EVIL OR GOOD—For every one that doeth evil beloveth the light, neither cometh to the light, lest his deeds should be reproved. But he that doeth truth cometh to the light, that his deeds may be made manifest, that they are wrought in God.—John 3:20, 21.

Abe Martin

The government's advance \$9,000,000 to California grape growers to move their crop East, an' then use another \$9,000,000 tryin' to find out who's makin' wine, an' so it goes. "When it comes to an absolutely sure fire way o' makin' money it's sure hard to beat workin' fer it," said Joe Kite today, as he glanced o'er the stock market.

son, when they noosed out the Victoria Cubs here last night two goals to 1. It was the first game of the 1929-30 season. The play was not up to par but was good for the spectators and was brightened up by some sparkling bits of hockey.

Eggs Weakening In Out-State Markets

PORTLAND, Ore., Nov. 19 (AP)—No changes were made in either egg or butter prices at the close of Monday's market. Egg quotations, however, were weakening at other markets, especially at Seattle, where declines of 4 cents on extras and one cent on mediums were reported Monday.

Reviewing the fruit and vegetable situation, the Portland News Bureau of the United States Department of Agriculture says: "Continued cool weather is prolonging the fall cauliflower season. With about 40 cars estimated available a week ago, loadings have been curtailed to 2 cars daily. Since that time on account of delayed maturity, moisture and warmer weather would still increase total cauliflower shipments from the district.

Lettuce continues to arrive from The Dalles in small quantities, but quality is inferior, with a prevalence of frozen stock.

BUTTERFAT

SAN FRANCISCO, Nov. 19 (AP)—Butterfat 1 c. b. San Francisco, 54c.

PORTLAND LIVESTOCK

Foshay Explains Friendly Action

MINNEAPOLIS, Nov. 19 (AP)—Liquidation of the assets of the three W. B. Foshay holding companies in an orderly manner was one of the purposes of the friendly receivership action involving the companies, J. E. Brill, of counsel for W. B. Foshay, said yesterday.

Mr. Brill asserted that the action of the receivership had been generally misunderstood. It did not involve a bankruptcy petition as was stated in first reports and carried by The Associated Press.

He said it was a petition for receivership brought in a friendly manner in federal court by officers of the company with the companies' consent.

OLD CLIPPING TELLS OF GAME

(Continued from Page 1)

opponents two points instead of losing six.

Some of the Features

"James Woodell, of the college, fully justified the confidence reposed in his sprinting ability. He

made one particularly pretty round-end run of thirty yards, scoring a touchdown, this being the first touchdown in the county. In the second half, Charles Hunter of the college secured a touchdown on a run of sixty yards. Heavyweights Kelly Taylor and E. O. Fuller did good rush-line work for the college.

"The high school boys fought nobly, but to no purpose. They console themselves in defeat by the thought that they can play basketball, having beaten the college nine three straight games last fall. The players Thursday were as follows:

E. O. College

| | | |
|----------------|------------|------|
| E. O. Fuller | Center | Rush |
| George Cochran | R. Guard | |
| D. M. Oliver | L. Guard | |
| Kelly Taylor | R. Tackle | |
| B. Slack | L. Tackle | |
| J. Ruckman | R. End | |
| C. Simmons | L. End | |
| Ellis Kirtley | Qr. Back | |
| Chas. Hunter | H. Back | |
| James Woodell | L. H. Back | |
| R. Mitchell | P. Back | |

High School

| | | |
|-----------------|------------|------|
| Earl Stevens | Center | Rush |
| Oscar Simmons | R. Guard | |
| Will Dunn | L. Guard | |
| Chet Newlin | R. Tackle | |
| Adney Rogers | L. Tackle | |
| Ben Grandy | R. End | |
| Homey Clark | L. End | |
| Louis Hooker | Qr. Back | |
| Allen Eaton | H. Back | |
| Tom Williams | L. H. Back | |
| Claude Richards | P. Back | |

"J. H. Peare acted as referee, Carl Row as umpire and H. M. Hubby as linesman. The decisions were all satisfactory.

"In the evening the young players 'buried the hatchet' and partook of a fine banquet spread at 'Umland's' hall by the young lady students of both schools. Their appreciation of the same is shown by the following:

Card of Thanks

"We, the members of the La Grande high school and E. O. college football teams desired to express our thanks for, and appreciation of, the bounteous banquet spread in our behalf by the ladies of our respective schools, (signed) Allen Eaton, L. B. Mitchell, Chas. Hunter, committee."

