Star Forced To Show Real Speed To Catch Train

A whole scene had to be made for "Mister Antonio" before director James Flood could let Leo Carrillo, co-starred in this Tiffany-Stahl all-dialogue production with Virginia Valli, go to catch a train out of Los Angeles for Vancouver, en route to Australia to fill a theatrical engagement.

Carrillo worked up to such a late moment that he had to be rushed to the depot in the Italian costume and make-up for the booth Tarkington play. And by "rushed" we mean that he was taken from Hollywood to Los Angeles in a policecar with motorcycle escort. Barely catching the train, Carrillo

State Board of Control Passes Resolution on Death of Governor

SALEM, Ore., Jan. 22 (AP)—The following resolution has been adopted by the state board of control on the death of Isaac Lee Patterson. Whereas, throughout his official life, and particularly as governor of the state of Oregon, the late Isaac Lee Patterson gave unstintingly and unselfishly of his rare talents and energies toward the realization of his lofty and most worthy ideals and ambition—that of making the state of Oregon, the beloved state of his nativity, the most constructively prosperous of the United States—and died in the faithful performance of his duty to the state and its citizenship, a virtual martyr to such service, for it was in the discharge of an official function of his high office that he contracted the malady which brought about his untimely death; and whereas, the sudden and untimely death of Governor Patterson the state of Oregon and every department and function of state government and the people of the state of Oregon have lost a most loyal, conscientious and faithful champion of good government, friend and citizen; a man of fine presence, great personal dignity, unimpeachable integrity, sterling worth and refinement of character; therefore, be it resolved: That the Oregon state board of control, on behalf of the state officers and the

entire executive, administrative, judicial and legislative family of the state of Oregon, hereby pronounce acknowledgment and sincere appreciation of the loyal, unselfish and constructive service the late Governor Isaac Lee Patterson has rendered the state as an ideal statesman and governor; that we deeply and profoundly deplore the coming of the silent summons of the grim messenger of death that called him from our midst at the height of his official career and before his labor of devotion to his beloved commonwealth was finished, and that we extend our most heartfelt sympathies to his widow, his sons and relatives in their hour of bereavement. Resolved: That these resolutions be spread upon the records of this administrative body, that a copy thereof be given to the press of the state and that an engrossed copy be presented the bereaved widow. Adopted on this the 22nd day of January, A. D. 1930. A. W. Norblad, Governor; Hal E. Haas, Secretary of State; Thos. B. Kay, State Treasurer. By the Oregon State Board of Control: Carl E. Abrams, Secretary.

hurried to his compartment and tore off the clothes. A prop boy was there to catch the garments as they flew out of the window. "Good-bye," yelled Carrillo, as the last picture of "Mister Antonio." "I see you again pretty quick, eh?" "Mister Antonio" will be the feature attraction Friday and Saturday at the State theatre. It is synchronized by RCA Photophone.

ANNUAL DOG PROBLEM IS DISPOSED OF

(Continued from Page One)

resenting more than 400 male licenses and about 15 female licenses, and, with the new plan in action, it is expected to raise about \$700 this year. It will take more than \$500 to pay the dog tax, it was said.

Expect Payment Jan. 29. The ordinance was read for the second time last night and then referred to the city attorney, George Cochran, for amendment. Next week it will be presented for final action.

And thus the dog question for 1930 is solved, and there may not be another such argument until 1931, unless too many flowers and gardens are molested during the coming spring and summer.

Several other minor matters of a routine nature were attended to before adjournment.

W. C. Crews, city manager, who has been ill at his home for the last few weeks, was able to attend last night's session.

BORDER PATROL SHOOTS BOATMAN

(Continued from Page One)

at a man thought to be a runner and believed they had wounded him. The officers refused to give their names.

Wyandotte police said today that Grunt has never been known by them as having been connected with the down river rain-running industry.

MOTION PICTURES TAKEN OF THE INTERNAL ORGANS

DETROIT (AP)—Within the last year it has become possible to take motion pictures of the interior of the human body, says a report of Dr. H. A. Jarrow of Grace hospital to the Radiological Society of North America.

"Until a year ago," he says, "we depended upon visual observations on the fluoroscopic screen, but in some x-ray studies the subjects obtained in this way are too faint. Now we have an apparatus resembling a moving picture film which shows us many things we could not learn from a photograph. You might say our pictures are slow motion because of course the organic movement in the body will tolerate only a limited amount of x-ray energy."

HIGH PRICED HORINGS

SAN FRANCISCO (AP)—Boeing for San Francisco's Golden Gate bridge will cost nearly \$300,000.

BRITISH GOLF PRO GETS HIS 18TH ACE

MOOR PARK, England (AP)—Sandy Herd, veteran golf professional at Moor Park, has established a record by holing out in one for 18 times. His latest ace was accomplished on his own course here. The distance was 146 yards. No one else has done the hole-in-one shot so often. When Herd gets his twentieth ace he will win a gold putter.

METER SHOWS BEDTIME ON NEW YEAR'S EVE

NEW YORK (AP)—Future historians may find corroborative evidence on the records of electric light consumption. For example, the New York Edison company says its records show that 3 a. m. New Year's eve 1929-30 was nothing but an unusual number of New Yorkers.

Closing Strong In Stock Exchange

NEW YORK, Jan. 23 (AP)—For the first time this year the stock market today showed strong indications of breaking out of the narrow trading area within which it has been fluctuating on the upside. Mail order, merchandise and chain store issues were taken on a large scale in the last hour and the aviation shares also rose under the leadership of Bendix. Several low priced specialties especially Remington-Rand, met brisk demand. Oil Elevator jumped 5 points. The close was strong. Sales approximated 2,800,000 shares.

