# MORE THAN 500 TEACHERS MEET HERE

## INSTITUTE IS UNDER WAY IN EAST NORMAL

Opening Exercises and Addresses are Heard This Morning.

BANQUET WILL BE FEATURE TONIGHT

Noted Educators Partipating in Meeting, Which Will Close Tomorrow Afternoon.

The walls of the Eastern Oregon Normal school auditorium heard new voices this morning in the opening session of the joint annual teachers' institute of Baker, Wallowa and Union counties which started at 9 o'clock with musical services under the direction of W. W. Nusbaum. More than 500 teachers are in attendance at the meeting.

The opening address was by Dr. H. D. Sheldon on the subject "The Psychological Basis of Civics."

The principal theme was the necessity of getting the children interested in social life of the community before they begin to study civics.

**Suggests Methods**

Several preparatory methods were suggested. One of the points was the value of community civics, which could be [illegible] in the children by sending them to find what the public officials in the community were doing.

Another important item discussed was that of current events, the bringing of newspaper clippings each day on certain subjects and placing them on the blackboard. A third method is having a social organization within the school, giving some idea of how the government functions by having a governor and legislature for two or three weeks, organized within the school.

There is a necessity of interesting them in the national life through patriotic songs, poems, and literature, the speaker said. If a child learns national patriotism, it is but a step to internationalism.

After an interest has been created the more complicated facts in formal civics can be given, but it should not come until after the interest in the governmental activities and current events has been fairly well developed in order that the child may fully understand the subject.

The welcoming address this morning was given by H. E. Inlow, president of the Normal school. Invocation was by the Rev. J. George Walz, of the Presbyterian church.

Most of today's sessions are being devoted to the business of the institute—attendance as class room demonstrations, lectures, etc.

**Banquet Tonight**

This evening at 6:30 o'clock 200 of the teachers will gather at a banquet to be held in the La Grande hotel ballroom, with Dr. C. E. Moore, of Cornell university, scheduled to deliver the main address. An interesting musical and speaking program has been arranged, with the talks to be comparatively brief.

Reservations for the banquet had to be limited to 200 because of lack of room, and tickets were sold to the first applicants.

The institute today, held under state rules and with attendance compulsory on the part of the

## Chamber Music Concert Given Here Last Night

Portland String Quartet Presents Program—Surplus of $80 for Camp Fire Girls.

Appearing before a responsive audience in the La Grande hotel ball room, the Portland Chamber Music society string quartet presented an interesting concert program here last night. The concert was given here under the management of Mrs. Alfred L. Richardson.

In connection with the concert, it was announced that a surplus of $80.75, realized from the sale of tickets after paying the expenses, will be presented to the Camp Fire Girls of La Grande.

The program last night was given with such perfection of tonal balance and delicacy of expression as to fairly grip the large audience. The dominant quality of this quartet is the exquisite singing tone drawn from their instruments and the delightful ensemble effects.

A familiar Irish melody with a new introduction by Frank Bridge, a modern English composer, was enthusiastically received by the La Grande music lovers present. It was written in rhapsody form, featuring a pianissimo movement that sensed of foggy London atmosphere.

Glazounow's Valse from "Five Novelettes," each written for a different nationality, this being the French one, was also pleasing to the audience, and was given with an artistic finish, as was the Lento movement of Dvorak's quartet written while he was in America [illegible] negro melodies of the

(Continued on Page Eight)

## A. Malcolm To Serve One Year In Penitentiary

Arch Malcolm, arraigned on an information by the district attorney, pleaded guilty late yesterday in circuit court to a statutory charge and was sentenced to a maximum term of one year in the state penitentiary by Judge J. W. Knowles.

The circuit court today is still trying the civil case of Zaugg vs. the O.-W. railroad. The case was in the final argument this afternoon and was expected to reach the jury soon.

The case of the state vs. Jack Rush, on a charge of receiving stolen property, will be the next to go on trial.

## *Doctor Receives High Exam Rating*

Word has been received in La Grande that in a recent examination for specialists from various parts of the United States, held in Portland, Dr. F. L. Ralston, of La Grande, received the highest grade.

The examination is an annual one, given by the American Board of Otolaryngology, in the city in which the American Medical association stages its convention. Next year it will be in Detroit.

