WHEAT HIGHER AT CLOSING IN CHICAGO

CHICAGO, Oct. 21 (AP)—With stocks of wheat enlarging both abroad and in this country, as well as an ocean passage, wheat prices averaged lower early today. However, weakness of securities counted also as a bullish influence. Opening at 1/2 off to 3/4 up, Chicago wheat later underwent a material setback all around. Corn had an upward trend, starting unchanged to 1/2 higher, and subsequently scoring general gains. Oats were easy. Provisions likewise tended to sag. Wheat closed firm 3/4 to 1 1/4 per bushel higher than Saturday's finish. Corn closed 1/2 to 1 1/4 to 1 1/2 advanced, oats 1/2 to 3/4 to 1/2 up, and provisions unchanged to 1/2 down.

WHEAT WEAKENS DURING THE WEEK

Slow Export Inquiry Causes Market Trend to Turn Downward

PORTLAND, Oct. 21—Grain markets turned decidedly weak during the week ending October 19. Slow European inquiry for North American wheat was principally responsible for the sharp decline in domestic wheat prices to the lowest point since early in July, according to the Weekly Grain Market Review of the United States bureau of agricultural economics. Flax and feed grains were lower with wheat, but prospective early marketings of new corn and shortage of elevator space for storing this grain, were additional weakening factors in the corn market. Flax was rather unsettled but there was a good cash demand for the light domestic offerings.

Continued heavy Argentine shipments, averaging around 5,000,000 bushels weekly, together with large offerings of native wheats, have been nearly sufficient to supply current European needs, and have restricted the demand for North American wheat, with the result that stocks in the United States and Canadian markets have accumulated to nearly 395,000,000 bushels, the largest amount on record, and about 125,000,000 bushels over the amount in store in North American markets a year ago. These large stocks, with little prospect of an immediate increase in export inquiry, and a rather slow domestic flour demand, are principally responsible for the present downward trend in wheat prices. Danubian countries are offering wheat more freely than in recent years. Rumania is shipping wheat in good amounts, while Czechoslovakia is exporting wheat on drawback certificate, and Yugoslavia is offering freely in European markets in competition with exports from Argentina.

Conflicting Reports
Reports of conditions in the Southern Hemisphere are conflicting, but crop conditions in Argentina have improved recently by showers and prospects are more favorable, except in the northern part of the province of Cordoba and Santa Fe where serious damage has occurred according to trade reports. Estimates of the output this season vary greatly, but based on what appears to be conservative trade estimates, it now seems probable that the exportable surplus in Argentina and Australia for the current season may be 75,000,000 to 100,000,000 bushels below shipments for the current season, which have been much larger than were estimated at the beginning of the crop year.

Domestic cash wheat markets generally followed the decline in futures, and at the close of the market October 18 were 1/2 to 5/8 lower than a week ago. Demand for hard winter wheat was limited principally to local mills. Some export sales were reported but these consisted mostly of distressed shipments abroad, or which had arrived in European markets, and were generally at discounts under replacement values. Receipts at principal markets were only of moderate volume, and were only slightly in excess of shipments, so that market stocks increased more slowly than earlier in the season. Over 200,000,000 bushels of wheat, however, are now in store in the domestic markets.

Soft winter wheat markets were also weak and prices declined about the same as other classes of wheat. Spring wheat markets were weak and lower, with bread wheats showing a greater decline than durum. Domestic flour demand was dull and mills were less active buyers of wheat. Offerings were light and tended to check the increase in elevator stocks.

The durum wheat market also declined, but was relatively firmer than that of other bread wheats. There was a fairly steady export inquiry while domestic buyers also continued to absorb the offerings rather freely.

Pacific coast markets were also weak and lower. The December futures prices at Portland declined 1/2 to 3/4 during the week. Flax wheats were 1/2 to 3/4 lower. Exporters were reported unable to secure any new business and mill demand was limited. Big Bend Blue-stem hard white was quoted at Portland at \$1.50, No. 1, soft and western white at \$1.20, No. 1 hard winter, northern spring and western red at \$1.15 per bushel. Receipts at Portland total only 254 cars compared with 735 cars for the corresponding week last year, while Seattle receipts totaled 346 cars as against 252 cars a year ago.

Breath-Taking Slump In Prices Strikes Market

NEW YORK, Oct. 21 (AP)—The stock market was subjected to one of the most overpowering selling movements in its history today. Both the New York stock and curb exchange tickers fell more than an hour behind the breath-taking pace of trading, as leading shares tumbled \$5 to \$55. The enormous turnover of stock promises to approximate, if not surpass, the March 26 record on the stock exchange of \$246,740,000.

Repeated efforts were made by powerful interests to support the market, but they met with little success until after hours of business had broken \$5 to \$25 a share, many to new lows for the year.

ACCIDENTS OVER WEEKEND CAUSE SEVERAL DEATHS

(Continued from Page One)

Burelier, the pilot and Gus Dudi, a passenger to haul him back into the pit. A rope from the parachute to the plane broke and Mill fell, grasping the chute in such a manner as to prevent its opening.

FIREMAN KILLED

WORCESTER, Mass., Oct. 21 (AP)—One fireman was killed and a dozen were seriously injured in a fire which destroyed a warehouse block this morning. Lieut. Carl R. Swenson was killed when a wall toppled on firemen who were within the building. Damage was estimated at \$200,000.

