Neighborhood Club Members Observe Art Week Tuesday

At the meeting of the La Grande Neighborhood club yesterday afternoon in the observance of art week, the program "Southwestern Art" was presented with Mrs. E. E. Westenhaver as speaker.

Mrs. Westenhaver gave a graphic description of the desert, of its vivid eye-catching colors; and the beauty of the Colorado mountains was also stressed, with its 14 peaks of over 14,000 feet in height.

"ROUNDED SLIMNESS" DECREE OF FASHION

Changes in Style Demand Return to Normal Diet

The flat, skiny figure is no longer in vogue. Slimness is to be desired, but in the words of an international authority "rounded slimness" should be the goal of every woman.

In attaining "rounded slimness," diet plays a very important part. Foods formerly avoided are recommended in every day's diet. These include meat, eggs, milk and plenty of vegetables and fruit. Cereals with milk or cream and sprinkled with sugar are also important in the diet for "rounded slimness."

Particular attention should be paid to desserts. puddings, custards, fruit pies and ice cream not only have food value but complete the meal in a most satisfying way. Candy is also an ideal dessert. And for variation try cream cheese and crackers with jelly or jam.

To avoid monotony in the diet, many foods can be improved by a little sugar. This is especially true of vegetables which often are tasteless because they do not reach the home immediately after they are picked. For example—spinach, tomatoes, carrots, cabbage and peas are much improved in flavor by adding a dash of sugar. A pinch of salt to a dash of sugar is a good rule to follow.

Aside from the enjoyment that sugar brings, it plays two important roles. First, it furnishes energy; and second, it helps continue excess fat which might otherwise be added to the body. Good food promotes health and beauty. The Sugar Institute.

A large part of the population in these states are of Mexican or Spanish origin. Mrs. Westenhaver not only described art of the past in the southwest, but also the present. A number of paintings, posters, blankets and pictures were on display.

Mrs. Lynn Wright gave a planelogue, "The Birth of the Quail." The Christmas seal committee reported that the seal sale total has now reached \$1213.10.

The Oregon Trail beautiful committee announced that in order to secure a fund for carrying out the plans of the committee, a series of parties will be given on February 14 and 15. Each member of the committee will be a hostess at her home to a group of club members and friends on one of these days.

Missions Program Features Meeting

A mission setting of three stucco arches, a pretty fountain, and a candle lighted altar, set high just behind the middle arch greeted the visitors in the Methodist church basement last night, when the Young Women's Educational auxiliary met with the Missions of California on the subject of one of the most delightful and impressive programs during the year. It was a program that was entertaining, but had such a note of sincerity that it will not easily be forgotten.

"The King's Highway," a poem recited by Miss Bertha Wallisinger, inviting the crowd to journey down the mission way, from San Diego to San Francisco. Miss Mabel Doty, chairman of the evening, gave a brief history of California and the missions, later showing slides of about 12 of the missions.

Father Junipero Serra, well characterized by Miss Wallisinger, was shown in the first act of the mission play, hoping for strength and praying for aid to establish the missions in California.

The Kyrie and the Sanctus, Catholic chants and mass were sung, lending realism to the scene, by Cleland Wallisinger, Kermit Ragain, and Mrs. Marguerite Cooper.

A dialogue between Father Junipero and another priest, Cleland Wallisinger, mentioned the success of Father Junipero to help his beloved California.

A gay fiesta scene with songs and dances was portrayed by a group of players attired in Spanish costumes. William Hall, Daisy Robbs, Kermit Ragain, Miss Mima Cooper, Mrs. Marguerite Cooper, all sang Spanish songs. Misses Frances and Mary Asla danced a pretty Spanish dance, accompanied by H. Parker playing a guitar. Mr. Parker also presented a guitar selection. Others in the fiesta group were Mrs. R. P. Tyler, Miss Helen Williams, Miss Blanch Herzinger, Florence Williams, and Mrs. Ira Aldrich.

Senora Yorba (Mrs. Beatrice Young) and Ubaldo, the Indian (Mrs. Aldrich) in act III of the mission play were at the ruins of Capistrano, and sounded a requiem of the missions which had just been captured by Mexico.

Assisting Miss Doty, committee chairman, were: Miss Hanch Herzinger, Miss Bertha Wallisinger, Miss Mae Stearns, Miss Mildred Hoyt, Mrs. L. M. Hoyt, and Mrs. H. E. Dixon.

Ruth Brown, chairman and Mrs. Helen Triley, Lola Martin, Ruth Clark and Elsie Clark are the committee for the meeting next month.

Mrs. Renwick Clark, vice president, presided in the absence of Dr. Lewa Wilkes. At the short business meeting, preceding the program the nominating committee was announced as follows: Blanche Clark, chairman; Lulu McNeese and Mrs. R. P. Tyler. The program committee with Mrs. Edith Byers as chairman, consists of Miss Alice Klippel, Blanche Spears, Miss Mabel Doty, and Aileen Cook. This committee will plan the programs for the meetings of Y. W. E. A. for 1930-31.

The P. T. club spent a delightful evening last night at the La Grande hotel with Miss Eleanor Glass, Miss Jean White, and Miss Margaret Baker hostesses at four tables of bridge. Honors were won by Miss Bernice Wilson. Consolation award was presented to cards a dainty luncheon. Following cards a dainty luncheon was served.

