Clark Wood Says

A Roumanian peasant has just died from natural causes at the age of 150. He was undoubtedly a pedestrian, but it's only fair to say in behalf of chagrined motorists that they are subjected in remote localities to too severe a handicap.

Even though man is fifty million years old, we can't be certain whether the present period represents his first or second childhood.

Mrs. Charles E. Sabin challenges the W. C. T. U. to "name 1000 persons who were cured of drinking to excess by the 18th amendment." We look for some waggish wit to suggest that the names might be gotten off the tombstones.

Of the 100 candidates for the Haitian presidency, 99 are likely to still be running after the votes are counted.

The dying words of an American naval hero, "Don't give up the ship," seem to have been adopted as the guiding motto of the conference powers.

No airplane is fool proof, and too many fools aren't airplane proof.

A cold snap is cold enough, but we wouldn't call it a snap—except, maybe, for the coal man.

The specter of Russia is said to haunt the naval parley, and we'd expect her specter to be snoring around.

The attorney general is quite right in wanting teetotalers as dry law officials, the one drawback being that they could never be sure they had a good case.

Issue of Church, State Come In For Discussion

NEW YORK, Feb. 1 (AP)—The issue of the church and the state and the passing of the home as the social unit, with its attendant problems, are the principal subjects treated in a report on "social work of the churches" compiled by investigators for the federal council of the Churches of Christ in America.

Saves Years for Car; Ride is Fatal

ASHEVILLE, N. C. (AP)—All his life Alexander Vallotton wanted to own an automobile. Year after year the farmer saved his earnings, adding to the fund by doing odd jobs between seasons. When he was 47 he had enough saved and the day came.

Novelist's Oversight

Harriet Beecher Stowe did not profit by the dramatization of her novel, "Uncle Tom's Cabin." In her total disregard of the theater, she failed to reserve to herself the dramatic rights of the book. Consequently, it was at the call of any producer who wished to have it.

Guard Against Typhoid

The pasteurization, or boiling for a few minutes, of milk and the boiling of water when it is of doubtful purity will remove all danger of typhoid fever.

Science of Cookery

Cookery means carefulness and inventiveness and willingness and readiness of appliances. It means that economy of your grandmothers and the science of the modern chemist; it means much testing and no wasting; it means English thoroughness and French art and Arabian hospitality.—Ruskin.

Sugar for Candy

A pinch of coriander or fennel mixed into the sugar when making candy will usually prevent curdling. The acid in the brown sugar is responsible for the curdling.

NEW CALENDAR BATTLE WAGING

Champions of 13-Month Plan Hope for Results by the Year 1933.

By Rodney Dutcher (NEA Service Writer) WASHINGTON—Calendar simplification is rapidly becoming an issue of more immediate interest and the champions of simplification are working for results by 1933, which will be the earliest year to change the calendar this side of 1933.

In the United States the favorite "new calendar" idea appears to be that of a year divided into 13 months of 28 days each, with one extra day—the 365th—to be known as "Year Day" and not by any other name. January first would be Sunday and a given date in any month would always fall on the same day of the week. The new month would be placed between June and July.

Why Change is Urged

The main arguments for substituting such a calendar for the one we have now are these: Business and economic life has to measure its progress in months and weeks. Statistical comparisons are now not so good because there are months of 28, 29, 30 and 31 days and each year a given date falls on a different day of the week. Without the same number of weeks in a month a month cannot be divided into equal parts. A week this year can't be compared with a week last year because it isn't the same week. Different days of the week have different values to different businesses, and so with months. A month with five Sundays is different than a month with four Sundays.

Statistics are so vital in these days that all this means a great deal to business. With the 13-month calendar all months would have the same number of work-days, Saturdays and Sundays—and thus be directly comparable, family and business bookkeeping would be simplified, much clerical work and expense would be saved and there would be a faster turnover of money with 13 monthly settlements.

The chief arguments in opposition are:

Confusion, complications and expense would result from calendar change. The number 13 is not divisible by two, three, four or six, the quarters of the 12-month year do not contain a whole number of months, 13 business closings instead of 12 would involve increased bookkeeping. Friday the 13th would come 13 times a year in the face of a superstition difficult to overcome, the regular occurrence of the seventh day Sunday would be interrupted once each year and twice in leap years. Birthdays and anniversaries would have to be changed.

Jewish rabbis are among the bitterest foes of this proposed calendar, basing their convictions on the Old Testament and the continuity of the sequence of the seventh-day Sabbath. The Seventh Day Adventists and the Seventh Day Baptists support them. Inserting "Year Day" means that the Sabbath must come on an eighth day once each year.

