Miss Knotts And John Larison Wed In El Paso, Texas

A few days ago in El Paso, Texas, the nuptial services were solemnized for Miss Emily Knotts, daughter of Mr. and Mrs. E. F. Knotts of El Paso, and John Spencer Larison, son of Mr. and Mrs. G. L. Larison of La Grande, at 8 o'clock in the morning of September 28, in the St. Patrick's cathedral, the Rev. Father Robert O'Loughran officiating.

In an impressive ceremony in the church decorated with palms and pink roses, the bride was given in marriage by her father. The bride's wedding gown was of egg-shell satin, with trimmings of lace. Orange blossoms tumbled the lace veil. She wore slippers of matching shade. The maid of honor, Miss Ruth Youngberg, was attractively dressed in a frock of pink moire, with matching slippers and a picture hat of blue. Donald Duncan attended the bridegroom.

The bride's maids' costumes were also of moire. Miss Anita Knotts, the bride's sister, wore a peach frock and Miss Hope Tustanos was dressed in lavender. The bride's mother wore a black velvet with matching accessories.

Following the wedding a reception was held in the home of the bride's parents. Tall baskets of pink roses graced the reception rooms. The wedding cake was of four white tiers.

Women Are Free!

AN ANCIENT PREJUDICE HAS BEEN REMOVED

Legally, politically and socially woman has been emancipated from those chains which bound her. AMERICAN INTELLIGENCE has exploded the ridiculous theory that forced the stigma of inferiority upon a sex.

"toasting did it" —

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful, corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

"It's toasted"

No Throat Irritation—No Cough.

TUNE IN—The Lucky Strike Dance Orchestra, every Saturday night, over a coast-to-coast network of the N. B. C.

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.
