RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says: "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Osmolite has been discovered. This tablet attracts water from the system into the large dry excremental bowel called the colon. This water softens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Osmolite at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store. Glass Drugs, Inc. —ADN

MENUS

By Sister Mary
A nourishing dish which combines both cereal and eggs for breakfast is a rice omelet.

This is excellent for school children, since it's hearty and of high food value. Served with a tomato sauce, the whole furnishes all the elements necessary for proper nutrition.

Crisp toast should be included in the breakfast menu for the sake of the teeth if for no other reason. Dentists tell us that the teeth need exercise quite as much as the muscles of the body.

The rice should be cooked the night before. If this is done, the omelet is not difficult to prepare. No extra time is required in the morning for the cooking of breakfast since the rice omelet cooks as quickly as any omelet.

Rice Omelet
One cup cooked rice, 1 cup milk, 1-2 teaspoon salt, 1-8 teaspoon pepper, 3 tablespoons butter, 4 eggs.
Heat milk and add cooked rice, two tablespoons butter and salt and pepper. Beat well and add the well beaten yolks of eggs. Fold in whites of eggs beaten until stiff and dry. Melt remaining tablespoon of butter in a hot iron spider or omelet pan. Turn pan until thoroughly coated with butter and make sizzling hot. Pour in omelet mixture and let cook on top of stove for two minutes to brown the bottom. Then cook in a hot oven until well puffed and firm to the touch. Fold and turn out on a hot platter. Serve with tomato sauce or fresh tomatoes cut in slices and broiled.

Dairymen Consider Breed Secondary to Breeding

Only a small proportion of the dairy animals on the nation's farms are pure bred—or even good grades. Therefore, the activities of Breed Associations in raising livestock standards are a real service to the farming industry. Each association seeks development of the breed it favors. Yet in those exhibitions whenever the breeds are shown together the friendly spirit of rivalry which exists evidences the realization that breeding counts rather than breed.

Such is the atmosphere pervading the Dairy division of the Pacific International Livestock Exposition, 12th Annual of which will be held at Portland, Oregon, Oct. 25-Nov. 2. Here can be seen America's finest and best dairy animals and knowledge obtained how pure-breds make possible increasing production and profits. Other exhibits include Beef Cattle, Horses, Sheep, Hogs, Goats, Poultry; also Dairy, Manufacturing and Land Products Shows; Boys' and Girls' Club Work Exhibits; Industrial Exhibitions; and world-renowned Horse Show. \$100,000 premiums are offered of which amount \$14,000 is for dairy cattle exhibits exclusively.

The La Grande National Bank knows from previous experience that information of immeasurable value can be obtained at this great livestock classic. For this reason we say to every farmer, "Make every effort to attend the Exposition."