## *Fourth Case Of Diphtheria Here*

A fourth case of diphtheria was quarantined in La Grande yesterday by the police. Kenneth Rizor, the five and a half year old son of Mr. and Mrs. Rizor, of 1405½ Y avenue, has the disease. The little lad was not attending school, as he was too young to enter this fall.

Reports from the other three cases of diphtheria here indicate fair progress in combatting the disease.

## *Recess Fall Trial Until Tomorrow*

WASHINGTON, Oct. 10 (AP)—Justice William Hitz today recessed the bribery trial of Albert B. Fall until tomorrow after a physician appointed by the court had reported his examination of Fall was not completed but that the former interior secretary was unable to get up and probably could not stand trial at this time.

## *VOTE ON FARM BOARD IS PUT OFF FOR DAY*

WASHINGTON, Oct. 10 (AP)—The senate agriculture committee today rejected a suggestion to postpone a report on the confirmation of farm board members until the next regular session.

The committee, however, put off a final vote today because of the absence of Senator Smith, of South Carolina.

Two committee members suggested postponing a vote but Chairman McNary said this was not acted upon.

## CITY BUDGET WORK TO BE ENDED OCT. 16

Dr. Richardson, W. H. Bohnenkamp, William Siegrist on Committee

PROPOSALS MADE FOR 1930 FUNDS

Purchase of Perry Mill Site Requested—Salvation Army Hopeful of Appropriation.

The annual rush of groups to have some certain item included in the city budget gained impetus at last night's city commission meeting with two projects being presented.

Ensign Ben Allison, of Portland, who has been assisting in the Salvation Army campaign here, asked for help from the city.

Resolutions from the chamber of commerce, the Union County Development league and the Lions club urged the city to include $1,500 in the budget to purchase the Perry mill site as an investment, and to hold this until some future time when it may be disposed of to an industrial plant. A. R. Hunter, present at the meeting, pointed out that sites for new industries were scarce here, and that such a purchase would be of great worth to the community.

**Name Budget Committee**

Both propositi[illegible] to the budget com[illegible] which is to meet next W[illegible]ay evening at 8 o'clock with the commission to pass on the 1930 budget. Members of the budget committee were selected last night, each commissioner naming one as follows: A. T. Hill—Dr. A. L. Richardson. Charles Playle—W. H. Bohnenkamp, and Dick Melville—William Siegrist.

During the meeting it was re-

## GOLD PRODUCED BY EX-PLUMBER

High Officials in Munich, However, Believe it a Huge Swindle.

MUNICH, Germany, Oct. 10 (AP)—Franz Tausend, a former plumber and known widely as a professed alchemist, purported here yesterday to produce a tenth of a gram of gold from 1.67 centigrams of lead. Officials of the mint watched him carefully, but still are not convinced he actually obtained the gold from the lead.

Indeed, feeling grew today that he had hoodwinked even the high officials of the state mint, who issued an official statement reading:

"After experimenting for two hours Tausend produced a grain of the purest gold, weighing one tenth of a gram, which was smelted from 1.67 grams of lead. Experts describe the result as surprisingly favorable and contradictory to scientific knowledge. The director of the mint, however, is unable to supress doubts as to whether Tausend was able to smuggle the gold into the test in spite of all precautions."

It was generally conceded the former plumber, who has been in jail for having defrauded numerous high personages, including General Ludendorff, of $100,000 on alchemy schemes, would have to

## Seven Acres Of Land Sinks; Lake Forms Overnight

Hundreds of Thousands of Dollars in Oil Land Threatened—Cause Not Determined.

BEAUMONT, Tex., Oct. 10 (AP)—Loss of hundreds of thousands of dollars in oil land was threatened today through the unexplained sinking of about seven acres of land in the Sour Lake oil field, 25 miles west of here, which has created a deep lake where only yesterday stretched an expanse of waving marsh grass and small trees. Sides of the pit still were crumbling today as the fall of earth continued.

Derricks and storage tanks were being removed from the edge of the great hole, estimated at from 50 to 150 feet deep, which filled with water yesterday as the surface steadily fell through hour after hour. Thirteen wells were shut down and an abandoned derrick, a boiler and six settling tanks were engulfed.

Geologists of all the larger oil companies operating in this section were here today to study the muddy lake, which lapped the very border of the producing field. Theories as to the cause of the phenomenon were as different as they were numerous but the consensus is that drainage of the immense pool of oil beneath the surface, left a cavity which the sinking crust is filling.

