### HILL'S

## HUSKIES BEATEN BY ORANGE CREW

### Lyman Figures in O. S. C. Victory Over Washington Tossers 34 to 32.

CORVALLIS, Ore., Jan. 25 (AP)—In one of the most spectacular basketball finishes ever seen on the local court, Oregon State stopped the northern division conference leading University of Washington team's winning streak, 34 to 32, here last night. Coach Stank Gill, just recovering from an attack of pneumonia, directed the Orangemen personally. Washington's defeat placed the Huskies in a tie for first place with Washington State. The game was torrid throughout, being tied seven times in first half which ended 13 to 16 in favor of the Staters. Grayson won in the last half and got six baskets to give Staters an eight point lead. This was wiped out as McCreary and Carness tallied four times for the Huskies. With a minute and a half to go Grayson again put Orangemen in the lead, which they held to the end. A second game will be played here tonight.

## NORMAL SCHOOL SEEKING GAMES

### First Road Trip Ends in Three Losses And One Win for La Grande.

Home from their first road trip, the Eastern Oregon Normal school basketball team was entering another week of practice today with no immediate games in prospect, unless arrangements can be made for this week or next for a series with the College of Idaho, or some other Northwest team. The next scheduled games are to be played in La Grande on Feb. 21 and 22 with the Monmouth Normal school, but it is expected that games will be arranged to be played before that time.

"Too much basketball" was the verdict after the four-game trip into Western Oregon, with the La Grande team losing three of them, two to Monmouth and one to Columbia university in Portland Saturday. The team started off strong the first two nights, defeating Albany college and losing by a small margin to Monmouth, but on Friday and Saturday evenings, the team seemed slower and less able to go into its usual stride.

Against Columbia, the large floor handicapped the Eastern Oregon team, used to playing on a smaller court.

## MINNESOTA IS CONSIDERING 12 CANDIDATES

MINNEAPOLIS, Minn., Jan. 25 (AP)—The search for a new head football coach at the University of Minnesota has narrowed down to fewer than a dozen candidates.

Principals among those being considered today to succeed Dr. Clarence W. Sparks, who has resigned to coach at the University of Oregon, is Elton E. (Tad) Wieman, former head football coach at the University of Michigan, who is coming to Minneapolis Wednesday to confer with Gopher officials.

New about Wieman's trip to Minneapolis came in an Ann Arbor dispatch, which said he had been invited by Dr. Louis D. Coffman, president of the University of Minnesota.

"I haven't a word to say" was the only comment by Dr. Coffman when asked about the report.

Many students and alumni are giving strong support to the candidacy of Arthur (Dutch) Bergman, who has been Sparks' first assistant at Minnesota. Several other former Gopher stars are included in the list of candidates. They are: Clark Shaugnessy, head coach at Loyola, New Orleans; Earl Merritt, assistant coach at Purdue; Hiram Hiram, head coach at Tulane and Ochsle Solent, director of athletics at Drake.

Others who have received attention are Andy Kerr, head coach at Colgate; Charles Dorais, head coach at Detroit; Tom Lieb, assistant coach at Notre Dame, and Fritz Ciesler, assistant coach at Chicago.

## CENSUS TAKER ASKS 21 QUESTIONS

(Continued from Page One)

His only job is to ask the stipulated questions and get the answers as best he can. He has no right to do more.

**What They'll Ask**  
The census taker will be around early in April. The 1930 censuses of population, agriculture and employment will be taken simultaneously, beginning April 2. These are the 21 questions they will ask in the population census, which will cover approximately 122,000,000 persons:

1. Relationship to head of family, including a statement as to the "house-maker" in each family.
  2. Whether home is owned or rented.
  3. Value of home, if owned, or monthly rental, if rented.
  4. Had to sell? (Yes or No.)
  5. Does this family live on a farm?
  6. Sex.
  7. Color or race.
  8. Age at last birthday.
  9. Marital condition.
  10. Age at first marriage, if any.
  11. Attended school or college any time since Sept. 1, 1927?
  12. Able to read or write.
  13. Place of birth. (State or country.)
  14. Father's place of birth. (State or country.)
  15. Mother's place of birth. (State or country.)
  16. Mother-tongue of each foreign-born person.
  17. Year of immigration to United States, if foreign-born.
  18. Whether naturalized, if foreign-born.
  19. Whether able to speak English, if foreign-born.
  20. Occupation of each gainful worker.
  21. Industry in which employed or working on own account.
  22. Whether actually at work.
  23. Whether a military or naval veteran of the United States and, if so, in what expedition or war.
  24. Mostly Up to Housewife
- Whoever is at home to answer these questions must supply the in-

formation for everyone living in the house. In most cases, this will mean the housewife as the man of the house probably will be at work when the census enumerators call.

With reference to Question No. 23, a special form is provided to cover persons who did not work "yesterday" or on the last regular working day. There are five questions to be used "if this person has a job"—How many weeks since he has worked at that job? Why was he not at work yesterday? Does he lose a day's pay by not being at work? How many days did he work last week? How many days in a full-time week? And four in case the person has "no job of any kind." Those are: Is he able to work? Is he looking for a job? For how many weeks has he been without a job? Reason for being out of a job?

