

SOCIETY NEWS

SOCIETY "DEADLINE."
Society news, in order to appear in the society columns, must be in the hands of the society editor each morning by 9:30 o'clock. In order to allow for preparation so that it may reach the composing room by 10 o'clock. It is requested that people call as soon after 8 o'clock as possible. The society page is "made up" in the morning, and in order to go to press in time to catch early afternoon stages that carry the papers to nearby towns, it is necessary to avoid any delays.

Club Women Of City Interested In Conference

Of special interest to club women of La Grande and of Union county is the home economic section of the economic conference to be held here Tuesday and Wednesday of next week at the La Grande hotel. This conference is arranged each year by the agricultural committee of the Union county chamber of commerce.

Mrs. Vera H. Brandon and Miss A. Grace Johnson, professors of home economics, school of home economics, O. S. U., will be special visitors to La Grande and will be prominent in the conference work. Mrs. Walter M. Pierce will also speak each morning mentioning books and reading, corresponding to the principal topics of the session.

Addresses for the first day are given about the home as a central subject. The second day, the child occupies the greater interest in the women's section.

The following two-day program was arranged by the extension service.

Sore Throats and Coughs

Quickly Relieved by This Safe Prescription

Here's a doctor's prescription that is really throat insurance. Sore or irritated throats are relieved and soothed almost instantly with the very first swallow. About 90% of all coughs are caused by an irritated throat; consequently for most coughs too there is nothing better than this famous prescription—it goes direct to the internal cause. It is put up under the name Thoxine and is guaranteed to stop coughs and relieve sore throats in 15 minutes or your money will be refunded. Singers and speakers find Thoxine very valuable.

The remarkable thing about Thoxine is that while it relieves almost instantly, it contains nothing harmful, is pleasant tasting and safe for the whole family. Ask for Thoxine 25c, 50c, and \$1.00 bottles sold by Fred Cross Drug Store.—Adv.

STATE THEATRE

LAST TIMES TODAY

MADAME X ALL-TALKING

STARTING WEDNESDAY

OUR MODERN MAIDENS
starring JOAN CRAWFORD
Also Comedy and Colored Classic

Vice of the Oregon State college with the assistance of Dean Ava B. Millam.

Tuesday:
10:30 a. m.—Management of family finances, by A. Grace Johnson, professor of household administration, school of home economics.
11:15 a. m.—General discussion, 11:30 a. m.—Reading for farm women, by Mrs. Walter M. Pierce.
1:30 p. m.—The home maker and her job, Miss A. Grace Johnson.
2:30 p. m.—What the child can contribute in the home, by Mrs. Vera H. Brandon, professor of household administration, school of home economics.
4:30 a. m.—Problems in child behavior, by Mrs. Vera H. Brandon, professor of household administration, school of home economics.
11:15 a. m.—The child in the home of today, Mrs. Vera H. Brandon.
1:00 p. m.—Books for children, Mrs. Walter M. Pierce.
1:30 p. m.—Problems of child feeding, Mrs. Vera H. Brandon.
2:15 p. m.—Training the child in the use of money by Miss A. Grace Johnson, professor of household administration, school of home economics.

Art Research Club Studying Japanese

Members of the Art Research club spent an interesting afternoon yesterday at the home of Mrs. Harvey Matthews, continuing their study of the life history and art of the Japanese.

Japanese poems were read by the members, for roll-call, Mrs. H. L. Hull was the chairman of the program committee. An interesting account, "The Life of the Emperor," was given by Mrs. Fred Kildie. "Laquer: Processes of Making and Some of the Artists," was an enlightening topic, presented by Mrs. Matthews.

Mrs. Donald Pague told of Mr. and Mrs. Michitaro Onogawa who gave a program of Japanese drama and dancing recently in Portland. They were sponsored by the National Drama club and by the Turph club of Portland. Mrs. R. E. Murphy related the legend of Montaro.

Miss Turner And J. Dell Burk Wed

At a quiet wedding ceremony Saturday, the nuptial services for Miss Irene Turner, daughter of Mr. and Mrs. H. B. Turner and J. Dell Burk, son of Mr. and Mrs. James Burk, all of La Grande, were performed at the home of Bishop Barclay of the L. B. S. church in Baker. Miss Nelda Anderson and Mrs. Endley were witnesses.

The newlyweds will live at the home of the brides parents for a while before moving to a home of their own.

Collegians From La Grande Active

At the Kwana ten given last week at the University of Oregon honoring all freshman women in the alumni hall of the Gerlinger building, two sophomores from La Grande took active part. They are Miss Anne Stange and Miss Lois Nelson, who are both prominent in campus events.