**WELL ON FIRE**

OKLAHOMA CITY, Okla., Oct. 10 (AP)—Two men crouched behind metal shields continued today to pit their skill against a gigantic roaring torch flaming high in the [illegible] what once was the Sinclair Oil and Gas company's number 3 Stamper well, in the Oklahoma City oil field.

Trundling loads of high explosive near the 100-foot pillar of fire, and directing final connection of a battery of approximately 20 steam boilers, M. M. "Mack" Kinley and his brother, T. F. Kinley, prepared to snuff out, in one gigantic puff, the flame which fed by 50,000,000 feet of gas a day, has whipped and

(Continued on Page Eight)

## *Mrs. Puckett Dies At Home At Union*

By Mrs. L. Z. Terrall
(Observer Correspondent)

UNION, Ore. (Special)—Mrs. George Puckett died here Wednesday afternoon at about three o'clock after a serious illness which had lasted since Sunday. She had been in poor health, however, since early in the summer. The hour of the funeral has not yet been announced.

Mrs. Puckett was 58 years of age, having been born at Davenport, Iowa, October 29, 1871. She grew to womanhood there and was married to Mr. Puckett, coming west in 1892. This vicinity and Island City had been their home for the intervening 26 years. Besides her husband, she is survived by one brother, Ed Wulf, of this place, and a sister, Mrs. Matt Kries, of near La Grande.

The funeral will be held in La Grande tomorrow afternoon at 2:30 at the Snodgrass and Zimmerman mortuary, with the Rev. R. L. Putnam officiating. Burial will be at Union.

## *Foot Shot Off, He Hobbles Half Mile*

OLYMPIA, Wash., Oct. 10 (AP)—After accidentally shooting off one of his feet while hunting ducks early today, T. H. Corbett, Butler's cove contractor, hobbled half a mile on crutches improvised from his gun and a stick to call an ambulance. The foot was amputated just above the ankle at a hospital here.

## Tigers In Final Workout Today In Preparation for Nampa Game Friday

With a cloak of mystery around his starting lineup and the plays his team will depend upon, Coach Ira Woodle was putting the Tigers through a tapering-off workout today in preparation for an all-important battle with Nampa, Ida. high school here tomorrow afternoon.

Downtown sentiment was divided on the probable outcome of the game, with little to choose from and fans in general expecting a hard-fought game with the breaks apt to decide the contest. Previous defeats by Idaho teams, however, led some to believe that the La Grande squad would be turned back once more; on the other hand, many were confident that the 1929 edition of the blue and white team would be strong enough to win the interstate conflict.

**25 To Pick From**

Some 25 players will be champing at the bit tomorrow before game time, which is at 2 o'clock, and it will be out of this group that Woodle will thrust an eleven onto the field. The players who have a chance to get into the game follow:

Ends: Allen, Mires, Roe, Terrence, Sullivan, tackles: McClure, Parker, Gubleman, Hunt; guards: Thompson, Courtney, Conley, Hughes; center: Dojns, Berryhacks: Cochran, Stoddard, Evans, Nelson, Faus, D. Patten, Sheppard, V. Patten.

**Strong Reserves**

From the 25 men, Woodle is able to pick about 28 men that are nearly on par in playing ability and regardless of what combination starts, a strong group of reserves will be ready to relieve any player at the first signs of faltering. The team is in good physical condition and during the last week a spirit of enthusiasm has gripped both players and student body members—a spirit of "We've got to win" that augurs well for the outcome.

The Nampa team will arrive here either tonight or tomorrow morning. The game will be the first contest between Nampa and La Grande elevens and will usher in a new series of football tilts, that will endure through the coming year, with La Grande to play in the Idaho city in 1930.

HONORS HEROIC DOUGHBOY

A presidential salute to gallant heroism is shown in this unusual photo. Michael Valente, right, a naturalized Italian immigrant now living in New York City, had won the Congressional Medal of Honor. With it, he received another symbol of the nation's esteem—a respectful bow and hearty handclasp from Mr. Hoover. During the war, according to the citation, Private Valente rushed into withering enemy fire, silenced two machine gun nests, captured a trench, killed five of the enemy and captured 21 others.