Locally - Grown Produce About Gone In Oregon

PORTLAND, Ore., Jan. 23 (AP)—Egg and butter prices were unchanged. However, egg quotations were reported firmer in view of lighter receipts. In millstuffs, whole, cracked and ground corn declined \$3 a ton, according to price list of the Sperry Flour company. Reviewing the fruit and vegetable situation, the Portland bureau of the United States department of agriculture says: "Storage holdings of locally-grown produce are about exhausted, with the exception of carrots and limited supplies of cabbage, cauliflower and turnips, which have been available until this week, are no longer on the market. Grapefruit arrivals are confined to Texas and Imperial valley stock; Florida grapefruit arrivals this season having been confined to 2 or 3 carloads last month. Limited potato loadings from all northwestern districts this week, with resulting active demand from California points, have resulted in much lighter track supplies at Portland. The Portland market has shown virtually no price changes this month; although alternating stronger and weaker undertones have existed. "With storage stocks of onions declining, and no new arrivals in immediate prospect, jobbers' prices advance again slightly with a few sales as high as \$2.25 per cwt., delivered to retailers. "Shipments of green peas from the west coast of Mexico are heavier than last winter; consequently shippers are lowering their prices a bit, to encourage more active consumption. "Wholesalers specializing in supplying country points by motor-truck deliveries are finding their volume of this business materially curtailed, on account of impassable condition of many highways."

Police School To Be Held Feb. 3-8

SALEM, Ore. (AP)—Law enforcement officers of northwest cities, counties and states have been invited to attend the police school to be conducted at the Willamette university college of law February 3 to 8, inclusive.

Mosquito Found That Protects Man From Sting

HONOLULU (AP)—Discovery of a new weapon for exterminating mosquitoes is disclosed in a campaign to rid Hawaiian sugar plantations of this pest. A newly found race of mosquito destroy the biting kind by millions, yet themselves lack the boring tool necessary to bite man. The cannibals are whoppers, an inch long, brightly colored in blues, greens and browns.

It sounds like a fairy tale to add that in adult stage after they have destroyed their quota of mosquito, they live on the nectar of flowers and juices of crushed or broken fruit, but that is the plain, scientific dietary fact reported by their discoverer, C. E. Pemberton, a Hawaiian entomologist.

Pemberton found these mosquitoes while hunting for the most effective of all methods of insect control—namely, a parasite, a bug which lives on the pest, and incidentally kills him. He found in New Britain the answer in the larvae of the large, bright-colored mosquito whose scientific name is Megarhinus Inornatus.

These larvae were feeding on other larvae, with preference for the wingless of blood-sucking mosquitoes. Pemberton found that each big mother cannibal mosquito laid about 60 eggs, and each wiggler developing therefrom ate about 250 larvae.

Arithmetic shows that the young of one mother might destroy about 15,000 mosquitoes, and her grandchildren more than 60,000,000.

Recently Pemberton turned loose among the plantations 300 of the big larvae to see whether they would multiply in their new home. Transporting them from New Britain required entomological legislation. The steamers take more than 21 days for the trip but after 21 days the wigglers turn into mosquitoes.

Pemberton needed them to be still in the wiggler stage on arrival. He learned how to delay their maturity by underfeeding. At each steamer stop he went ashore, catching mosquito larvae for his flock of 200 and brought them through safely.

Interior decoration—replaced by light

NEW YORK (AP)—Claim is made that 100,000 different patterns and colors of interior decoration in a single room are available under a new lighting system installed in a Brooklyn hotel.

The ballroom is painted a flat white throughout, so that it serves as a "canvas" for the patterns in light and shadow coming from 5000 concealed incandescent lamps.

They are inset in cooves, flutes and inverted troughs in walls and ceilings. Some of the apparatus have ray-focussed edges for the better production of shadow patterns. The lamps are of the three primary colors—red, blue and green—which by combination give every shade in the rainbow.

Six of Tulane university's football players are on the basketball squad.

Wheat Slumps In Chicago Market

CHICAGO, Jan. 23 (AP)—Faced by a sudden let up in trans-Atlantic demand for wheat from North America the wheat market here went downward most of the time today.

Wheat closed nervous 3/4c to 1 1/4c a bushel lower than yesterday's finish. Corn closed 3/4c to 1 1/2c down, oats 3/4c to 1 1/2c off, and provisions varying from 5c setback to a share advance.

PORTLAND PRODUCE

PORTLAND, Ore., Jan. 23 (AP)—Butter, milk (butterfat), poultry, country meats, onions, potatoes, wool, nuts hay, canebrake and hops steady and unchanged.

Red Cross Drug Store's Great Offer To All Who Suffer Stomach Agony, Gas And Indigestion

Money Back if One Bottle of Dare's Mentha Pepsin Doesn't Do You More Good Than Anything You Ever Used.

You can be so distressed with gas and fullness and bloating that you think your heart is going to stop beating. Your stomach may be so distended that your breathing is short and gaspy. You think perhaps you are suffering. You are dizzy and pray for quick relief—what's to be done?

Just one tablespoonful of Dare's Mentha Pepsin and in ten minutes the gas disappears, the pressing on the heart ceases and you can breathe, sleep and naturally.

Oh! What blessed relief, but why not get rid of such attacks altogether? Why have indigestion at all? With this wonderful medicine you can overcome indigestion or dyspepsia, or any condition that keeps the stomach in constant rebellion and one bottle will prove it. Ask for and insist on getting Dare's Mentha Pepsin, a pleasant to take, health building stomach elixir that regular pharmacists anywhere in America guarantee.