**Farmer to Be Quizzed**  
The schedule for farmers is a long one, containing 232 questions.

Some of them have really difficult tasks climbing into the more remote fastnesses of the country. A certain tiny percentage of manure or cranks is bound to be encountered with a "milked" of strange experiences. For instance, one enumerator tumbled a Texas farmer's wife in the last agricultural census while the farmer was away. When the farmer returned and heard that his wife had told all he leaned on a horse, overtook the enumerator and forced the paper from him at a pistol's point. After federal officials had threatened him with arrest, however, he gave it back.

In order to make it easier for the person interviewed by the census enumerator, it is suggested that the list of 24 census questions be answered ahead of time so that facts, etc., will be on hand when he arrives. This will avoid delay and uncertainty.

## DID YOU KNOW THAT—

Miami is not so crazy about playing host to the Sharky-Scott fight, according to the sports writers down there. . . . Cliff Miesler of the Miami News says the town doesn't want to see Scott with Sharky or anyone else. . . . Not many promising looking recruits get away once they are enmeshed in the Cardinals' chain store system. . . . But Tony Celenello, came right straight up to the majors after Danville, a Cardinal testing ground, turned him away. . . . Tony was the most talked about player in the American Association last year. . . . He equalled the batting mark of "Dusty" Cooke of St. Paul, which was .369, and Cooke is figured ready to make good with the Yanks. . . . Now he's to go south with the Cincy Reds. . . . The lad plays a nifty third base, too. . . . Bobby Jones has won nearly every important championship in golf except the British amateur, and if you take our word for it, he'll win that this year.

## "Say 'Uncle,' Says Tarheel

ONE of the tallest basketball players in intercollegiate ranks is Lacy Harper, 4 feet 6-inch center of the University of North Carolina quintet. The Tarheel giant is a veteran performer and said: "The stunt he displays here, exhibits sprightly cage tactics for a man of his size. North Carolina has produced a Southern Conference championship team in four of the last eight seasons. The Tarheels are coached by Jim Ashmore, veteran basketball mentor.

## SPORT SLANTS

Additional light on the pugilistic past of baseball players is contributed by Bert Lowry. Writing from his present observation post on the Stockton (Cal.) Record, Lowry says:

"Back in the days when I was sports editor of the Oakland Tribune there was a boy getting by in great shape in the four-round game here (before he got 19-round fights) and who fought several of the best boys of his class. He was Eddie Mensor, who played several seasons in the Pacific Coast league and then went up to the Pittsburgh Pirates. Your archives may have a little dope on Mensor."

Boxer-ballyhoo Mensor was good enough to stick with the Pirates for three seasons, 1912 to 1914, but his record indicates he may have been a harder hitter in the ring than on the diamond.

His box mark was .23 for 33 games in 1912, a fairly respectable average in those days, before the advent of the lively ball. Mensor was released to Columbus of the American association in 1915 but the trail from there on is lost.

It seems that Art Shiro's first fight, quite naturally, was in his home town of Italy, Texas. And, as Hoff in the St. Paul Dispatch relates it:

"Art and his friends were storming down the street amusing themselves by shooting Roman candles at passers-by. One big, tough egg from a neighboring town announced publicly that any kid that pointed one of those things at him would be knocked silly. "Of course," said Art, "I've never been a guy to go out of my way for a fight but I could always take care of myself, see—so I goes up to this mug and fires the candle right at him. Well, the next day when we appeared before the

major to answer charges, that guy looked like a freight train had hit him.

## SOFTBALL CHAMPIONS

Of considerable interest are the reflections of Schaubert Dyche, coach of the Montana State Softball team, following the eastern tour in which his Rocky Mountain Softball champions won four out of seven from some of the best teams in the country.

"Hyat (of Pittsburgh) is a marvel," writes Dyche. "He is more effective than Cat Thompson (Montana) and that is hard to admit. He is without question the greatest forward I have ever seen—or imagined. Loyola of Chicago was the greatest team we met on our trip. They are unbeatable by a team that cannot get the tipoff."

Charley Murphy of Loyola (center) outplayed Frank Ward and was the best center we met. Stretch Murphy of Purdue is unsteady and this makes Purdue an in-and-out team. Butler has a great team but Loyola may beat them because Loyola plays a coldly scientific game—the professional type of basketball. Pitt has Hyatt. Butler has the men and the mechanics and, of course, we miss Brick Bresler."

Bresler was a guard on three previous championship Montana State teams, one of the greatest defensive men ever developed in Rocky Mountain basketball.

The Bobcats, advises the expert F. H. Frawley from his observation post for The Associated Press in Denver, would like to take on the eastern or middle western basketball champions in a post-season series. This is on the assumption Montana State repeats in the Rockies where Brigham Young, coached by "Ore" Romney and the Utah Angies may offer formidable opposition.
