A few days ago an interview was carried here, which the reporter for a Salem paper had had with W. A. Hudleson, prominent resident of the North Powder community. The Oregonian carries another which speaks of one of the industries at North Powder which goes at its height at this season of the year. The interview reads as follows: This weather in Portland doesn't bother W. A. Hudleson, a general merchant of North Powder, registered at the Imperial. When there is cold weather in Oregon, North Powder can always be depended on to have its share. In fact North Powder weather can get so cold that for years it has derived revenue from this climatic condition. It is from North Powder that for a long period railroads have secured their supply of ice for refrigerator cars, and the ice harvest is an important industry. In speaking of the ice harvest at North Powder, the current issue of the News tells of this year's immense crop: About ten days more of continuous freezing weather will thicken the ice on the pond of the P. F. E. here so that operations for this year's crop will begin, according to H. P. White, manager for the company's North Powder plant. The ice is about seven inches thick at present, and at least 12 inches is wanted.

The company will fill its storage, taking 11,000 tons, and will ship 40 railroad carloads in addition, Mr. White stated.

The ice harvest for the big plant furnishes needed mid-winter employment to many men here.

Consolidation Of Two Papers Recalls History

The following account, appearing in various newspapers last week held an unusual interest for readers who live in this valley, particularly those who are acquainted with Mrs. Nellie R. Grace, librarian at the Cove. The story read as follows: "Burns' two newspapers, the Times-Herald and the Burns News, both founded by Nellie R. Grace, 42 and 40 years ago, respectively, were merged January 1 and will be known as the Burns Times-Herald, owned by the Burns Times-Herald corporation, with the publishers of each of the papers as principal stockholders.

"Julian Byrd, publisher of the Times-Herald, who began his apprenticeship on the paper that he now owns, is editor of the new and larger publication. Douglas Mullarky, publisher of the News, is business manager. The building now used by the News and owned by Mr. Mullarky is occupied by the consolidated newspaper."

Upon being interviewed Mrs. Grace gave out the following brief and concise history of the two news sheets, with whose beginning she played such a big part.

Mrs. Nellie R. Grace, with her husband, David L. Grace, started the Burns Times-Herald, a seven column folio, November 1887. This paper was sold to the Byrds in 1889 when her apprentice, Julian Byrd, an 18-year-old boy became editor-in-chief, a position he still holds in the merged papers.

In January 1892, Mrs. Grace, with her husband, established the Harney County News. This paper was sold to Douglas Mullarky in 1899, this gentleman being the business manager of the merged papers.

Julian Byrd is a cousin of Commander Byrd. On the graduation of the daughter of Julian, Miss Evelyn, she went east and was entertained by Commander Byrd.

Mrs. Grace was born in a little town in Kentucky, Feb. 11, 1844. She spent much of her early life in St. Louis, Mo. She was educated for a school teacher, but after spending several years in that profession, she entered the newspaper field. She married David L. Grace, a newspaper man, June 15, 1879. They came west in 1887 reaching Burns, Ore., in July and in November started their paper.

After this paper was sold, they did job printing. This work they carried on after starting the Harney County News until they sold out in 1899. They then came to Cove where they bought their home. Mr. Grace died June 15, 1900 at almost the hour of their marriage, 21 years before.

Mrs. Grace has been a writer of much versatility but her most loved art has been her newspaper work. For 12 years she has been librarian of the Cove public library. Since the death of her sister, Miss Ida Roberts a year ago she has been engaged in getting a book of poems, written by Miss Roberts, ready for publication.
