Fall Season Ends; December Will Be Gay Social Month

Socially, Thanksgiving day was quiet in La Grande, with a great number of family dinners and reunions in observance of the day. It marked a temporary lull in activities here, and also the actual end of the fall social season.

In the weeks to come a number of important social events are scheduled to take place, ranging from bridge and pre-Christmas parties to important sessions of church societies, etc. In many respects, the month of December, coming before the most rigorous part of the winter, is the busiest of the year for the society matron. And it will be only a short time until the college and university students will pay their annual visit to the home folks during the year-end holidays, with the usual gay round of parties, dances and winter outings.

4 o'clock in the basement of the church.

The La Grande city council of the P. T. A. will meet Monday afternoon in the Sacajawea Inn.

The L. A. of B. of E. T. will meet Tuesday night at the Eagles hall for election of officers.

The Women of Mooseheart Legion will meet at the home of Mrs. Bailey on Spruce street tonight. Games and cards will be played. All members and their husbands are invited. Mrs. Wallace Case will be assistant hostess.

MENUS

By Sister Mary
Popular and delectable as they are, "flap-jacks" are not a suitable daily food for the average person of sedentary habits. With this in mind the housewife should serve them as an occasional treat.

Since the ingredients for making griddle-cakes are always at hand, they make an excellent emergency dish for a simple and satisfying luncheon or supper.

Some of the varieties of griddle-cakes which we have borrowed from European countries are substantial enough for main dishes. The addition of meat or vegetables changes them from a bread substitute to a hearty concoction to serve with gravy.

The English method of serving plain wheat cakes adds interest to a company breakfast or Sunday evening supper. The cakes are baked as large as a supper plate and are spread as they are baked with butter and jelly or sugar or marmalade, and piled one cake above the other, layer cake fashion. They must be kept warm un-

German Capitalist's Son Secretly Wed

There was a wedding of distinction, but it was without social or diplomatic pomp. For Dr. Edmund Stimes, eldest son of the late Hugo Stimes, fabulously wealthy German industrial magnate, was married secretly in York to pretty Miss Marga von Gaevernitz. She is the daughter of a former president of the German Reichstag. They're planned to meet her soon after the ceremony.

all are baked. Cut in wedge-shaped pieces, pie-fashion, to serve.

Potato Griddle-Cakes
Two cups grated raw potatoes, 2 eggs, 2-3 cup flour, 1 teaspoon salt, 1 teaspoon baking powder, 4 tablespoons milk.
Pure potatoes and let stand in cold water for several hours. Drain and grate. Beat eggs well and add grated potato. Mix and sift flour, salt and baking powder and add to first mixture. Beat well and add milk gradually. Drop from tip of heaping spoon onto a well-greased griddle. Bake until brown, first

19 FIRES INCENDIARY

GRANTS PASS, Ore., Nov. 28 (AP)—Records in the hands of officials of the United States forest office here today revealed that 19 of the latest fires reported in the Siskiyou national forest were of incendiary origin. Several of these blazes were giving rangers serious troubles, but two, located almost directly on the Oregon-California line, were being held, latest advices from the fire lines indicated.

Scriptural Fowls

Partridges are noted in the Old Testament. The fatted fowl (1 Kings, 4:34) is interpreted as either goose or duck. Cocks and hens were brought from Persia two or three centuries before Christ. A tomb at Marissa, of about 200 B. C., has a good representation of a crowing cock. Sparrows and other "chattering birds" were also used for food.

Woodpecker's Larder

Human beings are not alone in making provision for a "rainy day." Woodpeckers in California gather acorns and place them in heaps during the summer in holes pecked in telephone poles. In winter when they cannot dig for worms, the birds go to these acorns, which have then developed worms inside them.
