LONDON (AP)—In a busy office in London a group of experts are struggling to pin out international tangles tied by a world that is applying the spectacular efforts of Jean and British statesmen to ease world peace.

Machine Milk Is Purest

The U. S. Department of Agriculture, on its experiment farm at Beltsville, Md., has originated a vacuum system of milking cows which cuts the cost of labor of milk production and takes the product all the way from the cow to the consumer without exposing it to air, dust, dirt, or other contaminating agencies. Cows on the farm are shown above being milked by the vacuum milker, and R. R. Graves of the Department of Agriculture, developer of the idea, is shown in inset.

MENUS

By Sister Mary
No holiday menu is complete without at least a narrow wedge of mince pie and for meals during the entire holiday season mince pie makes an acceptable dessert.
It should be kept in mind that mince pie is not a suitable dessert for children and that it should follow a light meal rather than a hearty one.
Mince meat improves if allowed to stand one or two weeks before making into pie. The flavors blend as in any spiced concoction and the result is an enticing mixture without any predominating flavor.
"Proper" mince meat is made with boiled cider and there are several brands of commercially prepared boiled cider on the market. However, sweet spiced vinegar from sweet pickles or a mixture of grape juice, orange juice and lemon juice can be substituted with good results. Sweet cider can be boiled with the other ingredients if it is at hand.

Two pounds lean beef, 3-4 pound beef suet, 4 pounds chopped apples, 2 pounds seeded raisins, 1 pound cleaned currants, 1 pound shredded citron, 1-4 pound candied orange peel, 1-4 pound candied lemon peel, 2 pounds light brown sugar, 2 quarts sweet cider, 1 cup molasses, 1 cup stock, 2 teaspoons salt, 1 nutmeg (grated), 1 tablespoon ground cinnamon, 1 teaspoon ground allspice, 1 cup preserved cherries or strawberries.
Any part of the beef can be used that is clear lean meat. It must be boiled until very tender and perfectly free from any suggestion of gristle, fat or bone.
Cook meat in boiling water to cover until tender, adding 1-2 teaspoons salt when about half done. Add water as necessary and re-steam as it rises. When meat is tender, boil rapidly to reduce stock to one cup. Let cool in stock. When cool remove from stock and carefully trim away bits of fat, bone or gristle. Put meat through food chopper. Strain stock. Mince suet. Pare core and chop apples. Chop raisins. Put all ingredients

except preserves into preserving kettle. Bring to the boiling point and cook over a low fire about two hours, stirring to prevent sticking. Add preserves and bring to boiling point. Pour into sterilized jars and seal.
If cooking sherry is added, omit extra salt and add the sherry just before canning and sealing. Sherry takes the place of cider if equal quantities of each are used.
The recipe makes about five quarts of mince meat. Canned in pint cans, one can is enough for a pie.
CHESS CHALLENGE ISSUED
PARIS, Nov. 13 (AP)—Jose Capablanca, Cuban chess master, has issued a formal challenge to Alexander Alekhine, Russian expert who has just won the world's chess championship at Wiesbaden. The Cuban hopes that the challenge will be accepted shortly and expects that the matches will be played either in New York or Bradley Beach, N. J.

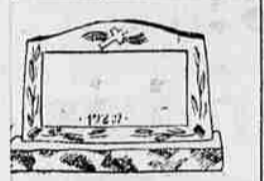

L. A. CUE SHARK LEADING
SAN FRANCISCO, Nov. 14 (AP)—Charles Jordan, of Los Angeles, had a lead of seven points over John Fitzpatrick, Seattle, tonight at the close of the first night's play here in the All-Western billiard championship. Jordan, scoring 56 points, had a high run of five; while Fitzpatrick scored 42 points with a high run of four. The match is being played in blocks of 50 points and will conclude Friday night.
The winner will represent the West in the national championship to be played in the East next month.
Newton's Humility
I do not know what I may appear to the world, but in myself I seem to have been only like a boy playing on the seashore and diverting myself in now and then finding a smoother pebble or a prettier shell than ordinary, whilst the great ocean of truth lay all undisclosed before me.—Isaac Newton (1642-1727). Brewster's Memoirs.

Is Your Whole Appearance Ruined By Ugly Leg Veins?
Of course it is because nothing detracts so much from a woman's beauty as big, blue Varicose Veins bulging out in her stockings.
Is there anything you can do to get rid of this distressing condition? You just bet there is—go to any drugstore and get a bottle of Moore's Emerald Oil, a simple, economical yet such a wonderfully efficient home treatment which quickly stops the pain and soreness and reduces the most enlarged veins back to normal in so short a time you can scarcely believe it.
Untreated Varicose Veins have a tendency to grow worse until only operations can relieve them—so why not start right in today and banish not only any operation fears but your ugly veins as well—the great penetrating and antiseptic power of Moore's Emerald Oil will do it for you.

FARM NEWS!

No one realizes better than the Grande Ronde valley farmer that the agricultural news service of The Observer—the "Over the Valley" feature edited by Miss Morton—is the most extensive and most successful ever attempted by any newspaper in Eastern Oregon.
Constant contact with the producers of the valley—daily calls on wheat farmers, poultry raisers, orchard men, stockmen, farmers specializing in dairying, small fruits and vegetables—these personal contacts in all sections of the valley are the source of an ever-interesting volume of farm news not found in any other paper in Oregon.

The natural result of this unique service has been universal interest in The Observer throughout the agricultural sections of the entire valley.

Of Any Paper Circulated in the La Grande Territory

Farm readers follow farm news—the superior Valley News Service of The Observer has been followed by a steady voluntary increase in the number of farm readers the last two years—a greater number by many hundreds than ever before in the history of the paper.