SEVEN ASPHYXIATED

NEW YORK, Oct. 21 (AP)—A father and six motherless children were asphyxiated by illuminating gas as they slept in their three-room apartment in west 46th street yesterday.

Police found a pan of water on a kitchen stove which apparently had boiled over, extinguishing the flame and permitting the gas to flow into the rooms. The bodies were discovered by Samuel Brinick, a neighbor, when he went to the apartment to tell the father, Walter Cavannah, a private chauffeur, that his employer had called him on the telephone. The dead are Walter Cavannah, 42, Ethel, 17, Catherine, 15, Rose, 13, Thomas H., George 9 and Walter Jr., 8.

MOTORIST KILLED

NAPA, Cal., Oct. 21 (AP)—Pinned beneath their overturned automobile, Sidney J. Pupillon was killed and Donald Hurley probably fatally injured. Both men were sailors, attached to the Marine Island navy yard. J. D. Klemm, driver of the car, was held on a charge of drunken driving.

BOY IS DROWNED

MOSS BEACH, Cal., Oct. 21 (AP)—Torn from the grasp of his father who sought to rescue him, Richard Lammers, 12, San Francisco, drowned at Martin beach when a smaller brother over his back from which he was falling and swept him out to sea. The father succeeded in reaching his son, 100 yards from shore, but the heavy breakers beat him off.

HOOVERS IN MIDWEST FOR CELEBRATION

(Continued from Page 1)

Invited guests who had been invited here by Mr. Ford for the golden jubilee celebration. They included Owen D. Young, chairman of the board of the General Electric company; John D. Rockefeller, Jr.; Governor Fred W. Green of Michigan; and several others. Then there was an inspection of the red brick station brought in from its original site, not far from Fort Union on the Fort Huachuca route. It was at this station that Edison was discharged as a newsboy and began his career as a telegrapher.

A drizzling rain fell throughout the reception at the Smith's Creek station and the president left off his formal clothes, wearing a dark cotton overcoat and a sport gray felt hat. As the party started for the Ford home, the president and Mrs. Hoover entered a town car with Mr. and Mrs. Edison. Mrs. Hoover relinquished her place on the back seat for the famous inventor, who rode beside the president with Mrs. Hoover and Mr. Edison on the folding seats in front. Through a driving rain and biting wind, President Hoover, with the first lady beside him, drove for 12 miles today in an open automobile to greet thousands of people who jammed the plaza in front of the hotel.

Thinking the crowd for the "Generosity and courtesy" of its welcome, the president said he saw "no lack of warmth in the faces and hearts of the people of Detroit despite the action of the skies."

"I have thought it a fitting thing, as the governor has said, for the president of the United States to take part in paying honor to one of our great Americans, Thomas A. Edison."

"Mr. Edison has brought to our country great distinction throughout the world. He has brought benefactions to all of us and it is but a small thing we may do to reward the appreciation, esteem and honor in which the nation holds him."

"Detroit is fortunate it is to be the point where the nation pays its tribute to Thomas A. Edison and I wish to thank you again for your cordiality and the courtesy of your welcome. Thank you."

After the city hall ceremonies the president and Mrs. Hoover drove back to the home of Mr. and Mrs. Henry Ford at Dearborn, following the same route as on the inward ride. Mr. Hoover was bundled up in a great coat and a rain coat which was the first lady wore a coat of Miss Gwyn Davis, a secretary in the mayor's office.

INFORMATION LEAK SOUGHT BY SENATORS

(Continued from Page 1)

the secret sessions of the committee, to the ten per cent duty on rough bored shot gun barrels.

Eyanson on being shown a photostatic copy of the memorandum said he did not remember it. "Do you suppose," Walsh asked, "that Mr. Welch, a subordinate of yours, had such familiarity with the majority members of the finance committee as to obtain this information?"

"No, sir," Eyanson replied. "I suppose we will have to ask Mr. Welch about it," Walsh observed.

RETURN BILL TO COMMITTEE

WASHINGTON, Oct. 21 (AP)—A motion to return the tariff bill to the finance committee with instructions to limit revision to farm products was made in the senate today by Senator Thomas, Democrat, Oklahoma.

The proposal would instruct the committee to strike out all rate changes except those relating to agriculture in general, sugar and tobacco.

It would leave the way open, however, for individual senators to offer amendments to the industrial schedules when the measure again came up on the floor.

Discussion started at once. The senate approved an amendment to the tariff bill to exempt companies operating ships as common carriers from liability for oil and smuggling if the owner, master or other officers could establish before a court their ignorance of the smuggling.

GIVE REPORT ON WORK OF P. T. A. IN EAST OREGON

(Continued from Page 1)

dala are small rural associations but make up in activity what they lack in numbers.

"The La Grande associations are all in a flourishing condition. All have conducted successful membership drives and summer round-ups. Two serve hot lunches, two serve milk, three conduct an exchange for the sale of used books, and Rivera has the only study club in the county. The city council is functioning successfully; its outstanding accomplishments being the campaign for law enforcement and the formation of the Normal Training School association.

"One obstacle to organization in Eastern Oregon is the great distance between towns. Huntington, in Baker county, is 100 miles from La Grande, and Joseph is 80 miles in the other direction. Another is our rigorous winter weather."

Mrs. McPherson's report, her election as fifth vice president, and the presentation of the Gabriel membership cup to the La Grande P. T. A. were features of this section's participation in the Grants Pass convention, which closed Friday.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified crescent that is pleasant to take. Creomulsion is a medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs crescent is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to crescent, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the crescent goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (Adv.)
