Women Individualists

No man goes so far in his individualism as to have a special hat made different from those of others; but women do. They are the individualists.

Health Talks

ARE YOU FIT TO MARRY?
By Arnold E. Strauss, M. D., Lansing, Mich.

In the city of Berlin, Germany, an institution opened several years ago which undertakes to advise young people, after a very exact examination of their social, educational, psychological, hereditary and especially physical conditions, whether or not they can marry with a bright outlook to happiness. This institution is very much frequented. It has been said that it would be worth while for one of our philanthropists to found similar institutions in this country.

Now the experience of this institution point especially to an outstanding step: a health examination before marriage really is of utmost importance. Millions of words are written every day about troubles with married life, about divorce mills, and of unhappy children of divorced parents, who in later life molest society. Much of this is due to unimpaired physical and mental conditions of the couple.

There are the so-called social diseases which ruin the life of the partner forever. Thousands of young women need operations in the first year after marriage. There are the many sexual incompatibilities. There are mental ailments, tuberculosis and other diseases.

YALE BOWL, New Haven, Conn., Nov. 16 (AP)—Yale defeated Princeton, 13 to 0, in a game in which the Blue did all its scoring without the services of Albie Booth, its star back, who was out of the game with injuries. Yale did not need Booth for it had Don McLennan, a high stepping substitute who placed the winner in position to score both touchdowns.

which might flare up soon after marriage and mean unforeseen expense, just when money is most needed. There is the great question of the child. How many people really ask themselves before getting married if they both would make up an ideal pair to produce an ideal child? We should feel responsible for our children before they are produced, especially from the viewpoint of hereditary disease. Then there are the matters of outstanding characteristics such as mental ability, or inheriting a heavy only to find afterwards that she and her children lack intelligence.

We consider it our right and a sign of freedom to marry without knowing our partner-in-law, whereas it should be a duty to ourselves to know them. Laws of heredity have been found from the study of plants and animals, but we human beings feel ourselves too superior to consider the standpoint of the breeders. And future generations will blame us for this negligence.

BEWARE THE COUGH FROM COLDS THAT HANG ON

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is especially for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)