La Petite Bridge Club Entertained

Members of the La Petite Bridge club were entertained last night at a party at the home of Mr. and Mrs. Nolan Skiff. A St. Valentine's motif was followed during the evening with little Garcia Lee Skiff, representing cupid, giving out valentine scorecards to the guests. High scores were made by Mrs. T. C. McDonald and T. W. Ruckman with Mrs. Egan Thomas and Howard C. Glenn receiving consolation awards. A two-course luncheon conformed with the valentine theme. The club will meet next at the home of Mr. and Mrs. Ruckman.

P. T. Club Meets At The La Grande

The P. T. club spent a delightful evening last night at the La Grande hotel with Miss Eleanor Glass, Miss Jean White, and Miss Margaret Baker hostesses at four tables of bridge. City Council Of P-T. A. Meets

When the La Grande City Council of Parent-Teacher associations met Monday afternoon at the Seawave Inn, a number of important items of business were discussed.

Among these was a proposed amendment to the by-laws of the association which will be voted on at the next meeting. The object is to give equal representation to each association.

During the hour preceding the regular meeting, a public welfare conference, and a presidents conference was held. At the public welfare conference under Mrs. La Faux, Judge I. G. Couch and Chief of Police Clint Haynes, both spoke of various phases of public welfare work and answered the questions of those present.

Announcements

The home department of the First Presbyterian church will meet in the community room of the church, Thursday afternoon at 2 o'clock. Hostesses for the afternoon are Mrs. Lynn Bohnebaum and Mrs. W. L. Dickens. The change in the meeting place is due to illness in Mrs. Bohnebaum's home. All members and friends are urged to be present.

Chapter I of P. E. O. will meet Friday for a 1 o'clock luncheon at the La Grande hotel with Mrs. A. L. Richardson and Mrs. Lee Warrick, hostesses. After the luncheon they will go to the home of Mrs. Richardson for their meeting.

The G. I. A. of B. of L. E. will meet tomorrow in regular session at the K. P. hall at 2 o'clock.

The regular meeting of the Willow Parent-Teacher association will be held at 7:30 o'clock, Friday afternoon in the Willow school.

HERE'S REAL SPEED

SCHEENECTADY, N. Y., Feb. 5 (AP)—A radio program traveled approximately 20,000 miles Tuesday in about one eighth of a second.

The program was broadcast from W2XAP, the experimental short wave station of the General Electric company, here picked up by VK2ME, a short wave station in Sydney, Australia, and rebroadcast back to Scheenectady, where it was transferred to WGY, the General Electric company's regular station, and again rebroadcast.

Company engineers said it was the first time to their knowledge such a feat had been performed over so great a distance.

Gets \$20 More

and pledged itself to cooperate with the committee. This means that the Strawn group backed by more than \$50,000.00 will advance money as it is needed for economic functioning in the city government.

Health Talks

WHAT'S IN A NAME? A wit had said that the ignorance of science is hid in Greek words.

There is implied in this jesting criticism a culpability which must be denied. As science discovers new bodies, new conditions, new reactions, it must coin words to designate and describe them.

Greek, better than Latin, supplies us with language elements out of which we may build new scientific words. Sometimes, however, the progress of science outruns its terminology and confusion results, often in the minds of the laity, quite often, too, in the minds of the scientists.

When it was discovered that all living things are made up of little masses of living substance, appropriate names had to be coined for both the masses and the substance.

The masses were called cells and the substance protoplasm. Robert Hooke called the masses cells because he saw them first in cork, and the little bodies that make up cork are square shaped, like monks' cubicles.

As it happens, however, actual cells in living things are seldom square shaped, but more prone to be round, triangular or polygonal. Still, the name cells persists.

The substance in the cells is called protoplasm, which is a compound Greek term meaning "first substance."

We say a person is vaccinated and we speak of vaccine. The term is derived from the Latin vacca, which means cow. The reason for that was that Jenner discovered that the lymph from cow pox could be used to protect man against small pox.

Today, however, we vaccinate against typhoid and use dead typhoid bacilli.

As our knowledge of any branch of medicine progresses, scientists tend to clean house, so to say, and to coin new expressions that more appropriately fit the situation, and thereby reduce confusion.

Rules Corrupt Practices Act Constitutional

MADISON, Wis., Feb. 5 (AP)—The state supreme court Tuesday ruled the corrupt practices act constitutional in its application of elective officers of the state. It ordered returned to the circuit court an action to oust Governor Walter J. Kohler from office.

Leaders of the progressive-republican faction in Wisconsin started the action against the governor, contending he violated the corrupt practices act by making excessive expenditures during the campaign in 1925.

In circuit court, Judge James Wickham, of Eau Claire, sustained a demurrer filed by the governor's attorney which admitted the charge that he had expended more money in his campaign than permitted by law, but contended the corrupt practices act unconstitutional. The supreme court's ruling reversed Judge Wickham's decision.

Those who sponsored the action against the governor were Phil La Follette, William T. Egan, Glenn D. Roberts and Alvin C. Reis, progressive leader, all of Madison.

The governor's political opponents had charged he spent approximately \$100,000 in his campaign for governor. The statutes limit the amount to \$5,000.