Freshmen of the University gave their first dance Saturday evening, January 18 in McArthur and the committees on arrangements enthusiastically prepared for this social event.

Miss Jane Stange, La Grande girl, was chairman of the patrons and patronesses committee and announced the following to be included in the list:
Governor and Mrs. A. L. Norblad, President and Mrs. Arnold Bennett Hall, Vice President and Mrs. Bert Brown Barker.
Johnny Robinson's (also of La Grande) Varsity Vagabonds furnished the music for the dancing.

Burglars stole thousand of dollars worth of radio sets in a raid on a factory the other day. There is some consolation in that, however; probably people would have bought them and tuned in.

Still More Millions Treat Colds Direct

Round-About Method of "Dosing" Gives Way to Modern Vaporizing Salve

More and more people each year are giving up the slow, indirect way of treating colds by "dosing" with internal medicines, and are adopting the modern DIRECT treatment—Vicks VapoRub.

Vicks goes DIRECT to the affected parts and checks the cold in two ways—its medicated vapors, released by the heat of the body, are inhaled direct to the inflamed passages; at the same time it acts direct through the skin like a poultice or plaster, "drawing out" tightness and soreness.

Vicks is especially appreciated by mothers because it is just rubbed on, and therefore, cannot upset children's delicate stomachs as "dosing" is so apt to do. Today the whole trend of medical practice is away from needless "dosing."

To keep pace with the ever-growing demand, the famous slogan, "17 Million Jars Used Yearly," was raised to "21 Million" a short time ago. This figure too has been outgrown, as there are now "Over 26 Million Jars Used Yearly"—a jar for every family in the United States.—Adv.

MORE VALUABLE MINERALS MINED

Output of Gold, Silver, Copper and Lead \$529,000 in Oregon in 1929.

PORTLAND Ore. (Special)—The total value of the gold, silver, copper, and lead produced in Oregon increased from \$296,446 in 1928 to about \$529,000 in 1929, according to preliminary figures prepared by Victor C. Helges of the United States bureau of mines, department of commerce. There were increases in the output and value of all metals, with gold and copper showing the largest gains, respectively. Production resulted from fewer mines operating than in the previous year and came mostly from the gold and copper operations in Southwestern Oregon. The output of metals in Eastern Oregon came largely from two dredges and two gold lode mines operating in Baker and Grant counties.

Gold
The total gold yield of Oregon increased from 19,921 ounces in 1928, valued at \$225,965, to about 18,400 ounces in 1929, valued at about \$250,300. This increase is partly due to the resumption of dredging by the Superior Leasing Co. in Baker county, making three dredges that worked in the state in 1929. These, together with one hydraulic operation and three gold lode mines, The Buffalo Monitor (Grant County), Robert E. Curry county, and the Robertson or Robertson (Josephine county), accounted largely for the gold recovered in 1929. At the Robertson mine the installation of a 10-stamp mill and other necessary equipment for increased operations retarded production in 1929, but a substantial increase in output to begin in 1930 was anticipated. The Rabbit mine in the Granite district, Grant county, was also a producer of gold.

Silver
The silver yield of Oregon increased from 39,324 ounces in 1928 to about 37,700 ounces in 1929 and the value from \$18,951 to about \$29,000. No silver mine was in operation chiefly from gold ore mined in Grant county, which carried high values also in silver. Other than the silver won by the dredges the rest of the output came mostly from miscellaneous operations.

Copper
The output of copper in Oregon increased from 358,463 pounds in 1928 to about 710,000 pounds in 1929 and the value from \$51,619 to about \$127,000. Copper ores mined in Douglas and Josephine counties were the chief source of the copper yield of the state. A 50-ton mill was under construction at the Danfield property in Douglas county, from which copper ore and concentrates were to be shipped the latter part of the year. Increased

'Trigger Woman'

Wanted as slayer of a Pennsylvania state trooper, Mrs. Irene Schroeder, blond "Trigger Woman", and two male companions were captured by an Arizona sheriff's posse recently. The surrender culminated one of the most dramatic manhunts since early Arizona history. Two deputies were wounded. Left to right: (Lower), Glen Dague and Joe F. Wells, who claims he was picked up in Texas by the pair. They are being held in Phoenix, Ariz., for eastern officers.

production by the Silver Peak Mt. & Mt. Co. was reported from its lode property. At the Queen of Irons and Cow Bay property in Josephine county a new tonnage of copper-gold ore of considerable extent was developed and much construction work was also carried on.

Lead
The lead yield in Oregon was largely from the Buffalo Monitor mine, from which concentrates containing gold, silver, and lead were shipped.

