New Fireproof Wood

One of the most important uses to which straw has been put is that of making a new kind of wood called solomite. The straw is compressed, under a pressure of 200 pounds to the square inch, in a machine which interlaces it with wire. The machine can turn out four thousand square feet of board a day, and a remarkable feature of the wood is that it is fireproof.

"Ghost" Only Rabbit

Pupils of the school of Hinesburg, Scotland, were recently thrown into a panic by the sudden appearance at the side of the blackboard of what they took to be a fluttering apparition in white. They ran home and told of the appearance of either a ghost or an angel. Parents investigated and found that a very large white hare had gotten into the schoolhouse and had been seen to jump from behind the blackboard.

Began a Big Industry

The shoe industry of this country was begun in 1629 by Thomas Bond, who came over on the Mayflower on his third voyage and brought hides for making shoes. Seven years later Philip Kertland of Buckinghamshire began making shoes in Lynn, Mass. Since that date the state of Massachusetts has come to lead the world in the manufacture of boots and shoes.

Artistic Taste

Until we learn to appreciate the cherubs and angels that Raphael scatters through the blessed air, in a picture of the "Nativity," it is not unkind to look at a Dutch fly settling on a peach, or a hunchback hurrying through a flower, in Hawthorne's Journal.

Penny an Old Coin

It is curious, but true, that that most common coin, the penny, is the most ancient of our coinage, and is the only one left which was known to our Anglo-Saxon ancestors. They called it "penning," which has been corrupted into "penny."

Klamath to Seek Railroad Shops

KLAMATH FALLS, Ore., Dec. 18 (AP)—The Union Pacific railroad, which the interstate commerce commission ordered to construct a cross-state rail line from Crane to Crescent, will be invited to make this city its western terminus. The invitation will be extended by the chamber of commerce. Klamath Falls had neither promoted or opposed the cross state line. Chamber directors argued it would be uneconomical for the Union Pacific to stop at Crescent Lake when the Klamath basin tonnage is available. The city, according to the directors, stands ready to cooperate.

Name Disqualified Her

Two French ambassadors negotiating a marriage between their king and one of the Spanish princesses, chose Blanche even though she was less suited and less beautiful, for the other bore the name Urraca, a name that would never do for a queen.

BUTTERFAT

SAN FRANCISCO, Dec. 18 (AP)—Butterfat f. o. b. San Francisco, 43c.

EGG PRICES WEAK

PORTLAND, Ore., Dec. 18 (AP)—Egg prices continue weak but without change. The Pacific Co-operative Poultry Producers, who have taken the lead in egg quotations since the Portland dairy exchange went out of existence, denies a reported further egg decline.

Butter values are also weak because of the large holdings in storage.

New Search For Men Is Planned

ST. HELENS, Ore., Dec. 18 (AP)—Judge member friends of R. H. Dehn and C. G. Seaberg, St. Helens business men, lost 10 days in the wilds of Clark county, Washington, today announced plans for a new search of the Skousson river for the men who have been given up by others as dead.

Dehn and Seaberg disappeared a week ago last Sunday when they went into the Clark county country to inspect a mining claim. Dehn's automobile was found where the pair left it alongside a highway.

At one time more than 10 men beat the brush of Clark county, but with the exception of Seaberg's son, all abandoned the search and returned to their homes in La Center and Vancouver, Wash. Searchers declared they had tramped every inch of the area, but had found no traces of the lost pair.
