**THE SCRIPTURE EXPOUNDED**—Jesus said unto them, O fools, and slow of heart to believe all that the prophets have spoken: Ought not Christ to have suffered these things, and to enter into his glory? And beginning at Moses and all the prophets, he expounded unto them in all the Scriptures the things concerning himself.—Luke 24:25, 26, 27.

## THEATERS

### "Mexicali Rose" Coming to State Theater

The amazing results studio technicians achieve within a limited time are nothing short of miraculous. For instance, during the shooting of "Mexicali Rose," the Columbia all-talking drama of love and revenge with Barbara Stanwyck and Sam Hardy coming to the State theater today for three days, a complete gambling dive was created overnight.

On the evening which preceded the shooting of this scene, the stage had presented a bare and uninviting appearance. The following morning the same stage was a riot of color, light and activity. Sometime during the small hours of early dawn, the technicians had done their work, and a fully equipped gambling dive was ready for use, boasting a mahogany bar and tables for roulette, Faro, chuck-a-luck, craps and poker.

An hour later Director Eric C. Kenton had done his part by supplying the human element. The resort was peopled with as heterogeneous and colorful a collection of personalities as ever gathered a resort on the Mexican border.

## Why Few Are Fat

Excess fat has been disappearing in late years. So fast that excess fat is the exception now. You see that in every circle.

That change is largely due to the discovery that excess fat is largely the result of a gland weakness. A gland whose secretion helps turn food to fuel. Modern physicians, in treating obese, seek to combat this cause.

Their method is embodied in Marmel prescription tablets. People have used them for 22 years—millions of boxes of them. Now almost everyone has friends to show them the results.

Go do what they did—try Marmel! All druggists supply it at \$1 a box, and a book in each box tells you how and why it acts.

## MENUS

**By Sister Mary**  
If the empty jars in the preserve cupboard outnumber the full ones, perhaps some dried fruit butters and marmalade will help make the fresh fruit preserves last until spring for special occasions.

Citrus fruit marmalades can be made as cheaply now as any time and will be particularly relished when jaded spring appetites need toning up.

Less sugar is needed to make dried fruit preserves than when making fresh ones. Otherwise the procedure and ingredients are much the same.

Combinations of fruits are delicious and often have a tantalizing flavor.

**Combination Conserve**  
One-half pound dried peaches, 1-2 pound dried apricots, 1 pound prunes, 2 oranges, 1-2 cup seedless raisins, 1-2 cup nut meats, 1 1-4 pounds sugar.

Wash peaches, prunes and apricots through several waters. Let peaches and apricots stand in cold water to cover for three hours and drain. Cover all the fruits with

cold water and let stand over night. In the morning, simmer in the same water until very tender and rub through a sieve. Put into preserving kettle and add grated rind and juice of oranges, raisins and sugar. Bring to the boiling point and cook until mixture thickens and becomes clear. Add nut meats and cook ten minutes longer. Pour into sterilized jars and seal.

The following recipe is for a combination citrus fruit marmalade that is particularly delicious.

**Three Fruit Marmalade**  
One grape fruit, 1 large orange, 1 large lemon, 10 cups granulated sugar.

Wash fruit and wipe dry. Cut into quarters. Then cut the quarters through and peel and pulp into very thin slices, discarding the seeds and the white pith in the center. Let the fruit stand in 14 cups of cold water over night. Cook until peel is very tender. It will take several hours. Let stand over night again. In the morning, add sugar and cook until syrup thickens. Turn into sterilized glasses and cover with paraffin when cold. This will make about 12 large glasses of marmalade.

France has three schools of watchmaking which each year graduate from 100 to 125 students.

# AVOID THE THREAT of the weight of age

**AVOID THAT FUTURE SHADOW\***  
By refraining from over-indulgence

You men who would keep trim and fit... you women who covet the tantalizing curves of the truly modern figure—when tempted to do yourself too well, light a **Lucky** instead. Be moderate—be moderate in all things, even in smoking. Eat healthfully but not immoderately. When your eyes are bigger than your stomach, light a **Lucky** instead. Coming events cast their shadows before. Avoid that future shadow by avoiding over-indulgence, if you would maintain that lithe, youthful figure.

**Lucky Strike**, the finest Cigarette you ever smoked, made of the finest tobacco—The Cream of the Crop—"IT'S TOASTED." Everyone knows that heat purifies and so "TOASTING" not only removes impurities but adds to the flavor and improves the taste.

**"Coming events cast their shadows before"**

**"It's toasted"**

\*Be Moderate!... Don't jeopardize the modern form by drastic diets, harmful reducing girdles, fake reducing tablets or other quack "anti-fat" remedies condemned by the Medical profession! Millions of dollars each year are wasted on these ridiculous and dangerous nostrums. Be Sensible! Be Moderate! We do not represent that smoking **Lucky Strike** Cigarettes will bring modern figures or cause the reduction of flesh. We do declare that when tempted to do yourself too well, if you will "Reach for **Lucky**" instead, you will thus avoid over-indulgence in things that cause excess weight and, by avoiding over-indulgence, maintain a modern, graceful form.

## Work Bed Factory Is Tried as Cure

LEYSIN, Switzerland (AP)—A work-shop whose workers all will lie in bed while performing their jobs is nearing completion here.

Its working force will comprise men, women, girls and boys with "surgical intercurals," the kind that attack joints, spine and limbs. It is a good-sized, four-story building in which actual, wage-earning production will be used to assist in curing illness.

These patients will not merely lie in bed and work, they will lie in fixed positions, some of them almost motionless, in postures necessitated by the primary part of the cure, which is exposure of

the naked body to sunlight falling directly upon the tubercular area.

Some lie on stomachs, others on backs or sides. A few can move only their fingers. Special beds and trick working-boards have been made to fit each type.

The sun cure treatment is operated by Dr. Auguste Rollier. He is building the work-shop addition for those too poor to take the cure without worrying about finances.

Dr. Rollier says their ability to earn money if adult, or if young to learn trades while being cured, will hasten recovery, prevent making "derelicts" and result "in deep happiness." He announces that Swiss manufacturers are cooperating.