## Lindy Discovers Four Cities Of Ancient Mayas

HA COZUMEL, Quintana Roo, Mexico, Oct. 10 (AP)—Four ancient Maya cities, hitherto uncharted, were discovered yesterday by Col. Charles A. Lindbergh, his wife, and their companions in several hours flying in Inland Quintana Roo.

The first was sighted within an hour after the party left Belize, British Honduras, and shortly after it crossed the Rio Hondo into the territory. Several definite mounds set about a triangular plot were found, and the location was mapped carefully, although it was too cloudy for photographing it.

Mrs. Lindbergh discovered the second ruins which at first seemed just a bit of white wall glistening above the deep green of the bush. Three small towns finally were located nearby, Dr. A. V. Kidder, Carnegie Institute scientist, believing them to be, probably, the center of a Maya city which flourished a millenium ago.

When the third city was discovered later in the afternoon Santa Cruz Indians beneath ran from the plane as it flew above them.

Col. Lindbergh sighted the fourth ruin, probably the most interesting find of the day, a great mound rising 60 or 70 feet above the ground, with its crumbling walls visible from as far as 22 miles away.

## Butter Stolen From Truck Is Sold in Bend

It seemed strange to the people of Bend, Ore., that strange men should be selling butter marked from the Blue Mountain creamery of La Grande, Ore., so they investigated and found—that the butter was stolen from an overturned freight truck on the well known Cabbage hill between La Grande and Pendleton.

The truck had been turned top side down, and the drivers were injured, and taken away for treatment leaving the truck alone. Apparently these adventures found the butter (about 612 pounds) resolving to make some money by selling it in Bend.

Maybe their "godmother" prayed fervently for these two men because before the insurance company could wire to Bend to hold them for trial, the police had let them go, and they didn't waste any more time staying there.

## *Blazing Building Greets Inspectors*

MILWAUKEE, Wis., Oct. 10 (AP)—Like a great torch standing out against a dark sky, the cupola of Milwaukee's city hall, 400 feet above the street, burned to its steel framework last night while firemen watched helplessly.

More than $50,000 damage was done by the fire which was too high to be reached by hose lines. While the top portion of the huge tower burned, showering embers to Water and Wells street, the clock, in a frame of fire, kept running, giving the exact time.

## *Autogyro Damaged In Test Flights*

PHILADELPHIA, Oct. 10 (AP)—The American built Spanish autogyro, undergoing tests at the Pitcairn field at Hallowell, 18 miles north of this city, was damaged during a trial today. A report that the inventor of the machine, Juan de la Vierva, was injured, was denied by G. S. Childs, executive vice president of the Pitcairn Vierva Autogyro company.

## TELL OF PLACING WOMAN IN OVEN

Officers Hear New and Startling Story About Cult's Activities.

LOS ANGELES, Oct. 10 (AP)—That at least four other members of the Divine Order of the Royal Arm of the Great Eleven, like 16-year-old Willa Rhoads whose body was found in a shallow grave beneath the home of her foster parents last Sunday, may have died and been buried privately, was the belief of officers who today continue their search for mysteriously absent persons.

Among the missing cult members for whom the police are conducting a search in the mountain areas of Los Angeles and Ventura counties are Mrs. Frances Turner, Mrs. Katherine Bolz, Mrs. Harlene Sartoris and Mrs. Addie McGuffin. Another woman, Mrs. Floyd Miller, also is being sought by police at the request of her mother, Mrs. Mary Faist of Portland, Ore. Mrs. Faist said her daughter came to Los Angeles with her husband about four years ago and was last heard from as joining the cult. Miller, who is said to be in Los Angeles, is known by investigators as a member of the strange religious sect.

**New, Startling Story**

Officers were investigating further a startling story told to Detective Lieutenant Frank Condaffer of the police homicide squad by Arthur and Minnie Toy, members of the cult, of a ritualistic ceremony wherein Mrs. Turner, one of the missing women, was placed in an oven filled with hot bricks. A woman of the same name was buried in Ventura nearly two years ago, and alleged discrepancies in her death certificate are being checked.

Mr. and Mrs. Toy, Condaffer reported, said they were present when Mrs. Turner was placed in a specially constructed brick oven in the home of "Grandma" Jennie Blackburn, cult leader now in jail on fraud charges. They said Mrs. Turner was kept in the oven all day, and that no one in the cult ever saw her alive again. They asserted that she had been buried near the "Golden Thrown Temple" in the cult's colonoy in Santa Susana mountains.

