THE POWER OF THE SON—Verily, verily, I say unto you, The hour is coming, and now is, when the dead shall hear the voice of the Son of God; and they that hear shall live. For as the Father hath life in himself; so hath he given to the Son to have life in himself.—John 5:25, 26.

CHICAGO'S FIX

Chicago's unenviable financial situation ought to be a salutary object lesson to other American cities. It is the direct outcome of the kind of politics that Chicago has permitted to flourish during the last few years. Inefficiency, graft, favoritism and chicanery in city government always breed evils that cannot be dodged. Chicago, having put up with political skull-duggery for a long time, is paying the price at last. Her city treasury is empty, she has had to reduce her police and fire forces below the danger level, every city activity is being hampered—and, once again, Chicago is giving herself a lot of bad advertising.

What the rest of us should realize is that this is what always follows on the kind of politics that Chicago has been indulging in.

PAPER

When one reads his newspaper he may ponder on the tremendous amount of paper consumed daily by the thousands of newspapers published on this globe, but the chances are he supposes relatively little paper is consumed for other purposes. The fact is that the uses for paper are so numerous that the layman can no longer tell what is and what is not made of paper.

All are familiar with paper for reading matter and paper for writing material; with paper for wrapping; with wall paper, paper partitions and paper novelties, toys and ornaments; with paper profits and fortunes on paper.

Many of the most important usages of paper are unknown as such to the average man. There are paper wheels for railroad cars, for instance. Fire buckets are often paper beneath their bright coats of red paint. Recently paper barrels have appeared on the market. The latter are made of coiled paper rope and are lighter, stronger and cheaper than their wooden prototypes.

Legion are the domestic uses of paper products. Shelves are covered with paper, paper is used to start the fire and line the garbage can. Paper under the rug and table cloth protect the rug and the polished table-top. The window washer is learning from the jeweler and optician that paper has no peer as a glass polisher and cleaner.

As all but the finer grades of paper are made from wood pulp it is not surprising that the paper-consuming public, and that includes everybody in the civilized world, is concerned over future sources of timber supply for the paper mills.

Abe Martin

"Girls look lots better in the winter than they used to in the old sleigh-riding days of rambling noses and cracked cheeks," sighed Tell Binkley when in a reminiscent mood today. Conscience is that invisible something that warns us that we're either going to get poisoned or catch the Dickens when we get home.

and tear bombs to halt run-running.

LOS ANGELES — Two earthquakes shake Southern California.

NEW YORK — Terranova arrested on charge of acting in concert with men who held up vital dinner.

CHICAGO — High water causes heavy damage in Indiana, Ohio, Illinois, Kentucky, and Missouri, driving families from homes in bitter weather.

DENVER — Rocky Mountain region shivers as temperatures range from few degrees above zero to 28 below.

SAN FRANCISCO — Many snow-bound on Pacific slope.

GREAT FALLS, Mont. — Only one of seven army planes succeeds in attempt to cross Rockies in bad weather.

NEW YORK — Seven railroad coal barges sunk by collision with freighter.

DIXON, Ky. — Bodies of two men recovered from coal mine sealed after explosion Saturday.

S. S. GEORGE WASHINGTON — Senator Reed and Robinson support Stimson's view that Anglo-Japanese and Franco-Italian problems do not concern Americans at naval conference.

LONDON — Dispatches tell of wrong drug in eye test blinding 40 children at clinic in Kesarian, near Athens.

BIRMINGHAM — Reports from Brazil say 15 have died and more than 100 are ill with typhoid fever.

BERLIN — Four killed, many injured in Communist clashes with police in various German towns.

ROME — Prince Humbert and bride preside at international military steeplechase.

No Big Change Is Expected In Radio This Year

By C. E. Butterfield
Radio Editor
(Associated Press Feature Service)

Little if any radical change is to come in the radio receiver in 1930, if the present trend is an indication.

It is proposed to continue the first screen grid year into the next with the lessons learned in the tube's use practically applied.

Improvements are expected to be reflected in employing fewer tubes per set, observers say, as has been forecast by development of circuit alterations to meet requirements of the screen grid.

Apparently there is to be a greater concentration on lower priced, with numerous indications that slightly under \$100 will be the top figure for quite a few lines.

Cabinet design, with receiver and speaker as one unit in a console, is expected to adhere to the plan of making the receiver fit in with modern furniture requirements.

In the industry itself there are further evidences of a renewal of stabilization, coupled with an effort to make production match market needs more closely. A few of the 1929 lines, not more than a half dozen, probably will be out of the picture in the new year.

PARROT DISEASE IN L. A.

LOS ANGELES, Jan. 16 (AP)—Declaring one man has died and two women are seriously ill here from a disease believed to be psittacosis, or parrot fever, Dr. J. L. Pomeroy, head of the Los Angeles county health department, today reiterated a warning that all recently purchased parrots must be quarantined.

The death last week of E. O. Johnson, at first ascribed to pneumonia, now is believed to have been caused by parrot fever, Dr. Pomeroy said.

ARMY OFFICER DIES

OMAHA, Neb., Jan. 16 (AP)—Lieutenant Colonel D. C. T. Grubbs, 50, assistant chief of staff of the seventh army corps area, died today of injuries received last night when his automobile was catapulted 25 feet in a collision with a Chicago and Northwestern freight engine on a boulevard crossing here.

