

Women Ends 27-Year World Trek Tracing Trail of Conquistadors

By Sue McNamara
(AP Feature Service Writer.)
WASHINGTON (AP)—A slight woman whose eyes have glared fearfully at danger in the old corners of the world, has completed a 27-year journey that has taken her twice around the globe and into every country that was under the domination of Spain or Portugal.

She is Mrs. Harriet Chalmers Adams, considered one of the foremost women explorers in America and president of the Society of Women Geographers.

It has been her ambition to follow the trails of the leading Spanish conquistadors of the sixteenth century and she has gone into all the lands which they discovered or explored.

She has returned to her Washington home after six months spent in out of the way places in Spain, with interesting new light on the conquistadors of Columbus, Pizarro, Cortez, Magellan, Vasco de Gama, Juan Sebastian Elcano and Alvar Nunez Cabeza de Vaca.

Across the Pacific, into every country of Europe, up South American rivers, over the Andes and to the Philippines, Mrs. Adams has gone seeking the birthplaces and graves of the conquistadors.

Neither danger nor illness daunted her. She was bitten by vampire bats while camping along

the Amazon; she was poisoned in British Guiana by eating a bird that had been killed with poison arrows. Three years ago while on the island of Ithaca, off the coast of Spain, she fell off a cliff and broke a couple of vertebrae in her back.

But after long months in a plaster cast and steel braces she set valiantly off again last spring to take up once more the adventurous trail. She not only completed her mission, but returned much improved in health.

During these years of exploration, Mrs. Adams has traveled by train, steamer, automobile, airplane, in canoes, sailboats, on horseback, on camels and elephants and in motor trucks.

Mrs. Adams inherited her interest in things Spanish. Her grandfather was in California in 1842 when it was largely settled by Spaniards and Indians. Her mother was the first white girl born in Colorado county. When she was 14 she traveled on horseback with her father from Mexico to Oregon.

Her marriage to Franklin Adams, commander of the Pan-American Union, 27 years ago, enabled her to start in earnest on the shimmering trail of the hardy old conquistadors. Mr. Adams has accompanied her on many of her trips.

Remove from heat and chill. Fold in cream whipped until firm. Whipped cream is often combined with mayonnaise to make a dressing for fruits. A few drops of lemon juice is sometimes needed to make this dressing pleasantly tart.

Another dressing is made by adding lemon juice to whipped cream. Two tablespoons lemon juice and one-half teaspoon salt to one cup of whipped cream is a good rule, although the proportions can be varied to suit individual tastes.

Strained honey is also used for a fruit salad dressing. The flavor is delightful and unusual.

Honey Salad Dressing
One-half cup strained honey, yolks 2 eggs, 4 tablespoons salad oil, 1-2 teaspoon salt, 2 tablespoons lemon juice, 1 cup whipped cream, dash paprika.

Heat honey to boiling point and pour onto well beaten egg yolks, beating constantly. Beat over fire for one minute. Remove from heat and beat until thick as mayonnaise. Beat in salt, oil and paprika for approximately two minutes. Let cool and when ready to serve beat in lemon juice and fold in whipped cream.

Fruit salads are excellent to serve in place of dessert for the winter dinner. When the whole is topped off with black coffee, cheese and crackers, the meal is most satisfactory.

GOOD NEWS FOR TOURISTS

NICE, France (AP)—The opening of new hotels on the Riviera, totaling 6,000 first-class accommodations and 25,000 second and third-class, threatens to bring about a rate war which should materially reduce the cost of seeing sunny southern France, nearby Monte Carlo and San Remo, the Italian resort where roulette is played.

Alcohol in the trees closes the leaves, says a bulletin. Just another phase of the red nose theory.

Pain In Your Shoulder?

Use Tysmol for Relief

Knife-like jabs of pain in the vicinity of the shoulder blade are generally due to neuritis, brought on by exposure to draughts or sudden changes of weather. In some cases there is stiffness or soreness in the muscles, making it difficult to raise the arm.

The safest and easiest way to relieve such an attack is to apply a small quantity of Tysmol over the affected area. This soothing, heating preparation is quickly absorbed through the pores and carried to the throbbing, aching peripheral nerves. The pains usually stop at once, and in a very short time the last trace of soreness should disappear.

Tysmol is absolutely harmless—free from dope. Recommended for all forms of nerve pain, whether caused by neuritis, neuralgia, sciatica or rheumatism. Sold by leading druggists. Always on hand at Glass Drugs, Inc.—Adv.