## *TARIFF LOBBY QUIZ PLANNED BY COMMITTEE*

WASHINGTON, Oct. 10 (AP)—The senate lobby investigating committee decided today to begin its public hearings Tuesday.

Chairman Caraway of the committee was authorized to issue subpoenas for witnesses but no decision was reached as to the first persons to be called.

Caraway has said he desired Joseph R. Grundy, Washington representative of the American Tariff league, as the first witness.

"We are going first into the lobby on the tariff bill," Caraway said. "We are going to get a list of those gentlemen who sat around so close that no one could get his breath while the tariff measure was being framed."

Caraway added that Charles L. Evanson, a representative of the Connecticut Manufacturers association, who was employed by Senator Bingham, of Connecticut, a Republican member of the finance committee, to assist him on tariff matters, would be given "full opportunity to explain his double salary."

## Philadelphia Is Fearful of Rain For Friday Game

Baseball Fans Worrying About Weather—Ticket Speculators Get $100 For 3-Day Seat.

PHILADELPHIA, Oct. 10 (AP)—Baseball fans in this world series town who have been on the verge of going into ecstasies over the double victory of the Athletics over the Cubs, found something to worry about today.

The weather man predicted a possibility of rain tomorrow, the day of the first series game here.

Rain is the worst thing that could happen on Friday, in the opinion of 40,000 rabid fans, who have waited 15 years to see a world series tussle.

**Ticket Speculators Busy**

With the jubilant Athletics on their way home from Chicago ticket speculators boosted prices substantially today. Two victories over the devastating Cubs, the speculators contended, put gold borders on the pasteboards for the three games to be played here. They were abroad in the land early quoting $90 to $100 for a three-game pair of tickets that cost the original purchaser $33. Heretofore the prices asked ranged from $50 to $75.

Fifty "John Doe" warrants, said to have been issued for the arrest of speculators, seemed to have little effect on their activities. "Sandwich men" advertising ticket agencies have appeared in such numbers that at times they have the appearance of cluttering up pedestrian tarffic. If the A's had come back from Chicago two down, tickets would have been worth about $2 per game, speculators said.

**Counterfeit Tickets**

One speculator's office, where tickets are bought and sold, reported the purchase of a block of seats last night and upon checking up with the club found that the seats were in a section not listed at Shibe park. Further examination revealed that the stock upon

(Continued on Page 8.)

## Banker Is Given 15-Year Term In Federal Prison

NEW YORK, Oct. 10 (AP)—Charles Delos Waggoner, Telluride, Colo., bank president, was sentenced to 15 years imprisonment today on his plea of guilty to mail fraud in connection with a scheme to obtain $500,000 from six New York banks by means of forged authorization papers.

Witnesses had been assembled from as far away as the West coast for Waggoner's trial, but when the case was called today defense counsel entered a plea of guilty. United States Attorney Charles H. Tuttle then moved for immediate imposition of sentence and the banker was sentenced to 15 years in Atlanta penitentiary.

## *Anti-Religious University Opens*

LENINGRAD, Russia, Oct. 10 (AP)—The first anti-religious university in the world was opened here today with elaborate ceremonies in the huge building of the House of Culture.

Named after Stepanoff Skvortsoff, pioneer atheist in Russia, the anniversary of whose death was today, the new university began its session with 300 students, 47 of whom were women.

Professor Tan Bogoraz of the Russian Academy of Science, declared that at present "when the church is attempting to regain its lost power in Russia," a relentless struggle based upon strict science must be carried on against religion.

## *Seize Narcotics Valued at $10,000*

SEATTLE, Oct. 10 (AP)—Four persons were arrested and narcotics valued at $10,000 were seized here last night in a raid on a luxuriously furnished cottage in the residential district. Those arrested gave their names as George Wilson, believed by officers to have been the proprietor of the place, Florence Regan, 19, Ray Thomas and Jimmy Taylor. The latter two were both of Vancouver, B. C.

**POWER RATES REDUCED**

PORTLAND, Ore., Oct. 10 (AP)—Cities and towns in the territory adjacent to Portland will profit by reductions in power rates which have been announced tentatively by power companies and the public service commission, members of the commission said today.

