Brief In Favor Of 200-Mile Rail Line Sent East

The California state railroad commission has air mailed to Washington its brief supporting the proposed 200-mile railroad line to connect the Great Northern and Western Pacific rail systems.

The brief, which followed up arguments made at an interstate commerce commission hearing here last November, enumerated eight points in favor of the proposed line from Klamath Falls, Ore., to Keokuk, Cal. These were:

1. That the Southern Pacific forms the only present rail connection between California and the Northwest, a situation without parallel in the United States between comparable industrial and agricultural centers.
2. That only 13 per cent of California's area has competition in rail service to the Pacific Northwest, the remaining area being dependent solely upon the Southern Pacific.
3. That granting the present petition would give 19.9 per cent of the state's area, competitive rail service to the Pacific Northwest, but increase railroad mileage only .15 per cent and total investment only .13 per cent.
4. That the cost of the rail link would be small compared to the many advantages it will give the rail-using public.
5. That the link would improve the earning position of a comparatively weak railroad, the Western Pacific, and should not impair the ability of the Southern Pacific, the principal proponent, to perform its service to the public.
6. Without the proposed link the Southern Pacific would be forced to double track a portion of its Shasta route by 1936 or 1937.
7. That the construction would make large timber areas accessible and benefit California lumber consumers.
8. That the new line would stimulate movement of California perishable products into the northwest through removal of certain existing rates and division barriers.

Oral arguments on the case are expected to be heard by the I. C. C. in Washington in April.

Union people took place at the Methodist parsonage Saturday evening when Camille Harn became the bride of Frank Honney. The Rev. R. C. Lee performed the ceremony with the bride's mother, Mr. and Mrs. Eugene Hata and Mrs. Emma Spray as witness. Both young people are well and favorably known in Union having received all of their schooling here. The bride is the daughter of Mr. and Mrs. Steve Harn and the groom, a son of Mr. and Mrs. H. H. Honney of the fish hatchery. Their plans are not very definite as yet and they will live at the hatchery until spring. The community extends congratulations to the young couple.

S. E. Miller returned from Denver Monday. He did not attend the national live stock show, as stated last week, which was not in session until this week. He attended the conference on government range problems to which he was sent as a delegate. The committee went on record as asking for the return of the public domain to the states. This would put about 14 million acres of land in Oregon, together with its mineral and oil reserves under state control.

Mrs. Callie Green and little daughter Beverly Jean returned home from the Grande Rouge hospital on Tuesday.

Mrs. E. B. Castor went down to Eugene on Friday and returned Tuesday. She reported about 16 inches of snow at Eugene.

Mr. and Mrs. Roy Phillips visited at the W. R. Phillips home over the week end.

The volley ball game scheduled for Monday night at Elgin was called off because of the intense cold. The coldest temperature registered thus far at the experiment station was 24 below zero.

About 25 per cent of the students were absent from school when the new semester started on Monday. This was due to illness and stormy weather. Miss Helen Schoper in the high school and Miss Susan Chadwick of the grades were ill and substitutes were provided.

Storm Maroons Union Residents; Trail Is Broken

UNION (Special)—Mr. and Mrs. Win. Vogel and Betty left home Sunday about one o'clock to run out to the sheep herder's camp. They expected to be gone about an hour. Instead they were marooned in the blizzard and after several slight mishaps found their way through the blinding storm to the herder's cabin. They had to remain there over night and were able to return the next morning by having a hay wagon break a trail for them.

Many Children Ill Of Flu And Colds At Elgin

(Observer Correspondent)

ELGIN (Special)—Twenty-seven of the 60 students in the high school are out of school with colds or flu, and fully half of the grade children are out. The weather has proved almost too much for the heating plant at the school and it is almost impossible to keep the building warm enough for comfort. Thermometers vary several degrees in various parts of the town due to natural differences, such as the nearness to river, or on the hill in the northern part of town and the lower or central part, but the government thermometer at the O. W. station registered 34 degrees at 5 o'clock Tuesday morning. City School Superintendent E. E.
