Each Year More Mothers Treat Colds Externally

The Dangers of "Dosing" Colds Now Avoided by Use of Modern Vaporizing Ointment.

When Vicks VapoRub was introduced, mothers especially were quick to appreciate it, because it is just rubbed on and cannot upset children's delicate stomachs, as "dosing" is so apt to do. Today, the whole trend of modern medicine is away from needless "dosing."

As more and more mothers adopted this modern external treatment, the fame of Vicks spread until today it is the standby for colds—adults as well as children's—in over 60 countries.

Just rubbed on throat and chest, Vicks acts through the skin like a plaster, and, at the same time its medicated vapors, released by the body heat, are inhaled direct to the inflamed air-passages, loosening the phlegm and easing the difficult breathing.

Ever-increasing demand for this better method of treating colds is shown in the famous Vicks slogan, "Made famous when Vicks reached '17 Million Jars Used Yearly'—later raised to '21 Million'—there are now 'Over 26 Million Jars Used Yearly.'"

ATTENTION!

If you will shop carefully you will find our prices are the lowest in town.
