Greenleaf Wins From Taberski, Breaks Records

DETROIT, Dec. 17 (AP) — The two greatest performances ever made in pocket billiards are listed to the credit of Ralph Greenleaf today. The former champion, now possessor of second place in the world's title tournament in progress at the Recreation building shattered the world's marks for high run and best game when he defeated Frank Taberski, defending titleholder, by 125 to 0 in two innings. Greenleaf made a high run of 126, this being possible when he scratched on the break shot. This was the third time during the tournament that Greenleaf's old mark of 101, made in 1924, was broken. Last Friday night Erwin Rudolph, present tournament leader, had a high run of 111, and he ran out in four innings for a new record. Yesterday afternoon Rudolph had a high run of 104 against Marcel Camp. The score of that game was 125 to 9 and the game lasted six innings. Greenleaf played perfect billiards throughout. He went through nine straight frames of 14 balls each and his position play was without flaw. He had a few difficult shots and the machine-like precision with which he ran off point after point held the capacity crowd spellbound. He required 49 minutes to finish the game and it took more than 15 minutes for the trail cue hero to make his way from the scene of his triumph.

Baltimore—Sidney Lampe, Baltimore, outpointed Johnny Sheppere, Boston, (10).

George C. Branch. 12-17-1tp

Are YOU Getting YOUR MONEY'S WORTH In Entertainment?

The American people pay more generously for entertainment than any nation on earth. Their generosity has enriched the motion picture industry.

Spoken dialog has come to replace the subtitle of the silent picture. Tagging along with the talkies comes Mechanical Music—an economy.

Real Music is being ordered out of many theatres in favor of this new comer, who never dared a theatrical appearance until he gained the protection of the Talking Picture's novelty and the magic word "Synchronized." Now synchronization with a picture does not give Mechanical Music the quality of Real Music.

Banishment of Living Music represents a loss for the theatre patron. Is this loss balanced by the substitution of Mechanical Music?

A very great many theatre-goers will answer:

"NO!"

Then why should the aforementioned American people, who pay so generously for entertainment, be required to take less for their money than they were wont to get?

THE AMERICAN FEDERATION OF MUSICIANS
(Comprising 140,000 professional musicians in the United States and Canada)
