Mrs. G. South Is Presented Gift By Club Women

By Mrs. M. F. Raymond
(Observer Correspondent)

PONDORA, Ore. (Special) — A lovely black leather brief case was given the Medical Springs Women's club by Mrs. George South, one of the founders of the club, at the regular meeting held in the school house. After the business session, art was studied for an hour under the leadership of the art chairman, Mrs. D. E. Nelson. At the close of the meeting refreshments were served by hostesses for the day, who were Mrs. Julia Duncan, Mrs. L. M. Judy, Mrs. H. W. Riedell. The next meeting day falls on Thanksgiving so club is postponed until Friday.

Seven boys ranging in age from 6 to 13 went for a hike Saturday going about 16 miles. They went to the Twin Baby mine, then over to Hegman's old mill. Morris Robertson and Francis Smith, being the oldest of the group, assumed leadership. Others in the party were John and George Earl Murray, Leonard Lark, Harold Lewis and John A. Smith.

Sunday dinner guests of Mr. and Mrs. P. J. Powers included Mr. and Mrs. Blaine Hallock, of Baker, Mrs. Zuber and daughters, Mrs. Ben Noyes and Mrs. Laura Childs and Mr. Noyes. Mrs. Childs, whose home is in San Francisco is visiting her mother, Mr. and Mrs. Clair Berther and Mrs. Ella Rynearson, all from La Grande.

Mr. and Mrs. M. O. Murray, Mrs. C. F. Robertson and son, Millard, visited Mrs. Mary Murray and Mrs. George Robertson over the week-end. Mrs. P. C. Cutler and twin sons, who are guests of Mrs. C. F. Robertson, accompanied the party. They are all from La Grande.

Mr. and Mrs. George South, of Huntington, spent the weekend with the W. H. Duncan family. The Souths were in business here for many years, moving to Huntington a year ago after being burned out at Medical Springs.

Mr. and Mrs. South, Mrs. W. H. Duncan, Elmer Kennedy and T. H. Williams attended a meeting of the Medical Springs-Baker telephone line held at Keating Saturday evening.

H. E. Bonham was pleasantly surprised Saturday when 25 friends came to give him a party. Mr. and Mrs. Otto Robinette furnished music for dancing. Near the close of the evening refreshments were served.

The Pondora meat market was closed Saturday evening. The market has been operated by the Baker Packing company for the last three months. The shop will probably reopen when the mill starts again.

Steam heat has been installed in the store and hotel as well as three dwellings near the hotel. The steam is piped from the planer.

Arthur Wight, of Seattle, who is driving through to Buffalo, N. Y., was a guest of P. J. Powers at Medical Springs Sunday. Mr. Wight is a chemist and has a position in an airplane factory.

Mr. and Mrs. M. F. Raymond drove to La Grande Sunday and spent the day with Mr. and Mrs. Henry Maxfield.

In giving the names of the officers elected in the grange, the name of Mrs. W. H. Duncan, secretary-treasurer, was omitted.

Mrs. David Johansen entertained the officers of the Primary association with a birthday dinner Monday evening. After the dinner, the business of the meeting was taken up, it being the regular meeting night. Six officers besides the hostess were present.

Health Talks

LIGHT IMPERATIVE IN THE CARE OF MEASLES

By Dr. Frederick H. Stricker

One of the earliest signs of an oncoming attack of measles is the reddened condition of the eyes. Tears may be noticed as excessive and almost ready to overflow the lashes during the stage of sneezing and coughing that precedes the skin eruption. These early inflammatory warnings in the eyes require no treatment. They are usually accompanied by some fear of light, and this fear of light has prompted the vicious care that is responsible not only for loss of eyesight but also for the loss of life of many children.

Probably more harm has been done by the old-fashioned notion that the child with measles must be kept in a dark room than by any other nursing fault. The fact that the tears are flowing and the eyes are a little congested is not sufficient reason for putting the child in a dark room. In no other disease of childhood are fresh air and good light so imperative in treatment. Fresh air is necessary to avert and counteract lung infection, the thing that kills these babies and children later from pneumonia; and good light, to help kill the germs of pneumonia and other germs often responsible for the serious eye conditions developing in later complications in measles.

Avoid eye complications in measles by banishing the fear of light. Keep the patient comfortable by adequate light and an abundance of fresh air. Extreme cleanliness is a necessity. Nothing stronger than boric acid solution should ever be used in the eyes. Assure comfort by having the patient's back to the light.

Too early use of the eyes at close range and for too long a period of time after any illness when the eye muscles are relatively weak and flabby, has been responsible for muscle faults. This fact becomes noticeable during convalescence.

The umbrella, we read, is 170 years old. The figure must be wrong, as several people have left older umbrellas than that at our house.

People who dropped a little in the recent stock fluctuations can clip the experts' opinions that the "country is basically sound" and give them to the first bill collector that calls around.

Precious Remedy For Rheumatic Pains

When you are tortured with rheumatic agony you want to get rid of it as soon as possible.

You want to be at work again because you want to bring home the weekly pay envelope as necessary to the comfort of your family. You want to drive all this suffering out of the system—and keep it out.

Broad minded pharmacists will advise Allenru because they know of the countless number of people it has helped.

They know it is a real remedy because of their training and because the makers of Allenru have so much faith in it that they authorize druggists everywhere to dispense it with the distinct understanding that one big bottle must do what the buyer expects it to do or money back. —Adv.
