MORE LAND IS PURCHASED BY ORGANIZATION

The La Grande Gun club today purchased 11 acres additional land from Ernest DeLone, adjoining the eight acres the club already owned at the Lone Tree trap grounds. The

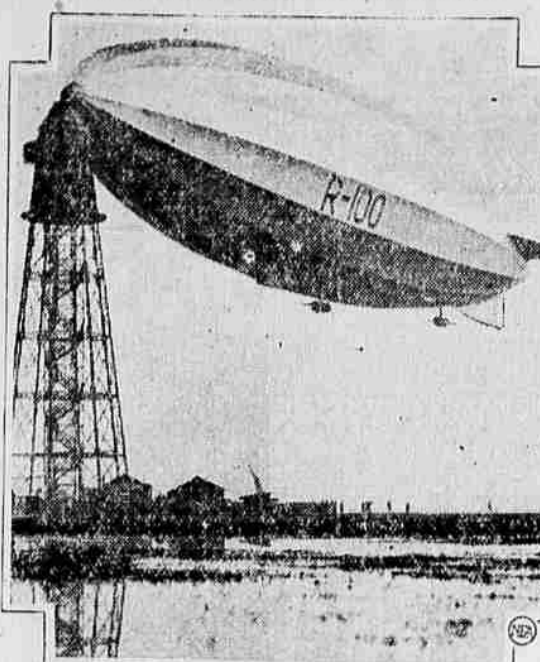

land purchased today is between the airport and the present grounds and will give the club plenty of room to get back from the highway to put in traps and the projected club house.
As soon as weather permits the club house will be erected, the traps will be installed, and the club will be ready for the scatter-gun artists to bang away at the elusive clay pigeons.
In order to finance this, the club is putting out life memberships for ten dollars. Sixty-five men already have taken advantage of this, and it is expected that more will sign up, club officials say. In this way the club will pay for itself in a year or two and after the capital outlay is retired, the club will be self-sustaining.
According to the officers, the new clubhouse, traps, etc., will be valuable addition to the community. The club plans to stage registered shoots, that will entice many out-of-town motorists. Last year the Oregon state shoot was held at Eugene, lasting three days, and bringing in shooters from over all the Northwest, and it is hoped some day to bring this shoot to La Grande.
The club is also looking forward to participation in the annual telegraphic shoot.
Financial plans are to keep enough money in the club treasury to provide for game protection emergencies, etc., as well as maintenance of the club grounds.

Egg And Butter Prices Weak But Unchanged Today

PORTLAND, Ore., Jan. 11 (AP)—Egg and butter prices were still weak today, but no changes were announced.
Reviewing the fruit and vegetable situation, the Portland bureau of the United States department of agriculture says:
"Local supplies of bunched root vegetables are entirely depleted on the wholesale market. Storage supplies of sacked vegetables are liberal though, and are still cheap, although with slight price advances. Carrots are especially plentiful with supplies adequate for Portland's consumption for several weeks. Much of the field supplies of these crops will be ruined, as snow fall was generally inadequate for protection against the present cold weather.
"Many California carrots, in crates of 5 dozen bunches each, moved readily at \$5.50 per crate to retailers.
"Potato movement to jobbers, and to retailers, is much more active this week. The local potato market is firm, and sales to jobbers are a shade higher.
"After several days of unusual activity on the wholesale fruit and vegetable market, trading was very light, being confined to retailers' actual necessities, on account of the cold weather, rendering motor-truck hauling subject to freezing."
