vest and trousers.

This is a model that is justly popular with men of all ages. A suit that is RIGHT for almost any occasion.

Other Suits \$35 to \$45

Smart Autumn Patterns of the Moment in Eagle Tailored Shirts

The small checks and dotted effects that are smartest this Fall — patterns that are effective, and in the best of taste. Broadcloths, Percales, Soisettes, tailored with the famous Eagle "Neckcurve" collar. Gapless full length center plait. Flat locked stitching. Any color you want.

\$2.50

Other Shirts \$3 to \$5.

The Florsheim Shoe for the Man Who Cares

\$10

Most Styles

Ask a Florsheim wearer what he considers the best thing about Florsheim Shoes, and he'll answer either "more comfort" — "longer mileage" or "style that's in step with the times." The truth is that Florsheims give you all these things. That's why men take a life-time habit of wearing them.

EAT FIVE KINDS OF FOODS

Why Noted Scientist Places Sugar and Sugary Foods in the Daily Diet

A noted scientist reminds us that the many tasteful foods in which his country abounds may be classified into: (1) Vegetables and fruits. (2) Protein foods as meat, milk and eggs. (3) Cereals. (4) Sugar and sugary foods. (5) Fats and fat foods. He reminds us that these five groups may serve as a guide in the selection of foods and the planning of meals. He points out that sugar and sugary foods have been charged from time to time with a variety of supposedly undesirable functions. Usually, on mere hearsay evidence, it has been said that sugar is fattening, or sugar harms the teeth, or sugar clogs the appetite.

As a matter of fact, however, he goes on to say, every physiologist knows that the essential principles in our food are, for the most part, devoid of taste. Sugars alone, of the carbohydrates, have a sweet and agreeable taste. With this exception, our essential foodstuffs, when pure, would soon pall on the palate. In order that everyone may enjoy proper foods, use a dash of sugar in the cooking of vegetables to develop their freshness and flavor. Use a sprinkling of sugar to make grapefruit and other tart, fresh fruits delicious. Use sugar to enable everyone to enjoy the needed cereals. Use sugar in the making of delicious fruit and milk desserts. Most foods are more delicious and nourishing with sugar. The Sugar Institute.

GRANTS EXTRADITION

SALEM, Ore., Oct. 2 (AP)—Governor Patterson, at a hearing yesterday, granted the extradition of G. E. Tussell of Gladstone, Ore., who is wanted in Los Angeles on a charge of grand theft. The governor, however, at his own suggestion, gave Tussell's attorney time in which to bring before the court proceedings.

INVESTIGATE OLD GRAVE

BEND, Ore., Oct. 2 (AP)—Officials from 7000 and Deschutes counties left today for an isolated section in the mountains near here to investigate a broken rifle and a mound of earth, apparently a shallow grave, which may contain evidence of an early day murder.

GASOLINE CAUSES DEATH

MEDFORD, Ore., Oct. 2 (AP)—Burns received from fire and clothing with gasoline caused the death here yesterday of W. L. Thompson, golf club employe for small cabin where he resided. He had been in the cabin for two months. Thompson is survived by two sons.
