Well Dressed Man Requires About \$10,000

CHICAGO, Jan. 29 (AP)—Lawrence N. Hepper, first vice president of the National Association of Merchant Tailors, figures that between \$5,000 and \$10,000 is enough to keep the dressed man well dressed for a year.

dozen sack suits in the new powder blue, gray-blue and silver-green colors; one or two morning coats; several pairs of striped trousers; two formal overcoats for day use; one heavy winter ulster; one medium weight town coat of semi-rigid material, and one polo coat.

Michigan broke windows on four floors. On the northwest side, an explosion blasted windows in a paper company; on the near south side, an explosion blasted windows in a paper company; on the near southwest side, another bomb damaged a ten-story apartment and grocery store.

CHICAGO, Jan. 29 (AP)—Four bombs were exploded last night and early today; one of them showing debris onto Michigan avenue traffic.

OFFICE CAT TRADE MARK REG. By Jesnius IT'S PYORRHEA Have you corns on your toes? Have you freckles on your nose?

It's pyorria. When you hurry to you wheeze? Are you getting hard to please? It's pyorria.

Have you specks before your eyes? It's pyorria. Has your head increased in size? It's pyorria.

Is your liver out of whack? It's pyorria. Have you pimples on your back? It's pyorria.

Are you itchy anywhere? Have you dandruff on your hair? Have you any rash to spare? It's pyorria.

Men are like postage stamps. They have to stick to get anywhere. Many a youth's highest ambition is to marry a rich girl who is too proud to have her husband work.

"Life is real, life is earnest." In other words just one thing after another. "I forget" may go in court but it won't when a woman is cross-examining her husband.

No one has ever complained of a parachute not opening. IT WAS HER IDEA (Continued) "Wouldn't you take something off for cash?" "Scissors!" "Sis!"

The old-fashioned wife who used to ask her husband to button up her back now has a daughter who orders her husband to powder her. Jo: "So you were in the hospital three months? Must have been pretty sick!" Bo: "No, pretty nurse."

Judge: "Have you anything further to say?" Prisoner: "Only that the time consumed by my lawyer's speech to the jury be deducted from my term of imprisonment."

Mother: "Tommy, these are lemons. I told you to get eggs." Tommy: "I know, mom, but it was raining and slippery, so I thought I'd get lemons."

A POINT OF WEAKNESS Man's weakest point is in the respiratory system. When all death due to diseases of the breathing apparatus are added up for any one year, we find them accounting for about one fifth of the total number of deaths.

From the viewpoint of disability, that is, sickness, loss of time from work, cost of hospital and home treatment and nursing, respiratory diseases probably lead the list. The principal diseases included in the list are the pneumonias, bronchitis and pulmonary tuberculosis. Each of these is an infectious disease. That is, each is caused by one or a group of germs.

One Dose Shows Results Gallstone Pain Yields to Prutola For over twenty years FRUITOLA has brought remarkable relief to sufferers from gallstone pains, stomach distress, tightness around the waist and other similar ailments. Many people say their pain stopped after the first dose of FRUITOLA. That's the wonderful thing about FRUITOLA—it acts so quickly. No other medicine can do more. The FRUITOLA formula is the same today as it always has been and if you try it you too may save yourself from a possible operation. One dose shows results. The germs are spread from the sick to the well person, or sometimes from the so-called carrier to the well person. A carrier, be it noted, is a well person who harbors certain germs in his body which do not seem to injure him, but which may be passed on to others with disease following.

If the passing on of the disease germs could be stopped, there would be less sickness. That the transmission of disease germs from one person to another can be avoided is dramatically demonstrated in children's hospitals.

On the floors of such hospitals there are to be found small cubicles formed by glass partitions. The sick children are kept each in a separate cubicle. Care is taken so there will be no cross infecting of other children with the other's disease.

How is this accomplished? By scrupulous and complete cleanliness. Not only dirt cleanliness—but also germ cleanliness. Both doctor and nurse thoroughly wash their hands before and after handling each child. Instruments are sterilized.

If even a few measures of precaution were applied in the home and office, there would be a decrease in respiratory ailments. WILD FOWL GO TO CITY OAKLAND, CAL. (AP)—Thousands of wild duck, geese, frans and other water fowl take refuge in a lake in the heart of this city each hunting season.

North Powder Ice Harvest Is About Completed

By J. A. Nice (Observer Correspondent) WOLF CREEK (Special)—The North Powder ice harvest is just about completed. This is one of the finest crops of ice ever put up. It was all frozen during the month of January.

This community has experienced some very cold weather but is some warmer now. All stock has wintered well so far with no losses. Nearly everyone here has had the flu or is now having it.

Charley Pearson has been very ill from an attack of appendicitis but is somewhat improved. He is in a Baker hospital. Ira Harrison was in Baker Monday receiving medical treatment. His health is quite poorly.

J. H. Carr returned to Durkee Monday where he is building a service station, after a week's sledge of the flu. Maltie and Harry Nice were Baker visitors on Monday. Mrs. Hattie Grant was very sick Saturday night with the grip.

The Get-together club met at the W. E. Land home last Saturday night. T. T. Hand has been helping A. E. Gilson with his work. Chester Oliver is helping Alex Shaw hunt some logs out of the mountains. Besse Nantz visited with Vir-

gina Nice on Tuesday night. E. G. Bailey who died at his home at Wilbur on Jan. 14 was well known here. He was the second principal of the North Powder High school after the high school was organized. He was well liked by all who knew him and leaves many friends in the North Powder community.

BODIES STILL UNFOUND

NOME, Alaska, Jan. 29 (AP)—Scattered tools, parts of the motor, batteries, provisions and even millions, have been recovered by crews of workers cutting into the ice caked snowdrifts around the wreckage of Carl Ben Eielson's plane, 80 miles southeast of North Cape, Siberia, but no trace had been reported today of the bodies of Eielson and his companion, Earl Borland, believed to be buried nearby.

EXPECTS FAVORABLE ACTION

WASHINGTON, Jan. 29 (AP)—After conversations with President Hoover, Secretary Mellon, Governor Young of the Federal Reserve board and House Speaker Charles McNadden of the house banking and currency committee, said today he expected favorable action in his resolution for a fact-finding committee to inquire into branch and chain banking.

A comedian recently was chosen on a jury trying a beautiful young woman for the murder of her husband. Most of the others were comedians, too.