SHIPPING FROZEN UP

PORTLAND, Jan. 16 (AP)—The three Portland fireboats were frozen tight in ice in the Willamette river today and efforts this morning to release them from winter's grip were unsuccessful. Much shipping and towing in the Columbia and Willamette rivers has been tied up by the river ice.

inhabited district, having not more than one or two permanent homes within an area of several hundred miles. That would explain the fliers' long absence and silence."

QUAKE, COLD, FLOODS HIT OVER NATION

(Continued from Page One)

Temperatures were higher last night in all Pacific coast states, except in portions of Nevada, northern Washington and Idaho. More snow was predicted for these regions today.

Rising temperatures and heavy rain in California melted snows in the mountains, causing miniature floods, landslides, freak tides and disrupting temporarily air and railroad travel.

In northern Idaho and eastern Washington, snow reaching blizzard proportions accompanied by high winds, started falling at midnight. Temperatures were comparatively warmer, although the mercury hovered near zero in most sections.

The coldest place on the entire North American continent last night, according to weather bureau

Radio Listeners Get 1,252,802 Hours

WASHINGTON (AP)—Radio listeners in the United States get a grand total of 1,252,802 hours of broadcasting in a year. This is the aggregate time "on the air" of all program stations in the country, according to figures compiled by the federal radio commission.

Total time devoted to chain programs is 11 per cent of 156,831 hours. The aggregate used for station programs and the promotion of good will for the broadcaster's

own business amounts to 639,831 hours or approximately 51 per cent. The total time sold by stations, exclusive of chain programs, is 419,426 hours or approximately 33 per cent.

To maintain a high powered 50,000 watt station, like WTIC, KDCA it costs an average of \$265,707, the commission estimates.

WHERE SAWS ONCE BUZZED

PARSONS, W. Va., (AP)—More than 2,000,000 young trees are being set out to take the place of those which were saved and quartered in a mill here several decades ago.

The new trees will be planted in national forests in Pennsylvania, Tennessee, Virginia and North Carolina. One thousand acres yearly will be re-planted in both the Alleghany and Monongahela forests.

MENUS

By Sister Mary

It's up to the cook to serve steaming hot chowders and savory roasts to combat the cold days.

But along with this hearty fare, vegetables and fruits must not be overlooked. Good brands of canned vegetables and fruits are preferable to stale and wilty "fresh" ones.

Root vegetables are important at this time of year. Their bulk, especially, plays an important part

Stuffed Spareribs

Two or three pounds spareribs, 2 cups stale bread crumbs, 3-4 cup minced onion, 1-2 cup minced celery leaves, 1 tart apple, salt and pepper, 2 tablespoons melted butter, hot milk.

Wipe meat with a soft cloth wrung out of cold water. Trim off excess fat and crack bones across into serving lengths. Fill with the stuffing and bring the ribs together. Tie firmly with a strong cord. Rub with 2 tablespoons flour sifted with 2 teaspoons salt and 1-4 teaspoon pepper. Place in rack in roaster and add 1-2 cup boiling water. Roast in a hot oven for two hours.

To make the stuffing, pare, core and mince apple. Combine crumbs, celery, onion, apple, salt, pepper and melted butter. Add enough hot milk to make moist.

To serve, remove cord before sending to the table. Cut between ribs and serve a slice of the fore-meat surrounded by the rib.

BREAKFAST—Stewed dried peaches, cereal, cream, crisp poached in milk on toast, extra toast, milk, coffee.

LUNCHEON—Corn chowder, croquettes, raisin and orange salad, graham rolls, rice soufflé, milk, tea.

DINNER—Stuffed spareribs, southern stewed potatoes, combination salad, rye bread, apple pie de luxe, milk, coffee.

observations, was Edmonton, Alberta, Canada, where the mercury slid down to 42 degrees below zero. Other extreme low temperature readings were: Prince Albert, Sask., 40 below; Swift Current, Sask., 38 below; Prince George, B. C.; 32 below; Calgary, 34 below; Missoula, Mont., 32 below.

BEST FOR INDIGESTION

Thousands With Poor, Weak Stomachs Now Taking Pepsin in New Liquid Form.

PHARMACISTS PRAISE IT

Stops Acute Kind in Few Minutes—What a Blessing!

Here's a delightful elixir with about of real pepsin, some Menthol and just enough of several other stomach correctives to make it capable of putting almost any weak, rundown, abused stomach in first class shape—and it tastes like the most palatable nectar.

The men who created this supposedly good formula know their business—they don't believe in nasty tasting medicine and the people are with them for Dure's Mentha Pepsin—that's the name—is having a tremendous sale all over the country. They have passed along the word to every man, woman and child that brings serene comfort to any wornout, rundown, sickly, messy stomach that the owner of that most important internal organ can have his or her money back.

Stubborn indigestion of years standing is hard to get rid of, but Dure's Mentha Pepsin will do it; one enthusiastic druggist asserts.—It's real pepsin in liquid form—the right way to take pepsin. Red Cross Drug store always has a big supply on hand. —Adv.
