

All-Star Major League Team Is Selected Today

ST. LOUIS, Dec. 4 (AP)—The two major leagues in baseball shared honors equally in the 1929 all-star team of the Sporting News. St. Louis baseball newspaper, named by the votes of 187 members of the Baseball Writers association, and announced today.

Each league played five men on the team, which includes two pitchers and one player for each of the other positions.

An outstanding feature was unanimous selection by the scribes of Mickey Cochrane, of the world champion Philadelphia Athletics for the catching position. He received all 187 votes. Three of his team-mates also were chosen.

Members of the team are: Al Simmons, Athletics, left field; Hack Wilson, Chicago Cubs, center field; Babe Ruth, New York Yankees, right field; Jimmy Foxx, Philadelphia Athletics, first base; Rogers Hornsby, Chicago Cubs, second base; Pie Traynor, Pittsburgh Pirates, third base; Travis Jackson, New York Giants, shortstop; Mickey Cochrane, Athletics, catcher; Lefty Grove, Athletics, pitcher; Burleigh Grimes, Pittsburgh Pirates, pitcher.

The team has a batting average of .327 and if the pitchers are excluded, the average is .346. The two pitchers have won a total of 37 games while losing 13 for an average of .749 for the season.

Several players were chosen by overwhelming votes. The race for first base was close between Foxx and Bill Terry of the Giants; Grimes was closely pressed by George Earnshaw of the Athletics for the second pitching position, and Hack Wilson had competition for the center garden position.

The Sporting News has sponsored selection of the team for five years and Hornsby is the only player to be named on all five teams.

Stolen Violin Is Found Under Log Near Kamela

By Mrs. C. E. Thornburg (Observer Correspondent) KAMELA, Ore. (Special)—A violin in case was found beside the railroad tracks near Kamela by Mr. Finas, section foreman. It is thought to be the violin which was stolen from Miss Donna Scott, La Grande violinist, while she was attending a dance in Kamela last May. Her suitcase, violin and auto robe were stolen from a car and until now no trace had been found of the missing articles. Miss Scott valued the violin as a keepsake from her father in addition to its monetary value. Mr. Finas was walking on the track when he noticed the buckles on the case shifting from underneath a log and on investigation found the violin in the case. The lock had been torn open and both the violin and bow somewhat damaged, making it look as if the thief were of the vandal type. Although it has probably lain out for all these months, the violin does not seem to be seriously injured on that account.

Instruct Prohi Agents On the Best Methods

WASHINGTON, Dec. 4 (AP)—Lectures on the "proper and lawful" methods of prohibition enforcement have been given to agents in every section of the country. Secretary Mellon informed congress today, and all agents now have specific instructions regarding the rights of citizens under the constitution.

The secretary, in submitting his annual report, did not mention controversies which have stirred congress over the use of firearms by enforcement officers but he said that lecturers and instructors had emphasized the "proper method of securing search warrants and of executing them, and the technique of making investigations of the larger and more important cases."

The operations of the treasury department in the enforcement of prohibition are becoming more stable and more effective," he said. "The activity and cooperation of the several bureaus engaged in these operations are making the business of violating prohibition laws more difficult and hazardous."

During the fiscal year 1929, the report said, prohibition agents had arrested 66,878 persons, seized automobiles valued at \$2,879,613 and 89 boats valued at \$269,845.

The prohibition bureau, it continued, was fast being placed under civil service and it was expected that within a short time all appointments of agents would be under civil service.

FOLLERIN' THE BAND

WHO hasn't "follerin'" the band up Main street, or up Broadway or Michigan boulevard? Heart pumping joyously, feet beating the ground in time! Grandly intoxicating moment of childhood! And—later in life—who hasn't felt a thrill as the conductor lifted his baton for the overture to begin? A moment pregnant with the glamour of the theatre! Music casts its spell throughout all the Ages of Man. It is wise then, in this enlightened and prosperous day, to countenance substitution of a shadow of music for the real thing in the theatre? Imagine the Irish following a Music Box on St. Patrick's Day! Or file and drum, and by a Machine on Memorial Day! Is congress? Of course, but not more so than a mechanical overture in the theatre. Talking pictures—a new dramatic form; the radio—which transmits music directly and DOES reflect the artist's mood of the moment; the phonograph in the home—where living music usually is not available—are not at issue here. We are discussing only the SUBSTITUTION OF MECHANICAL MUSIC FOR REAL MUSIC IN THE THEATRE. In consequence of which REAL Music is being eliminated in theatres.