The above item definitely establishes who were the actual "football pioneers" in Union county. Incidentally, most of the above mentioned men who are still living, invariably attend every football game played in their locality, indicating that their interest in the game they introduced to this section has grown with the years rather than diminished.

"Severe Earthquake Rocks New England." That's news that would earn a headline in type three inches high in California papers.

Senator Hefflin calls Mussolini the "world's most dangerous man." We have never enthused particularly over the Italian dictator's contribution to human welfare but almost anyone would prefer being most dangerous to most ridiculous.

The Toronto Star is complaining because electric service rates have increased so heavily under public ownership, so we read in the Oregon Voter. "The rates it quotes are materially higher for Ontario than for the American side of the line. Yet on the American side, the private utilities pay taxes; under the Ontario hydro system, no taxes. Taking tax factors into consideration, the American rates under private ownership are far below Ontario rates under public ownership." Which indicates, very probably, that everybody's business is usually nobody's business. Inefficiency and waste too easily creep into a public operation. Private operators are efficient, thrifty because they have to be to make a profit; and they have to make a profit to keep in existence. Until someone discovers a type of public servant who is consistently competent and as ardent in working for the public as he would be working for himself, private ownership is safer, cheaper for the ultimate consumer.

The appointment of Secretary Good to the Hoover cabinet was hailed by many observers as a pure political reward for service rendered during last year's campaign. It is true that Good had managed the Hoover campaign in the west and had, many believe, been the chief political advisor of the republican candidate throughout the pre-election operation. Good was a very successful politician, if sincere and active interest in the affairs of government makes a politician, but he was also a keen executive and a fine citizen. During the war it was James W. Good, congressman from Iowa, who led the fight for increased pay for the enlisted man in our army. It was Good who sponsored the bills that would have made industry bear the burden of conscription as well as manpower in future wars. A staunch republican, Secretary Good served his party well that he might serve his nation better. In less than a year of cabinet service he had become a member of outstanding ability and character. His death is not only a loss to the republican party and the Hoover administration but a loss to the country as a whole.

TAX CUT GENERAL

Stock values had been ballooned, purely upon speculative hopes, to prices far beyond their real value and earning capacity. The balloons have been punctured, the gas has poured out. But the earning values have not been diminished, save to the extent that stock market losses may have temporarily disturbed individual operations. Fundamentally, the business of the nation has been unaffected.

Confident of this, the treasury department at Washington finds a federal tax cut of \$150,000,000 next year justified by business conditions and revenue prospects. Tax reduction to this extent has the approval of President Hoover and Secretary Mellon, both of whom have consistently shown a reluctance to flirt with a federal treasury deficit. When these two gentlemen talk of tax cutting, it can be depended on that the surplus is there to meet the cut.

Secretary Mellon's reduction plan is a matter of considerable importance. It would reduce corporation income taxes one per cent, cut the tax on a \$4000 income from \$60 to \$20 and the tax on an income of \$8000 from \$180 to \$100. If opposition to the plan develops, it will come from non-participating individuals with incomes in excess of \$8000 a year.

Corporations have been crying for tax relief and the administration has been inclined to heed that cry in the belief that tax-burdened business is not a healthy business. As for the income in the lower brackets, the government feels that it is less able to pay a small tax than large incomes a heavy tax.

May congress do nothing in the way of extravagant appropriations to deprive the prospective beneficiaries of this boon. More prosperity follows lower taxes and greater tax receipts follow greater prosperity. That has been the record of recent years.

VANCOUVER WINS

VANCOUVER, B. C., Nov. 19—Over 1000 spectators were present in a game that gave promise of being one of the best of the season. Vancouver won 1-0. The game was played at the Vancouver arena. The Vancouver team was coached by Coach J. H. Peare. The Vancouver team was composed of the following players: Earl Stevens, Oscar Simmons, Will Dunn, Chet Newlin, Adney Rogers, Ben Grandy, Homey Clark, Louis Hooker, Allen Eaton, Tom Williams, Claude Richards, J. H. Peare, referee, Carl Row, umpire, and H. M. Hubby, linesman.

why smokers graduate to

CAMELS—

The phrase "I've Graduated to Camels" originated with a Camel smoker. It expresses the experience of millions who through Camels have learned to know real smoking pleasure.

As taste in smoking develops, it naturally leads toward better quality. New smokers may not be critical but when they once experience the true mildness and surpassing fragrance of the Camel blend, they realize that here is a real superiority. It is for smokers of such discernment that Camels are made . . . for them the choicest tobaccos are selected . . . and this quality is maintained for the millions who know genuine smoking pleasure.

when they learn the difference they flock to

Camels