Babies Always Babies
Even babies of the Stone age had to be amused, judging from a little rattle recently found near Budapest. The handle is in the shape of an animal's head and it makes just as much noise as any baby's plaything of today.

MENUS

By Sister Mary
Nearly every home-maker learns, in time, how difficult it is to cater to an invalid or convalescent who cannot have the food that is prepared for the family. Desserts such as pastries and hot puddings have no place on the sick-room tray, but during the winter months many families demand these hearty concoctions for everyday fare.

The returning strength of the invalid often depends vitally upon a good appetite, so every effort should be made to tempt the invalid to eat well and regularly. Time spent in preparing special

Announcements

Announcements must be in the hands of the society editor not later than 10 a. m. in order to appear on the society page.

Hope chapter No. 13, of the Order of Eastern Star, will meet Wednesday evening for regular session at 8 o'clock in the Masonic hall. Mrs. G. N. Turkington and the Rainbow Girls will have charge of the program.

When In Doubt

diabetic should not be considered wasted effort.

Variety and the element of surprise are highly important. Meat dishes are veritable assets in the monotony of the invalid's day, but if eggs and toast always appear in the same form the patient has little to look forward to.

A Nourishing Dessert
The dessert made with milk and eggs adds quite as much nourishment to the meal as the "main dish," although the dessert should always be very dairy and appealing.

Never serve a sick person anything that is not perfect in its way. If the custard is over-baked and seems watery, don't serve it. Let some well member of the family eat it to "save it," but prepare a fresh one for the invalid.

Use the utmost care in flavoring. Too sweet or too highly flavored desserts will not please an invalid whose sensibilities are unusually acute in every respect.

Custards, jellies, jellied fruits, baked and stewed fruits, apple pie creams and leas are good desserts for invalids. Prune soufflé is an excellent dessert for the winter invalid.

Prune Souffle
The following recipe is for an individual portion:
One egg white, 4 tablespoons mashed stewed prunes, 1 tablespoon sugar, few grains salt, few grains cream of tartar, 1-8 teaspoon vanilla.

Wash 8 or 10 prunes and soak in cold water for 3 or 4 hours. Cook in the same water until soft. Remove stones and rub through a sieve. Add sugar.

End of Month Sale

BRINGS FURTHER PRICE REDUCTIONS ON

Dresses Coats Hats

Never before have we offered such values as these—Dresses, individual in style, of flat crepe, georgette, and satin, for stout and afternoon wear, variety of colors to select from. Values to \$25.00 now—\$12.50.

All remaining coats 1/2 price and less.
Hats repriced to move them quickly—1.00, 1.95, 2.95.

PUTMAN'S

Heat white of egg until stiff, into a lightly buttered custard cup in moderate oven. Serve with adding salt, cream of tartar and or small mold. Put into a pan of whipped cream or custard sauce vanilla. Fold in prunes and turn hot water and bake 25 minutes in made with yolk of egg.

Be moderate
AVOID THAT FUTURE SHADOW

AVOID THAT FUTURE SHADOW*
By refraining from over-indulgence, if you would maintain the modern figure of fashion

Fashion revels in the soft, enchanting curves of the modern figure. Don't sacrifice that graceful contour by permitting your eyes to be bigger than your stomach. Be moderate—be moderate in all things, even in smoking. Eat healthfully but not immoderately. When tempted to treat yourself too well, when your eyes are bigger than your stomach, light a Lucky instead. Coming events cast their shadows before. Avoid that future shadow by avoiding over-indulgence if you would maintain the modern, alluringly-rounded figure.

Lucky Strike, the finest Cigarette you ever smoked, made of the finest tobacco—The Cream of the Crop—"IT'S TOASTED." Everyone knows that heat purifies and so "TOASTING" not only removes impurities but adds to the flavor and improves the taste.

"Coming events cast their shadows before"

"It's toasted"

*Be Moderate!... Don't jeopardize the modern form by drastic diets, harmful reducing girdles, fake reducing tablets or other quack "anti-fat" remedies condemned by the Medical profession! Millions of dollars each year are wasted on these ridiculous and dangerous nostrums. Be Sensible! Be Moderate! We do not represent that smoking Lucky Strike Cigarettes will bring modern figures or cause the moderation of flesh. We do declare that when tempted to do yourself too well, if you will "Reach for a Lucky" instead, you will thus avoid over-indulgence in things that cause excess weight and, by avoiding over-indulgence, maintain a modern, graceful form.

TUNE IN—The Lucky Strike Dance Orchestra, every Saturday night, over a coast-to-coast network of the N. B. C.
