He was born August 17, 1869 at Hunteville in Madison county, Ark. He came across the plains with his parents in a covered wagon and spent the remainder of his life in this state. A jolly pinocchio party was given by Clara Van Houten and Mae Shanks Tuesday evening at the home of the latter. Those present were Leona Spray, Emma Puckett, Louene Hutchinson, Emma Wolf, Helen Cross, Mildred Gauthier and the hostesses. Egg And Butter Prices Go On Toboggan Ride

PORTLAND, Ore., Jan. 30 (AP)—Egg, butter and butterfat prices went on another toboggan ride today.

Butter offerings especially were liberal at the Portland produce exchange session, forcing extra down 2c to 35c, standards down 2c to 27c and prime firsts down 1c to 25c. Prime firsts were unchanged at 34c.

Butterfat hit the grade at the rate of 3c a pound. The Portland delivery price is 33c.

Eggs were less eager in their plunge. Fresh extras, standards and fresh mediums declined 1c each.

Reviewing the fruit and vegetable situation, the Portland bureau of the United States department of agriculture says:

"Trading continues fairly good on Portland's wholesale fruit and vegetable market. A few lines of southern produce are moving into retailers' hands too slowly, necessitating some price reductions. Cauliflower and spinach from California declined. Quality of southern offerings is widely variable, and much stock of rather poor quality is available at low prices."

Potato prices continue firm at shipping points, and loadings at Yakima and Southern Idaho points are liberal this week. The Portland and California terminal markets are only steady though, and demand is but fair. Potato unloadings at Portland are considerably less than actual consumption, indicating some withdrawals from local storages.

"California naval oranges show much improvement over earlier offerings. Prices will probably remain rather high throughout the entire season, but quality is generally excellent. Daily orange shipments at present are only 60 per cent as heavy as at this time last year."

STOCK MARKET TURNS HEAVY IN AFTERNOON

NEW YORK, Jan. 30 (AP)—The stock market turned heavy early this afternoon losing most of the ground gained in a general advance during the morning hours.

Bear pressure and liquidation in International Telephone, Simmons and United Aircraft, which fell 3 to 4 1/2 points below Wednesday's close, was extended to leading shares throughout the list. United States Steel, after touching 132 1/2, its highest for the year, sold off to 130 1/2 against yesterday's final quotation of 131 1/2.

International Telephone made a new low for the year at 52 1/2, representing a net loss of 3 1/2. The weakness of the shares was attributed in part to the imminence of a bond offering by the company, while selling in Simmons was based on reports that the company also was planning some new financing.

Supporting orders caused partial recoveries in the late dealings. The closing tone was irregular. Sales approximated 3,600,000 shares.

DOING OF SMALL THINGS BIG HELP

Julius H. Barnes, of Business Survey Conference, Makes Suggestion.

WASHINGTON, Jan. 29 (AP)—A suggestion that "doing by many industrial concerns of what might appear to be small things would read a very large amount in the aggregate" was made here by Julius H. Barnes, chairman of the national business survey conference, in an announcement to conference members advising them of the work done since the conference of business leaders at the white house in December.

The conference revealed, he reiterated, the "essential soundness of basic conditions and the conviction of the conferees that if all proceeded normally with execution of their business plans there need be no panic—no long or serious depression."

"Major industries set the example," the announcement continued. "Highroads, shipbuilders, the electrical utilities and the great agencies of communication, telephone and telegraph, announced that their construction programs for 1929, on even larger scales than for the year just past, would be carried out and expedited to the maximum. Other great branches of industry announced adherence to or expansion of their plans. The federal government contributed by arranging to speed up essential construction and enlisted similar effort on the part of states and municipalities. Much of this work has already begun."

"It is evident, however, that for larger works considerable time is required for preparation of plans, for tenders and for financing. This was recognized at the conference, and outstanding in its deliberations was a suggestion that advantage be taken of the next two or three months to carry on repairs, maintenance, cleanup, replacement and betterments."

"It may be pointed out that the doing by many industrial concerns of what might now appear to be very large amount in the aggregate. Response to the suggestion put forward by the executive committee will be further evidence of the value of voluntary enlistment or
