lot of time covered by the achievement of the "Hippert" checkbook, the Hagen strategy and the Hagen field strategy.

They are unique in being the first major league ball clubs to adopt the "gradate" policy in selecting Robert J. Shawkey as manager for 1929. The Yankees have decided to stick to the Hagen system.

"Bob and the Old" put his first real baseball training under Connie Mack, but he spent the 12 first years of his baseball life in the New York Yankees. In 1903, under the direction of the late Mike Huggins, Hagen was a major league pitcher.

He was credited largely with the development of George Huggins as one of the leading right-handers in the American League after it seemed that George would never make the grade. Under Huggins, Shawkey was charged with such coaching responsibility, so that it was not strange before he died that Huggins advised Colonel Huggins to select either Art Fowler, the old first star and now a Yankee coach, or Shawkey.

There have been few better ball players on or off the field than Robert J. Shawkey, whose training and coaching always distinguished him in any line.

"Bob and the Old" was a big factor in the 1924-25 mound victories of the Yankees, winning 24 and losing 23 games in those three seasons. In 1926, he won 19 and lost 17 in the 1927 world's series, called off because of "workings."

Shawkey's last appearance in the world's series was in 1924 against the Cardinals. Although then past his prime, Bob had shown such effectiveness with his famous curve, in two prior appearances that Huggins sent him out against Alexander in the sixth

The Mysterious

WHAT Door Does It Unlock?

game at the Yankee stadium. After a bad first inning, Shawkey held his own with Alex until the seventh, when the old suspicion began to feel the effects of a damp chilly day. Out, Bob was knocked out and hasn't been pitched since for the Yankees since then, although he was good enough to pitch in 22 games for Montreal in the international league in 1925, winning nine, and losing nine.

Three of the big stars in the University of Pittsburgh's powerful gridiron lineup this year are Tom Parkinson, Bill Birk, and Tom Donohoe, a rugged end, and Ray Montgomery, guard. They are Jack Sutherland's outfit that has started out as impressively as any eleven in the country.

Donohoe was unquestionably one of the finest ends in the country last year, perhaps the best offensive or interfering end anywhere, although he failed to get as many headlines as the wing-men fighting in the forward passing attacks.

There is considerable rivalry over the merits of these players around the Smoky City, where Carnegie Tech's outstanding trio happens to hold down similar positions—John Karris at fullback, John Bresler at guard and Ted Humberich on the end.

Bears Believe They Can Upset Trojan Eleven

BERKELEY, CAL., Oct. 31 (AP)—Hardly 19 ticks to their most formidable foe this season, the Bears of California will strain tonight for their little Saturday against the Trojan star of the University of Southern California in Los Angeles.

Without doubt, the Bear offense, during this season in 5 months, has had its ups and downs, but its best work has been done in the last few weeks. However, users will admit, despite the effects of rivals in football and the California Bears' by show strength as yet untried.

The present California football line many possibilities. Coach Norm Tryon has worked long and hard to bring out the offense that has now shown in first and second halves, and it was believed he had accumulated his purpose. Ed Griffin, a full back and a real runner, has been groomed for full service. Clarence Garrity, Mena, defensive star Joe Dickinson and Harry Gill were other new stars in the making. Lee Egan was looked upon as an attacking threat as well as a clever quarterback. Ed Korman, who made a name for himself in the game against the Olympic club, was another reliable Bear, and there was Edred Lane and Lee Linn, both of whom have been trained for the halfback job and have shown plenty of speed. And if

Ucla Bruins On Way to Oregon

LOS ANGELES, Oct. 31 (AP)—The Bruins of the University of California at Los Angeles were headed for the northwest today, seeking to avenge their defeat at the hands of the University of Oregon in their first victory in the Pacific coast conference race.

Coach Bill Stuchlik left here last night after their final practice for the clash at Eugene before Thanksgiving he named the following probable starting lineup:

Duffy and Welford, ends; Cannon Brown and H. Nelson, tackles; Otto and Gibson, guards; French, center; Simpson, quarter; Rowan and Thors, halfbacks; and Johnson, fullback.

Young Rockne Is Starting Early

SOUTH BEND, Ind., Oct. 31 (AP)—Kilma Rockne is grooming another "horseman" for Notre Dame.

The prospect is none other than his son, Jackie, now three and a half years old. Duffy during the football season, Jackie boots a plank about the yard. Yesterday, he was observed kicking high ones right in his daddy's six room.

Sonnenberg Is Winner In Match With Cantonwine

PORTLAND, Ore., Oct. 31 (AP)—Brown and brains battled here last night in a heavyweight wrestling championship match and the brains which overpowered the brawn afforded Gus Sonnenberg an opportunity to defeat successfully his heavyweight opponent ship against Howard Cantonwine, pushing down.

For 25 minutes and 23 seconds the champion and his challenger held to using practically everything in the wrestler's bag of tricks. It was pure brawn up until the last two or three seconds when Sonnenberg saw his opening and made a flying tackle which ended the first fall.

Sports writes today said it was Cantonwine's effort to please the greatest crowd that ever witnessed a wrestling match here that won him the first fall and a bid for the title.

The Jewan strode almost carelessly onto the mat in the second stanza. Sonnenberg displayed his wrestling ability gained with an eastern football team and pinned Cantonwine with a flying tackle. Cantonwine, aided by the suddenness of the attack, set for some minutes in the center of the mat wondering what it was all about. The crowd boomed, others cheered.

Sonnenberg weighed 285, Cantonwine 275.

Grim Reaper's Methods

Organic diseases of the heart cause more deaths than any other single cause, followed by tubercle, typhoid, pneumonia and cancer.

Justice Is Not Blind!

AN ANCIENT PREJUDICE HAS BEEN REMOVED

Justice is no longer dispensed by ignorant and individual domination. Another ancient prejudice stands convicted by AMERICAN INTELLIGENCE which insists that a jury "twelve good men, tried and true" decide the facts.

"toasting did it" —

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat punishes, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

"It's toasted"

No Throat Irritation-No Cough.

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobacco—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.

This Riverside De Luxe Battery

Guaranteed 2 years—Saves you at least 50%

Light and powerful battery \$6.59

For trouble-free winter driving, use the RIVERSIDE De Luxe. It's built with the best of battery materials and is made in the most modern plant in the world.