Nevertheless, more than a hundred large American business concerns are now using a system which divides the year into 13 periods for their own businesses and the calendar simplification movement is backed by a host of the largest national trade, financial, scientific, educational and labor organizations and scores of very prominent men and women serving on the national committee on calendar simplification and its special subcommittees.

One of the U. S. chamber of commerce referenda shows a majority of business men favoring calendar change by international conference.

Aggregation Wins "No man," said Hi Ho, the sage of Chinatown, "attains wealth sufficient to withstand assemblages of money that assert superior power." —Washington Star.

PETERS TO QUIT SCHOOL CHAMPAIGN, Ill., Feb. 1 (AP)—Forrest (Frosty) Peters star quarterback of the University of

Illinois for the past three seasons, will withdraw from school at the close of the present semester to accept a business offer in Los Angeles, and play football with the Olympic club. Peters also is said to have been offered \$5,000 a year to play football with a coast professional eleven.

Human Perversity We may forgive those who bore us, we cannot forgive those whom we bore.—La Rochefoucauld.

WINNING AGAIN!

Its 3 Major Challenges Performance Distinction and Value...

with a larger, longer, roomier car... with even faster speed... with greater power... with quicker get-away... also challenges in good looks—in real values—in reliability and in price...

The NEW ESSEX Challenger

The common exclamation of everyone when he has ridden in the new Essex Challenger is: "How did you get it! How do you get this greater power and faster get-away! How do you get this speed?"

"My Essex the Challenger is a wonder—but, man, this is a revelation."

It is a new Essex Challenger from front end to tail light. It is a longer, larger car. The Super-Six motor is made smoother and given a wider performance range. The motor retains every advantage you know in economy and long life. It is so distinctly modern in all the things that count that you must want to own it.

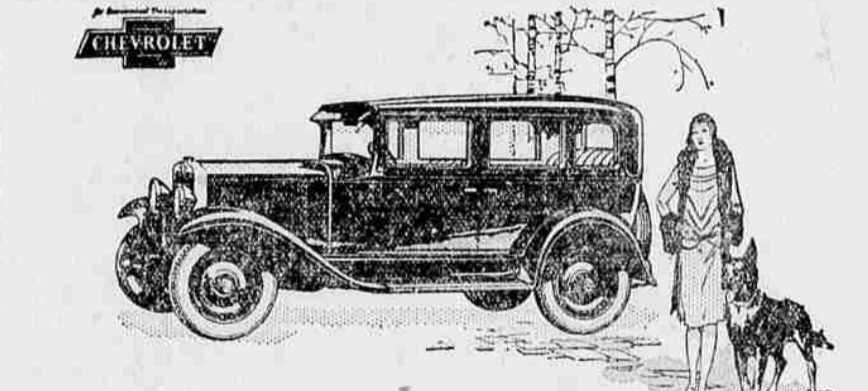

This sweeping challenge is for you to know the facts. It is for you to know that a thoroughbred automobile is available at a price all can afford.

Table listing car models and prices: Coupe \$738, Coach \$765, Standard Sedan \$780, Touring Sedan \$825, Roadster \$855, Light Sedan \$895.

Advantages that Challenge: Greater Power—Faster Speed—Quicker Get-Away—Added Economy. Even Greater Choice of Colors. Four Two-Way Shock Absorbers. Richer Upholstery, New Art Hardware. Larger, Finer, Roomier Bodies. Radiator Shutters, Electrocoil, Starter on Dash, Electric Fuel and Oil Gauge.

Greater Beauty - Finer Performance

Never has a Chevrolet car won greater praise for its appearance than the new Chevrolet Six. Its new Fisher bodies reveal in every detail the artistry that has made the Fisher name famous throughout the motor car world. In beauty of line and color, in balance and harmony of design, they represent one of the greatest style triumphs in Fisher history. Upholsteries are richer and more durable. The instrument panel carries a new and more attractive grouping of the control instruments. Seats are wider and deeper. In fact, not a single feature has been overlooked that would add to the comfort and convenience of both driver and passengers.

In addition to its new beauty, the new Chevrolet Six represents a remarkable advance in every phase of performance. Its improved six-cylinder valve-in-head engine has been increased to 50 horsepower—giving faster acceleration, and greater reserve power. Steering has been made safer and easier. Four Lovejoy hydraulic shock absorbers provide exceptional riding comfort. Fully enclosed, internal-expanding, weather-proof brakes give positive braking control. And numerous structural improvements add to the car's dependability, endurance and long life. Come in today and see this car. And remember, it is now available—