**GRANTED DIVORCE**

PARIS, Oct. 10 (AP)—Doris Stevens, noted feminist leader, today was granted a divorce from Dudley Field Malone, New York lawyer, on the ground of abandonment.

## FIVE-POWER NAVAL MEET IS PLANNED

United States Accepts Invitation of British to Participate.

MACDONALD QUITS WASHINGTON TODAY

Concludes Visit Expected to Affect Destiny of Nations — Philadelphia Next Stop.

WASHINGTON, Oct. 10 (AP)—Coinciding with the departure of Prime Minister MacDonald from the capital, the American government today formally accepted the invitation of Great Britain to participate in a five power naval limitations conference.

Secretary Stimson made the announcement shortly after returning from the station where he said good-bye to the British premier. Acceptance on the part of the United States has been regarded as a foregone conclusion since conversations between London and Washington have been in progress on the question for some time.

Mr. MacDonald's visit was an outgrowth of these discussions and during his stay here he went over the situation in detail with President Hoover.

Both regard further naval limitations as a step toward world peace.

**MacDONALD LEAVES CAPITAL**

WASHINGTON, Oct. 10 (AP)—Concluding a visit expected to affect the destiny of nations, Ramsay MacDonald, Britain's prime minister, left Washington today at 9:02 a. m., for Philadelphia.

Secretary Stimson and other high officials were at the station to bid farewell to the British statesman who for nearly a week has been in the capital conferring with President Hoover on means of promoting world peace.

These conferences have been pronounced satisfactory by both the president and the visitor and upon his departure today Mr. MacDonald appeared well pleased with his trip.

The trip from the British embassy to the Union station was made in White House cars sent early this morning by the president for the use of the prime minister and his party. Sir Esmo Howard, the British ambassador, and Captain Alan Buchan, the president's naval aide, rode with the prime minister in the first car.

**Clothes Informal**

The premier was dressed in a blue business suit, soft collar and blue and white tie and top coat, and carried a cane.

This is the first time during his stay in the city that he has not worn formal clothes.

At the entrance of the station, despite the bustle and hurry to board the train, Mr. MacDonald

(Continued on Page Six)

## *ASK U. S. TO BUY BONDS TO AID FARM MEN*

WASHINGTON, Oct. 10 (AP)—Authority for the secretary of the treasury to buy $100,000,000 or more of farm loan bonds from federal land banks to provide funds for agriculture, was asked in a joint resolution today by Senator Brookhart, Republican, Iowa.

The Iowan in a statement said the "gambling business" in Wall Street was drawing large sums of money into New York from over the country, thus reducing the market for farm loan bonds, which pay a rate of interest of about 5½ per cent.

He continued he had received many letters from farmers of the middle west protesting against the situation.

The resolution was referred to the committee on banking.

## *Chicago Plane Up 248 Hours Today*

CHICAGO, Oct. 10 (AP)—The "Chicago—We Will" came within striking distance of its own refueling endurance record when it passed the 240-hour mark and sailed into its 11th day at 6:52 a. m. today. In its last previous endurance flight, the plane stayed aloft 291 hours. At 2:52 o'clock this afternoon it had been aloft 248 hours.

**AIR TOUR CONTINUES**

RICHMOND, Va., Oct. 10 (AP)—A great Lakes plane piloted by W. L. Lancaster took off this morning from the Byrd airport here to continue the 1929 national air tour of 41 planes. Twenty-six others followed at one minute intervals for Winston-Salem, N. C. Greenville, S. C., was to be the second stop.

## *HEAVY FROST STRIKES CITY DURING NIGHT*

Killing frost, last night, accompanied by a drop in the mercury of 30 above zero, which is two degrees below freezing point, put a definite end to most tender plants and flowers in La Grande for the season. It was the heaviest frost of the fall, hitting alike in the downtown districts and the hill section.

The night was the coldest since last spring and followed a clear day with the temperature reaching 60 degrees above.

At 7:30 o'clock this morning the mercury was only two above freezing point.

**WEATHER TODAY**
7:30 a. m.—34 above.
Minimum: 30 above.
Condition: clear.

**WEATHER YESTERDAY**
Maximum 60, minimum 42 above.
Condition: rain .02 of inch, mostly clear.

**WEATHER OCT. 10, 1928**
Maximum 55, minimum 39 above.
Condition: rain .03 of inch, traces of snow.
